### "BIG BILL" ESSEX IN TOWN

Former Sheriff of Sheridan County Tells of State's Prosperity.

### SEES GREAT GROWTH IN CHANCES

F. W. Hollingsworth Also Has Word on Conditions—Says Automobile Is Most Profitable Thing for Farmers' Use.

"Big Bill" Essex, former sheriff of Sheridan county, but now of Lincoln, is in Omaha to enjoy the Ak-Sar-Ben festivities. Mr. Essex has just returned from a trip that took him into many parts of western Nebraska, and talks with enthusiasm of the conditions he found.

"The people of western Nebraska have the money," said Essex. "They have twenty sources of income today where they had but one or two, and not very sure in character, some few years back. Grain and stock, the staples, are the basis of the existing prosperity, of course; but alfalfa, hay, root crops, dairying, the hen yard, the orchards, all these are steadily bringing money to the coffers of the farmer. Nebraska farmers are doing better than ever before. At the county fairs in northwest Nebraska the displays are every year growing in extent and variety, and the character of the exhibits in every department is so high that any section of the state could well be proud of them.

**Bank Deposits Big.**  
"Another significant indication of the solid progress of the western half of the state, so recently considered a desert, is found in the bank deposits. Take almost any live town in that part of our state, and the figures telling of the money on deposit would hardly be believed by a person not familiar with the conditions. But the money is there, and its owners are adding to the amount with every passing month. The price of land is astonishing, looked at superficially, but is reasonable when it is realized the men working it are making good interest on their investments and are all the while acquiring more. Many a piece of western Nebraska land is now being farmed by men from Iowa and other states, who are finding their first judgment upheld by results."

**Auto Most Valuable Thing.**  
F. W. Hollingsworth, a land man who covers Nebraska territory several times a year from Lincoln, brings the news that the automobile is the most profitable thing that has come into the possession of the

farmer in this generation. "It enables a busy man with large holdings to watch, to get about with a celerity he never knew before. So many farmers are today operating on a large scale, either in grain growing or stock raising, that some quick means of travel is absolutely necessary. They find that personal attention is what counts, and the automobile enables them to give this kind of attention, in a business way, as well as affording plenty of opportunity for pleasure to themselves and their families.

"That the farmers of Nebraska can afford automobiles, probably better than any other class of people, is amply proven by the stories of live stock arrivals and high market prices featured in The Bee and other newspapers every day."

**The Gratitude of Elderly People.**  
Goes out to whatever helps give them ease, comfort and strength. Foley's Kidney pills cure kidney and bladder diseases promptly, and give comfort and relief to elderly people. Sold by all druggists.

### TO KEEP TAB ON PARTIES

Clerks of Registration to Ask the Voters Their Party Affiliation.  
On October 4, next Tuesday, registration day, the clerks of the registration will be asked by City Clerk Butler to keep an unofficial tab on the party affiliations of the registering voters. This will give an approximation of the party intentions of the citizens before the long process of counting over the enrollment in the clerk's office. The last registration was 3,974 in Omaha and 831 in South Omaha. At the election there probably will be 2,900 votes cast in the country precincts, 4,000 in South Omaha and 18,000 in Omaha.
