### Hugh Jennings Has Work Ahead

Have Tough Job Training New Tigers.

DETROIT, Mich., Oct. 8-Hugh Ambrese Jennings, whose battle cry of "E-yah!" is known from one end of fandom to the other, has his work cut out for him next year. Hughey cam to this city in the fall Eastern league. Under his leadership the Tigers, who had previously been regarded as tame cats, came forth from their jungle and for three successive seasons they treed every one who disputed their right of way and carried off the league pennant.

Imbued with their leader's spirit, they acted in concert with the precision of a smooth running machine. They were marvels of harmony, brain and speed. This year, however, things did not go as smoothly. The cogs in the machine did not fit as well.

The Tigers had become so used to fighting that at times they even snapped at each other. Teams that used to take to the tall timber at the approach of Jennings' pets chased them to their lair and tied tin cans to their tatis. Dismayed by such indignities, they lost their confi dence and their power of instilling terror sounds that suggested the frightened bass of jost lambs seeking the fold.

But all this does not mean that the 1911. Jennings has work ahead of him; but when it comes to developing new material and strengthening the old there Cobb for base stealing honors; Baker, the is no better fitted for the job than Hughey.

## Ty Cobb to Drive in Big Auto Race

Conuis Mack believes that it would be very poor policy to allow his team to remain idle and rust between October 8. Rucker.

> ATLANTA, Ga., Oct. 8 .- Tyrus Raymond Cobb of Royston, Ga., and Napoleon Rucker of Crabapple, Ga., will meet this fall on the Atlanta Automobile association's speedway in a match race for the speed way championship of the big leagues. Cobb is now battling bravely now fo possession of the Chamlers automobile offered for the hig leagues' best batter this year, and stands a good show of winning it. If he does he may drive that machine against Rucker's own car, a speedy Buick. If the men do not drive their own ma chines they will use care from the array that will be on hand for the fall races. Cobb has long been an automobile bug of the most pronounced type. Last fall he drove a machine in the New York to At-

lanta run, and was one of the warmer fans in the speedway meet. Rucker is a driver of several years' standing. One day, a few years back, he walked into a local Buick agency, said he wanted to look at an automobile, found one that suited his fancy and nearly coin off a monumental roll of bills and driving away in the machine.

It has not been decided in just what sort of a race the famous cracker ball players

They have agreed to dirve a heat a day and they will be allowed to select their own distance. It is likely that they will pick ten miles.

It is suspected that the news that these two men will race on the Atlanta speedway will not be halled with any great amount team and Ebbets of the Brooklyn team. of 1908 from the Baltimore club of the Navin would probably consider the fact that he has first call on Cobb's services worth \$40,000 or \$50,000. It isn't every day that a man picks up the greatest ball player in the world, and when he is once cornered he is worth money. But if he happened to break his neck on an automobile track it would mean a dead loss of a large amount of coin.

Rucker, is not, of course, such a drawing card as Cobb, but he is worth a lot of money. It is doubtful if \$29,000 would buy him-probably it would take more. So that means that Presiden' wholes is not going to be so tickled either.

However, both men have positively agreed
