Irrigation Aid to Progress,

former president of the National Irrigation congress, in his address delivered here oday made a strong appeal for irrigation, not only as an economic project, out as an aid to civilization and a potent factor in the world's progress. His speech,

part, follows: "The first essential for a successful issue of irrigation is a sufficient supply of good

water. One may possess 29,000, 50,000 or 100,000 acres of fine alluvial land, splendid climate, nearby markets, etc., and yet, if lacking a proper supply of water, he need not look for a successful issue. I regret to say that there are men in different field, Ill. Brookins sailed about at an al-

possession of land, have made the lunocent to suffer and also brought some dis repute on a great and most important national industry.

"We cannot too strongly condemn operations of this kind, and I trust that the committee on resolutions of this congress

will present for our adoption a resolution on this matter, setting the subject before the country in no uncertain manner. If

we are to continue in irrigation by private enterprise in the great and and semi-arid parts of our nation we must constantly draw and hold the confidence of our

monied interests and investing classes. We cannot hope for such most desirable
