

MORE LIVE STOCK RECORDS

Totals for Week and Month Show New High Marks.

WORLD'S RECORD FOR WEEK

Record for Month is Equalled by Totals Up to Date and Number of Cars Received and Sent Out Make New Marks.

More records for receipts of live stock at South Omaha, in addition to the world's record established September 28, were found to have been eclipsed when the totals were reported Saturday. The total receipts of sheep for the week reached 186,228, and was the highest ever known in the markets of the world. The total September receipts, likewise, were the highest in the sheep department ever received at South Omaha, the month's receipts being 937,122. The previous record for the month had been in September of last year, when 854,229 sheep were received.

The cattle record was established September 5, with a total of 15,561, compared to the record of 12,000 for one day made in 1882. This week has brought about the record receipts of cattle for that period, with a total of 42,000 head. The cattle receipts of the month were 173,996, the best ever received at the local market.

Register Tuesday or Risk Ballot

Lineup on Second Day of Registration Will Afford "Dope" on Election.

The registration next Tuesday will give the politicians a chance to line up the possibilities of election day. The party affiliations declared by the 15,000 or 18,000 voters who will sign up on that day and October 29 will prove nothing definitely, but will show which way the wind blows and how enthusiastic the voters are going to be when the real test comes.

The campaign committees are doing the best to get everybody out Tuesday. There are only 2,974 on the Omaha books from the first day, September 6, and 833 in South Omaha. This means that more than 15,000 men in Omaha who are probably expecting to vote November 8 have not yet signed the books and are running the danger of great inconvenience or a positive disfranchisement, if they do not get busy. The last day will probably be a great rush, and a rush always means a loss of registration. Everybody interested wants to do away with it as much as possible.

The penalty for not registering is giving up your vote or going to the clerk's office on election day and getting your rights sworn to by two freeholders in your ward and precinct. Those who went through this process on last primary day are not registered and should not believe that nothing more is necessary for them. They must register again just like anyone else.

Motorists Must Carry Lights

Commissioner Pickard Declares He Will Take Steps Against Careless Autoists on Speedway.

Action against motorists running into the city without lights having spent the afternoon at the Omaha Motor speedway will be taken up by the Board of County Commissioners if County Commissioner Pickard has his way.

"Complaint that the laws requiring lights on motors are being violated by some of the speedway patrons was made to the commissioner Friday night."

"I will propose that we station at least one officer there to see that the motors carry lights," said Mr. Pickard. It certainly is dangerous for them to run without them and it surely is a violation of the law. I don't want to be understood as 'having it in' for automobile drivers. I drive a machine myself. Ninety-nine out of 100 are careful drivers and conform to the law in every respect. They get into dire peril on account of the recklessness and carelessness of the other one."

Carter Lake is to Be Improved

Additional Money Given by Mrs. Cornish to Be Spent Along the West Edge.

The \$10,000 which was given to the Park commission by Mrs. E. J. Cornish for additional improvements to Levi Carter park will be used for building a sea wall or levee at the west end and in clearing out and filling up the swampy part at that end. The park was originally made possible by a large gift from Mrs. Cornish and Mr. Cornish has donated a strip of land 200 feet wide at the west end to serve as an entrance to the grounds.

REOPENS RECRUITING STATION

Lieutenant N. W. Post, in charge of the local naval recruiting station, received an order this morning from the Navy department at Washington giving him authority to re-establish the recruiting station at Sioux City.

The office at Sioux City was eliminated last June when it was notified by the Navy department that the number of recruits there had decreased to such an extent the station was not necessary.

Quartermaster J. B. Zimmerman, who is now an assistant in the Omaha station, will be sent there within the next two weeks to take charge of the new post.

A. D. Brandeis is Home from Europe

Leaves Family in New York for the Winter—Glad to Get Back to Omaha.

"The best thing I saw on my trip," declared Arthur D. Brandeis, "was the statue of Liberty as we came back to New York harbor. That is no mere outburst of patriotic effect, but what I actually felt. I had not been abroad for fourteen years prior to this trip, for I am not a good sailor. I shall be content to stay in America the rest of my life."

Mr. Brandeis returned to Omaha Saturday morning. Mrs. Brandeis and their children remained in New York, where they will spend the winter in their home town.

"I suppose," said Mr. Brandeis, "the Omaha men married."

Marriages Are on the Increase

Records Show that September Has Surpassed the Same Month Last Year.
