True Roasting

—means cooking with fire

Broil Roasting

—is the nearest approach to real roasting possible with stove heat.

PROPERLY COOK A STEAK in the broiling oven and it comes out puffy and full of juice. Cook a roast in the baking oven and how different the result! And yet, a roast is only a thick steak, so the difference must lie in the cooking. And that's just where it does lie.

Who not roast meat in the broiling oven?

Because---

First—Roasts, being much thicker than steaks, are more than likely to catch fire from the naked flame above them.
 Second—Even if a blaze is averted, roasts must be turned again and again to prevent burning and insure even cooking. This means practically constant attention, which is impossible in conjunction with other household duties.
 Third—Where the broiling oven is at floor level, as in lower ovens, the discomfort and exhaustion attending broiler roasting makes it practically prohibitive. The baking over heat, when broiling, whether needed or not, and a double concentration of heat adds its enervating element to defeat the broiler roasting endeavor.

The "Triple-Trick" roaster combination applies for the first time the broiling principle to the heaviest meats.

One Top Burner Does the Work

First—A MOVABLE SHEET STEEL PLATE of low gauge forms the bottom of the roaster, lets the heat promptly through, but shuts out the flame, so no blaze is possible.
 Second—AN ADJUSTABLE GRATE creates an air space, which minimizes the danger of burning, so roasts require to be turned but once.
 Third—the "Triple-Trick" is operated ON TOP OF ANY STOVE, hence there is no stooping, no lifting, no reaching.
 Fourth—As the oven is not heated in the process the kitchen remains livable and meat roasting is so easily, so inexpensively done, that housewives can have roasts—the most economical cuts to buy—as often as they desire.

The "Triple-Trick" roaster roasts meat — EVERY DAY—at the Omaha Gas Office. It's interesting thousands. 'Twill interest YOU.

The "Triple-Trick" Roaster is The Bee's newest premium

How to get one

Subscribe for the Evening and Sunday Bee, and pay 15c a week for six months. This pays for both the paper and the roaster.

Removed!

All dust and chaff is removed from our steel cut coffee. No egg required to settle it. This is not a fad, as everyone knows who tried it. It's perfect coffee. It costs no more than the old fashioned crushed article.
