John Doe, an Omaha lawyer, who has frequently advertised the fact in the Council Bluffs police court that his specialty is a quick-delivery divorce system, was given a sentence of ten days in jail yesterday morning on charges of intoxication. It was the third time within a recent period that the man has stood before the bar to answer the same charge, and his name has appeared also as Richard Roe. He is about 50 years old, well dressed, politic and polished—when he is sober. The sentence was suspended to permit his return to Omaha.

The Roard of County Supervisors spent all of the day adjusting the assessment of costs for constructing the Pigeon creek drainage ditch extension. It was not completed and will consume a portion of today. The amended figures of the engineer show that the total cost of the work, owing to increased extension of laterals, will be about \$5,000, requiring the condemnation of 300 acres of farm land for right-of-way at a cost of \$10,000. There will be \$50,000 cubic yards of earth to excavate, which the engineer estimates can be done at a cost of only 3 cents a yard.

The last city directory, compiled in Desember, contains 15,504 names, exclusive of firms and corporations, and using the multiple of B% to represent married women and children represented by the heads of families, the total population of the town was then 38,760. These figures are sustained by the fact that hundreds of new houses have been built and occupied almost every year since the preceding federal census was made, and wherever the Ida county, died of infantile paralysis new houses caused the older ones to become vacant they were quickly filled by

Another fact pointed out is that at the time the census was being taken there on September 19 after being sick but a were more vacant houses in the city than there had been at any previous time in the family, but as yet none of them there had been at any previous time in ten years. All of these houses are now occupied and the demand for rental property one other case in the county. is greater than the supply. Still, another fact that sustains the higher estimate is the school census and the enrollment of pupils. The census taken last summer shows the largest number of children of school age in the history of the city, and the enrollment in October is greater than a year ago.

Big Cases Postponed. It also means, undoubtedly, that the three great corporation cases upon which the expectancy of the business world is centered will not come up for re-argumen at least until after the Christmas recess of the court. Of these cases two, the Standard Oil case and the so-called tobacco pany which places its faithful employes trust case, were set for re-argument on November 14. The series of corporation tax cases were merely restored to the calendar for re-argument. In ordinary circumstances this would throw them over for a year or more. The general expectation is that none of the three cases will be ition, signed by every business man in taken up until all the vacancles in the Council Bluffs and all of the company's court have been filled and that then the corporation tax cases will be advanced, and with the other two cases mentioned will be set for dates relatively early in

Before the time of Cleveland, it is said, the court had practically never failed to adjourn immediately upon convening on the second Monday in October, to go to the White House, Once or twice Cleveland was away from the city and Roosevelt even more frequently. Nevertheless, the call of the docket of cases to be argued has never been taken up on the opening day. Even if the president is not in town, the court adjourns after receiving motions, until the following day. This year President Taft will be at Beverly; the fact will be announced by Justice Harlan, presiding, and the court will adjourn. Largely on account of there not being a full bench last term, many important cases were set for argument, out of their turn, for Tuesday.
