A BIG BOOK SNAP

Several thousand volumes of miscellaneous titles bought from "Brentano's" of New York.

Novelties in Brass

The wanted kind's cost less here. Hammered Brass Jardinieres with ball feet.

OMAHA BANK TO BE FINEST

New Home of the Omaha National Will Be Best in Country.

THREE TIMES FORMER SIZE

Number of Peculiar Problems Overcome in Remodeling of New York Life Quarters into Gorgeous Bank Room.

When workmen have finished remodeling the lower floor of the new Omaha National bank building, Omaha will be able to boast the handsomest banking rooms in the United States—bar none.

The work is now nearing completion, the plastering being about done and the marble workers having finished over half of their task.

Completion of the plastering and installation of part of the marble work already affords some idea of what the completed rooms will look like.

Remodeling of the first floor of the old New York Life building presented some peculiar problems to the architect, who is George B. Prinz of Omaha.

The public portion of the bank is to be on the west side along Seventeenth street. The windows and counters will be here for the paying and receiving tellers, and in the corner on Farman street will be one novel bank officer, a teller exclusive for women patrons.

At the back of the first floor where the Payne-Bostwick offices used to be, the counter continues in an east and west direction connecting at right angles with the north and south counters at either end.

These doors are both sledge proof and drill proof. They are operated by double breakers so that two bank officials are necessary to open them at the time fixed by the time clock.

Boys and Girls to Participate in County Fair

Big Exhibition as Part of the Show to Be Given on the King's Highway.

"A remarkable industrial advancement in Douglas county, as well as unusual agricultural progress, is indicated in the promises of exhibits given the managers of the Douglas county fair," said G. W. Hervey, secretary of the Douglas County Agricultural society, today.

Mr. Hervey also announced that arrangements had been completed for the leasing of the grounds where the fair was held last year, on Douglas street between Ninth and Twentieth. The fair lasts from September 23 to October 3, the last exhibit being received on September 23, except in the poultry department, whose show opens Monday, October 2.

"With \$4,000 in prizes hung up," said Mr. Hervey, "there is every indication that this year's fair will be superior to any held by the society since its organization in 1888."

"The precinct superintendents are rapidly getting their collections in shape, and unusually fine exhibits are assured. The prizes in this department alone amount to \$600."

"Much of the precinct exhibition as a whole will include the county exhibition which won a premium at the state fair."

"One of the finest showings, according to the present indications, will be that of the floral department, in which there are offered sixty-eight prizes, ranging from \$30 down."

"Another feature of unusual interest will be the boys' and girls' departments. The events in these classes have been arranged to conform with those in the state fair. Although such departments have not been included in the county fair before, we tried them last year at the National Corn show, when they were a great success. They certainly will be even more successful this year."

ITALIAN COUPLE IN COURT

Bronnia Household Wrought Up Over Husband's Agreement to Jump Out.

There was war in the Bronnia household Wednesday afternoon, a bitter domestic war with all its attendant horrors of flying dishes and harsh words. As result, the Bronnias, late of sunny Italy, presently arrived at the city battle in a somewhat heated condition.

Friday morning, arranged before Judge Crawford's stern tribunal, through the aid of an interpreter, the Italians recited their woes. Domestic joys had palled on the head of the house, Mr. John Bronnia, and he had made up his mind to leave for good and all. However, he had not reckoned with Mrs. John, who thought differently

Dean Beecher After Convention

Will Try to Induce the Next Prison Congress to Meet in This City.

Dean G. A. Beecher left Thursday night for the annual meeting of the American Prison congress to be held at Washington, prepared to make a fight for the 1911 convention for Omaha. He takes with him the invitations of the Commercial club, Knights of Ak-Sar-Heo, mayor and city council.

For several years past the congress has been meeting at the large cities of the east. Judge Estelle of the criminal division of district court, who has been watching the congress, says there is a decided sentiment in favor of a western city for the next meeting. Omaha will make a strong bid and the chances are favorable for landing it.

Immediately following the meeting of the American Prison congress, which convenes from September 23 to 30, the International Association of Charity and Reform will open its regular meeting, held once every ten years.

Commencing September 13, for the ten days preceding the opening date of the American Prison congress, the visitors from foreign lands will tour the eastern states, visiting the great penitentiaries and studying methods of reform in the United States. Dean Beecher will accompany the party.

Plans Complete for the Prelate

Invitations Have Been Issued for the Banquet at the Faxon Hotel.

