Prediction is for Hising Temperature

in This Vicinity.

OMAHA, Sept. 27, 1910. OMAHA, Sept. 37, 1006.

The wave of cooler weather spread over the central valleys during the night and temperatures are decidedly lower in the lower Missiouri and middle Mississippi valleys this morning. Temperatures at or belief freezing are general in northern Nebraska, northern lowa, throughout the upper valleys and west to the mountains, and light to heavy frosts occurred in Nebraska, Kansus and western fowa. Rains were general over the central valleys east Wheat continues weak and values say lower on lower cables and lack of domestic and foreign densard. Despite the fact that receipts have been falings off, stocks are still increasing, making values extremely heavy.

The corn market was weak with wheat, frost reports being ignored. Demand was slow and the market showed no rallying power.

The pressure of heavy stocks with the absence of any snipping demand gave wheat another decline today. Cash business is very dull and sample sales showed a loss of %616.

Reported frosts scattered over the corn belt did not affect the market and offering, wheat receipts have year 242,000 bu.

Reported frosts scattered over the corn belt did not affect the market and offering, wheat receipts have year 242,000 bu.

Reported frosts scattered over the corn belt did not affect the market and offerings, though light, were taken in, ranging with the last trape and precipitation since March 1, lineas, by carry dull and sample sales showed a loss of 1,402,000 bu.

Primary wheat receipts were 243,000 bu and shipments were 857,000 bu, against receipts last year of 2,250,000 bu, and shipments were 857,000 bu, and shipments were 857,000 bu, and shipments of 1,402,000 bu.

Clearances were 25,000 bu, of corn, 100

CHICAGO GRAIN AND PROVISIONS

Fentures of the Trading and Closing

Prices on Honrd of Trade.

CHICAGO, Sept. 27.—Cumulative results were shown today for the poor outgo of spot wheat and for the balf-hearted support of more deferred deliveries. The market was on the down grade all day and closed at a net loss of there. The finish in corn was %2%c to 1%c off. Oats were down %2 to 2%c lower.

Wheat had a wider range than for some time and was decidedly more active. One large short covered more than 1,00,000 bu. which had sold at about 2c higher. Much other short wheat was also bought in. Nevertheless, there was an adequate supply steadily forthcoming, and news influences was afmost exclusively bearish. The only important buillish factor, a big decrease in NEW YORK GENERAL MARKET.

READING LEADS IN THE DEALING

Prices at Close at Lowest Point and Show Small Net Losses-Compiletion of National Bank Reports Studied.

The banking community studied with great interest the compilation of national bank reports to the comptroller as of September 1, although the subject was not much discussed in the stock market itself. And the showing was regarded as demonstrating the wisdom of the drag which was applied to the extension of credits, following the appearance of the spring abstract of bank reports.

The influence of the paper settlements continued to harden in the rates in the immediate money markets. The sub-treasury has taken \$4.291,000 from the New York banks thus far this week. Money on call rose to \$1\frac{1}{2}\$ per cent.

- HELP WANTED-FEMALE

HOGS—Hog trade presented the same quiet, though uneven, appearance that has featured the market on most days lately. Inquiry from both packers and shippers was rather backward and while a few early sales carried quotably strong figures, the bulk of offerings sold at prices no better than steady. In fact, the tendency to trade was, if anything, weaker, much of the morning's business being done on a steady to dime lower basis.

Late trade was especially draggy, best bids dropping to figures just about 15c lower. Several loads sold on this basis, but movement was very glow and at midday

As was the case yesterday almost all the receipts consisted of stock from the west two weeks or more, prices have held up true of this market, where the trade has a tevery other market point for the last two weeks or more, prices have held up true of this market, where the trade has a tevery other market where the trade has a tevery other market than has prevailed here for some time back. Prices of cattle have sold very high. As a matter of cattle have sold very high. As a matter of cattle have been led into free buy and the highest of the three three for some time back. Prices the splendid condition of time market the splendid condition of time market as been so large that as been so large that for all the remain for all the remain for all the remain for all the remain for all the remains the splendid condition of the splendid condition of time that as been so large that as been so large that the splendid condition of time market the splendid condition of time market

SHEEP—Despite the fact that yesterday's sheep receipts broke the world's record and established a new one, prices on good classes of stock were well sustained from start to finish, with the demand ample from all quarters. In a general way, desirable killers and feeders moved at figures steady to possibly a little lower in spots, as noted in yesterday's report, with common feeders, light lambs and thin ewes especially, unevenly lower. Not the least feature of the trade, however, was the fact that the big bulk of offerings actually sold. Delivery alleys were crowded, of course, and several large strings that changed hands late in the day had to be locked up until this morning, when they were able to reach the scales.

Another large run was yarded today, but demand for feeder stock appeared to be as keen as at any time lately and the market opened at figures little different from those of yesterday. Strong-weight feeders are favored as a rule, and with flesby grades attracting more or less competition from packers, they are selling relatively higher than bands of common quality.

With the percentage of good, fat sheep and lambs still small, packers are not

LOST AND FOUND LOST SHEPHERD dog; yellow and white mand is naturally active and, as will be moted in the scale of prices, the trade is little if any lower than it was at last week's close. Good grass tambs are quotable up to 16.75 or better, with best wethers around \$4.00g4.16. Unifee lat ewes sold up to \$3.75 yesterday, with common kinds around \$2.00.
