City Council Votes to Hold Up Street Railway Proposition.

MALONEY SAYS TIME TO PASS IT

Number of Aldermon Not Bendy to Validate Lake Manawa Charter for Thirty-Five Years

Longer.

In the presence of an audience that filled every seat in the council chamber and occupied all of the standing room even overflowing into the hallway, the sity council last evening voted to hold up for a time the passage of the resolution prepared by the attorneys for the Omaha & Council Bluffs Street Hailway company authorizing some extensions to its lines in Council Bluffs. The delay was for the purpose of giving opportunity for further investigation of the resolution in relation to its effect upon the old Lake Manawa and East Omaha fifty year charter secured in December, 1897.

Alderman Harding, in an earnest talk, questioned the wisdom of passing the resolution at all and declared that It would be most unwise to pass it at the present time. He believed there was a danger in it that would brnig harm to the next generation, and that it was against public policy to take any action that might bind the city for the next haif a century. He wanted pienty of time for a full consideration of every plane of the matter. The applause that greeted him when he sait down showed that the audience was in hearty sympathy with the sentiment that demanded caution.

Mayor Malonoy said that there was not against consideration when he said that there was not sentiment that demanded caution.

For the purpose of preventing the permanent of the next generation, and that it was converted to be convalescing.

mercial club. "We've been trying to get something done for the last twenty years; now we've got a chance to get a start toward what we want, and we ought not to lose it."

Alderman Younkerman said the company was not only offering about half what was offered a year ago, and Mayor Maloney called upon Alderman Rigdon to disprove it. He said it was a serious thing to bind the city for thirty-five or forty years at any price, and that mighty little was now being the other members of the company.

Kimball's Opinion.

City Solicitor Kimball said he had prepared, collaborating with Attorney General Byers, an elaborate opinion after a most searching examination into the street railway company's franchi e. It was found that the franchise of the original car line company would expire in 18th, and that the fifty-year obsites of the East Omaha and Lake Manawa Suburban company was not meant for a general street car system.

The council should not be too hasty, but the members should know, and the people should know, what the ultimate effects of such action may be."

President Stuart of the Commercial club, and one of the members of the joint committee, said the council had by the passage of similar resolutions already validated the fifty-year charter if it could be validated by a resolution, and read part of a resolution granting the company the privilege to extend its lines to the lows school for deaf three years ago, naming Third street.
