To women who do NOT knit or crochet.

You do some kind of fancy work-of course. Now, fancy work is, or should be, a form of relaxation. Knitting and crocheting serve this purpose perfectly. They do not require strain of any kind-on muscles, nerves, or eyes. They do not demand close attention, yet always hold the interest because the work "goes" quickly. They have received the approval of doctors. Look into this. Send us the coupon below. Let us tell you how to begin-show you the beautiful and useful things you can make and the kinds of yarns to use. You will use the Fleisher Yarns of course-most women do. They are the finest yarns made.