The committee of invitations working for the reception of Cardinal Vincenzo Vannutelli, who arrives September 22, Friday issued 500 invitations to the banquet which will be given in honor of the cardinal at the Faxon hotel, the evening of his arrival.

REV. J. L. FISHER IS INSANE

Minister Who Slashed Throat in Suicide Attempt is So Adjudged.

TAKEN TO ASYLUM AT LINCOLN

County Insanity Board Examines Minister and Finds He Was Long Unbalanced—Became Violent at Masonic Home.

Rev. Jesse L. Fisher, formerly pastor of Seratosa Congregational church, who attempted suicide six weeks ago by slashing his throat with a razor, was adjudged insane Thursday by the County Insanity board and was taken to the state asylum at Lincoln Thursday evening. After an examination Dr. Tilden, member of the insanity board, announced that Rev. Mr. Fisher had undoubtedly been insane long before he made the attempt upon his life.

Physicians state that while he is in a serious condition, there is some chance of final recovery.

Soon after Dr. Fisher tried to take his life he was taken to the Masonic home at Plattsmouth. He soon began to mend and would have suffered no ill effects from his wound. But as he became convalescent and gained strength he became violent with a suicidal mania. His one thought was of self-destruction and he had to be kept under careful watch.

Dr. Tilden ascribes Mr. Fisher's condition to a broken down nervous system brought on by cerebral fever.

Was Popular Pastor.

Rev. Mr. Fisher was pastor of the Saratoga church for over a year. Through his big-heartedness and generosity he built up a firm friendship with the members of his congregation. He has been in the ministry for about ten years.

Schwab Pays Omaha Praise

Steel King Drops In on Way to Sell Some Armor Plate to Chinese Prince.

"Omaha has a reputation among eastern business men as a really live town." This is the compliment paid to Omaha by Charles M. Schwab, former president of the United States Steel corporation and now president of the Bethlehem Steel company.

Mr. Schwab and a party of his eastern business associates are on the way west to meet Prince Tsai Hsun of China, head of the Chinese navy. Mr. Schwab says that the trip on his part is strictly a business enterprise and that the noted member of the Chinese royalty was interested in American and other modern navies and was coming here with a view to inspecting the United States battleships.

Mr. Schwab refused to commit himself on politics or financial affairs, but appeared greatly interested in the conditions in the west and in Omaha. He is a big, jolly looking man, with a glad hand for everybody and a habit of asking searching questions of an interviewer.

According to his present plans Prince Tsai Hsun will arrive in Omaha on his trip from San Francisco to the east at midnight Wednesday. He will be met in San Francisco by the Schwab party and by Kwai Yung, secretary of the Chinese legation in Washington, and Lieutenant Commander Gillis of the United States navy. The party on the trip will include twenty-one persons, as the prince has quite a retinue accompanying him.

Mr. Schwab left it open to conjecture what his business with the prince would be, but it is understood that it concerns the steel interests. He said that he was not sure that he would make the eastern trip with Prince Tsai Hsun, but that he probably would return with him.

VETERANS OFF FOR THE CAMP

Annual Encampment of the G. A. R. at Atlantic City and Nebraskaans Going.

Three special cars carrying members of the Grand Army of the Republic of Nebraska left Omaha last evening over the Burlington bound for Atlantic City. The annual convention of the Grand Army of the Republic, which starts Monday, is the occasion for the trip.

Besides a number of Omaha people aboard there are also old soldiers from Lincoln and others of the Nebraska towns in the party.

The Northwestern also has a number of parties going out over its lines, one of them starting last night. In it are Mr. and Mrs. Andrew Traynor, Mr. and Mrs. J. A. Dempster, Mr. and Mrs. Edward Urdike and E. A. Dunn.

NEW HARRIMAN LINE IS TO BE BUILT IN OREGON

Will Open Up a New Mining and Lumber Country for the Nord.

A new railway, which will open up the Illinois valley in Oregon and touch upon some copper mining and redwood forests, there is about to be built from Grant's Pass in Oregon into Crescent City, Cal.

The new line will be called the Grant's Pass & Western, and is incorporated under the names of J. P. O'Brien, who is the vice president and general manager of the Southern Pacific in Oregon and of the Oregon Navigation company; C. G. Rutherford, assistant to Mr. O'Brien, and James G. Wilson of the legal department of the Harriman lines in Oregon. The road will be a part of the Harriman system.

The move is taken partly to head off the
