PYTHIAN TRIAL IN PROGRESS

mined to Bring Trouble Upon Coal Dealers, Alleging Combine on Prices.

(From a Staff Correspondent) DES MOINES, Ia., Oct. 5,-(Special Telegram.)-In district court today F. J. Mc-Campbell was cited for contempt in having kidnaped his own child, aged 3 months. The court had given the child into the custody of its mother and immediately thereafter the father called at the house and carried the boy away. In court he pleaded ignorance of the decision of the court and was let go with a reprimand.

Pythian Trial. fate of seven past grand chancellors accused of libelous action, a number of witnesses were heard today as to the matters in dispute. The defendants won a point in that the tribunal refused to permit Carl Keuhnle, one of the defendants, to testify in the case. Four witnesses were placed on the stand this morning. All were called to testify as to the letter in which the accusation of alleged misappropriations of lodge funds by Ward E. Ferguson, was circulated. The nature of the testimony was not divulged.

The witnesses were Ward Ferguson, C. C. Dowell, John H. Merckins and Dr. J. F. Cole, present grand chancellor.

Cummins and Roosevelt. It is denied here that Senator Cummin has asked to see Colonel Roosevelt, the story having been started by a daily paper here that he had gone east to seek a conference with Roosevelt. It is known, however, that he had a very earnest invitation from Mr. Boosevelt for a conference.

War on Coal Men. War has been declared on Des Moines coal dealers by the school board. Jerry Sullivan, member of the board, suggested referring the alleged discrimination in prices to the grand jury for an investigation. It is possible the board will bring action against the alleged coal trust in Des Møines. The board has been investigating and claims the coal companies are charging the board about one-third more than they do other local concerns.

Increased Fees of Department. Crop Report on Iowa. The crop report for the last week from dence here, has caught the Omaha spirit the lows crop bureau is as follows: ment a republic quickly and effectively will be proclaimed. Six republican soldiers will guard the king against violence and all the ministers will be imprisoned.

The week was very favorable for ripen ing corn and the crop is now practically sate from any damage by frost. There is bowever, a small percentage of the crop is however, a small percentage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is however, a small percentage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of the crop is how practically sate from any damage of th The week was very favorable for ripen all the ministers will be imprisoned.

King Manuel, whose dethronement has been attempted and perhaps already accomplished by those who would establish a ripublican form of government in Portugal, was born November 15, 1889, the younger son of the late King Carlos I and Queen Marie Amelia, daughter of Philippe, duke of Orleans. He succeeded to the throne on the assassination of his father and eider brother. Prince Luise Philippe, He was reared with great care by the queen and on the fateful date when his father and brother were assassinated he conducted himself in a manner that attracted many kindly expressions. In the HYMENEAL the harvest has been prefitable and with a few exceptions very bountiful. Tree fruits were practically killed and berries estiously injured by the late frosts of spring and the hay and potato crops were shortened by the drouth, but the small grains were above the average in quality and yield. Corn was damaged considerably by the lack of moisture, but the average yield will be above the normal and the total yield will probably be over 300,000 bushels. The shortage of the hay crop has been made up largely by the extra amount of corn cut for fodder and the excellent condition of fall pastures. The potato crop will be smaller than usual, eight miles north of Glenwood last night. NEW YORK, Oct. 5 .- Mrs. Annie H. Armour, former president of the Armour ably

SCORING ICE CREAM IS LATEST lowa State College Establishes Standard of Purity and Exeetkence.

AMES, Ia., Oct. 5 .- (Special.) -- Scoring ice cream is the latest stunt at the Iowa State college. It may be imagined that the work is very popular. Prof. Mortensen, head of the dairy department, has been doing a great deal of investigation work with ice cream. This is the first time that anything of this kind has been attempted at station.

The ice cream score card is as follows: Flavor, points

The flavor is, of course, the most important point. It should be creamy, pleasant, rich and full. The flavoring material should blend with the cream flavor. Buttery ice cream is not wanted. Defects in In the Pythian trial today involving the flavor may be due to poor cream, too much filler, or cheap flavoring material.

The texture should be smooth, firm and velvety. Too much gelatin filler makes the ice cream sticky.
