Continued Fair, with No Important Change in Temperature. OMAHA, Sept. 20, 1910.

Liverpool cables were surprisingly strong, giving domestic markets a firm and higher opening. However, conditions favor the bear side, as the visible supply is large, primary receipts liberal and the absence of milling and export demand continuous. The action in corn is better, as local demand has shown some improvement. Conservative houses are favoring the bear side, while the present weather conditions exist. The sharp advance in Liverpool was the cause of the firmness in wheat, although our advance was not equal to foreign markets. Sample offerings were absorbed redlity at the over yesterday.

Fine weather was the weakening feature in corn and while the early trading was rather firm later in the session the market weakened and cash values ranged unchanged to be lower.

Primary wheat receipts were 1,314,060 bu and shipments were 1,075,000 bu, against receipts last year of 2,075,000 bu, and shipments of \$65,000 bu.

Primary corn receipts were 787,000 bu and shipments of \$66,000 bu.

Clearances were 18,000 bu. of corn, none of oats and wheat and flour equal to 88,000 bu.

Strength Shown at Outset Cause Realizing Soles and Reaction Results-Developments Encouraging in Copper Stocks.

NEW YORK, Sept. 20.—The narrow limitations of the present stock market were marked again today by the way in which price movements exhausted themselves before going far in either direction. The wholly professional participation in the trading serves to explain this restricted movement. The settlement of larger questions is awaited by larger financial interests before attempting any important irransactions in stocks. Buying for London account was a factor in the strength shown at the outset here. The higher prices brought realizing sales and reaction est in the decline began about the time the filmance committee of the United States Steel corporation was ready to go into session and that stock led the movement. A rise in the price of copper in London was cited and reports of copper mining companies of the secondary grade was pointed to as an encouraging development in the copper trade. Reports of leasening demand for steel products, of increasing competition in circulation and happened go depress in the prices of leading lines were kept in circulation and happened go depress in the prices of leading lines were kept in circulation and market sentiment; was rather at a loss to interpret its significance or its effect on Union Pacific as the owner of the existing stock and the proposed taker of additional stock when it shall be issued.

Lee Rothschild 336 43.16. Quality and weight of the two strings been price of the same clark to a second purposes are quotable up to \$3.86, but it takes choice ones to bring this figure. Trees on best kinds of feeders are just about steady with last week's close. The poorer grades are slow, with sales unvery liberal this morning, 402 cars being reported in. This makes the total for the same time last year. This means that receipts so far this week have been very liberal as compared with previous weeks, though they are not as heavy as they were two weeks ago. Under the influence of large receipts, together with a rather unfavorable outlook at other selling points, the trade here opened slow and weak. Everyone seemed prepared for a somewhat lower range of prices, and buyers were accordingly slow about getting down to business, preferring to await later news from other selling points before doing very much.

There were not very many really good beef steers in the yards this morning, the part consisting of the in-between kinds, which are never very liberal served to business, preferring to await later news from other selling points before doing very much.

2.206 SHEEP-No sign of weakness developed in sheep and lamb trade today; on the contrary, best kinds of fat stock moved at figures firm to a little stronger in spots. Supplies were large with feeder offerings especially plentiful. Yesterday's clearance was almost complete, however, and buyers were in no mood to hold back their orders in the hope of cheaper prices later in the

Demand from all sources was generous from the opening, both feeder and fat grades moving readily as soon as shipments could be shaped up in selling form. Fat lambs were none too plentiful, but some good ones arrived, making possible a top of \$7.00. Fat wethers sold as high as \$4.20, as compared with yesterday's best price of \$4.15. Wool Market.

Wool Market.

BOSTON, Sept. 20.—WOOL—More snap is apparent in the loca. wool market, due, it is said, from a demand for domestic product by foreigners. The foreign buying so far has been confined to short Oregon clothing, No. 2 California and short Montana, and while the aggregate amount is not large, the advent is encouraging. Again it has stimulated some buying by the mills. Values remain steady and no increase or decrease is anticipated for some time. The bulk of the local business has been in territory in original bags, mostly from Montana, Wyoming and Utah, and bringing 19c to 21c in the grease.

The fleece division of the market is dull, with Ohio half-blood grades selling at 2872c.

It is said the foreign buyers paid 5245cc for Red Bluff, Cal., wool.

to Be Started

To Rise Out of the Smoldering Ruins of the Omaha Railway It appears at last that the Omaha Rail-

way club, which has been having some little trouble settling difficulties of club life. financial and otherwise, has arrived at a solution. Several of the present members of the club have offered to take the club rooms just as they stand with the debts and all and from a new organization. The new plan is to start the Omaha Traf-

fic club, as it is to be called, on a strictly business basis and run it in that manner All the old members of the Omaha Railway club who wish to join will be welcome, and it is thought that many of them will do so. No action has been taken on the proposal as yet.

CHINESE PRINCE ARRIVES IN OMAHA THURSDAY

Travels on a Special Train with Large Suite-Stay in Omaha is Short.

Prince Tsai Hsun, head of the royal navy of China, will arrive in Omaha on his trip through the United States on Thursday evening about 7 o'clock. Leaving San Francesco Tuesday morning

at 10:30 he reaches Ogden at noon Wednesday and Omaha in the evening of Thursday. No long stop will be made here, but he passes right through to Chicago, arriving there Friday morning. A special train has been provided by the Union Pacific to carry the royal visitor and his party. In the party at the present time are the

prince and his retinue, Lieutenant Commander Gillis of the United States navy. Kwai Yung, secretary of the Chinese legation in Washington, and Charles M. Schwab and party, who went west to meet the prince.
