## Haverly on Paper Ballot

County Clerk Comes to Decision After Legal Advice.

**BOARD MEMBERS OPPOSE HIM**  
Bringing Bedford and Pickard Question Clerk's Authority to Decide Method of Voting—Haverly Merely on Safe Side.

Following their receipt of a letter from County Clerk D. M. Haverly to the effect that he will proceed to prepare a paper ballot for use at the November election, the Board of County Commissioners call Mr. Haverly before them at their meeting Saturday morning and Commissioners Bruning, Bedford and Pickard after questioning him regarding his position indicated that they do not believe he is vested with the authority to determine whether or not the machines shall be used.

Mr. Haverly's decision in the matter was made after he had asked A. W. Jefferson and John P. Breen for an opinion on the practicability of using the machines and had received a negative reply.

Commissioners Bruning, Bedford and Pickard declared that the board has ordered Mr. Haverly to use the machines. Mr. Haverly said he believes that the law gives him the power to determine the method of holding an election when a question of method arises. Without taking any action the board took a recess until 2 p. m.

Speaking of Mr. Haverly's stand in the matter Deputy County Clerk Frank Dewey said:

"Mr. Haverly is taking the only course he could take sensibly. We went to see Mr. Ridgway and asked him if he was sure he could make the changes he is preparing to make on the machine and have them ready to take care of the enlarged ballot and in perfect working order in time for the election. Now, just note this. He advised Mr. Haverly to go ahead and prepare paper ballots for the election so that they would be ready for use if the machines failed to work.

Castles Not Sure.

He said he didn't know whether they could be got ready or not. He said the work of putting on his devices was so fine he wouldn't trust it to any one else. He would have to do it himself, he said. He said if the attachment varied the thickness of a sheet of ordinary paper it would throw the machines out of order. A day or two ago he told me that he ought to have had three months to fix and adjust the attachments. That is the situation. When Mr. Haverly gets that sort of advice from the custodian of the machines, who is anxious to get them ready for use and have them used, what can he do but be on the safe side and go on with the paper ballots? From what Mr. Ridgway has told us it appears to be very doubtful that the machines can be used. Mr. Haverly

## WORK ON W. O. W. BUILDING

First Actual Move is to Test Subsoil of the Site.

**MAY HAVE TO USE CAISSONS**  
Several Borings Have Been Made—Omaha National Bank to Move November 16—City National to Open in Two Weeks.

The first actual building operation for the new Woodmen of the World building is going on, tests now being made of the ground where the structure is to arise. Borings have been made in the alley in the rear of the Milton Rogers store at Farnam, near Fourteenth, and boring will be taken so that the sub-soil may be thoroughly learned. If the ground is as firm as where the City National bank has arisen all will be well, but if it is not, caissons must be sunk.

Meantime work is being rushed in the office of Holabird & Roche on the plans, and these will soon be ready for final approval by the building committee and executive council of the Woodmen of the World.

The Omaha National bank has definitely set November 16 as the date of moving to Seventeenth and Farnam streets and it is probable that the building will be ready by then.

Officials of the City National bank said Saturday that two weeks from this date will see the formal opening in the new quarters in the City National bank building. The bank will probably move in a few days earlier in that week.

Another job nearing completion is the new home of the Child Saving Institute at Forty-second and Jackson, or where Jackson street would run through. The plastering of this \$60,000 building is done, window panes are being installed and the building will certainly be occupied before the holidays. The building is four stories high including the basement and is absolutely fire-proof.

**DRIVER OF BUGGY BADLY HURT**  
Auto Truck Collides with Singer Sewing Machine Buggy and J. B. Lloyd Suffers Injury.

J. B. Lloyd, assistant manager of the Singer Sewing Machine company, 134 Douglas street, sustained a wrench of the spine and severe bruises when a Sears & Roebuck company auto truck struck his buggy at Sixteenth and Cumby streets Saturday morning. The injured man was taken to his home at the Chatham apartments in the police ambulance. The buggy was demolished.

## Pretends to Be Mason; Arrested

Man Who Presented Lodge Card and Buttons in Begging Sentenced to Ten Days.

Following an investigation covering two days, a man who was arrested while borrowing money on the strength of a Masonic card and several buttons, was found to be an impostor by Judge Crawford Saturday morning. Policeman Wilson picked the prisoner up at the Union station in the act of begging. The man professed to be Adolph Dunlap of Andalusia, Ill., a Mason of high degree in hard straight.

A communication to Andalusia by the secretary of the local Masonic lodge revealed the fact that the real Adolph Dunlap was still in that town. The prisoner was sentenced to ten days in jail.

## WINTER AND BLIZZARD REGISTER AT THE HOTEL

And at the Same Time Came the Recent Cold Spell to This City.

His name is Blizzard, and he lives at Newton, Ia. He sells machinery and hardware. He came to Omaha Thursday and left Saturday morning for Lincoln. Even his best friends said they were glad to see him depart, for the disagreeable cold wave of two days ago came simultaneously with his arrival. Nobody but the coal men welcomed him.

Logan Blizzard is the way he registered at the Henshaw, which seems to belie the old theory that there's nothing in a name, for first came winter and blizzard followed. The government weather bureau promises brighter days for a while, however, despite these visitors.

## MOTHER DYING FOR YOUNG SON

Mrs. Mary McGrath Writes Piteful Inquiry for Young Son Who Deserted Her.

Because her 15-year-old son left home to come to Omaha, Mrs. Mary McGrath of 282 Van Buren street, Chicago, Ill., is reported at the point of death. Friends of the woman have written to Omaha asking information about the boy. He is described as a trifle older looking than he is, dark complexioned, suffering a bad cough and an extra good boy.

## CHISAM TAKES UP HIS WORK

New General Agent of Great Western Enters Upon His Duties at Local Office.

C. J. Chisam, the new general agent of the Great Western in Omaha, took up his duties here Saturday morning as did also J. H. Cummings, the new traveling freight agent who will have his office in Omaha hereafter.

Oscar Townsend, assistant general freight agent of the Great Western, who is at the headquarters of the company in Pittsburg, was in Omaha Saturday inspecting the terminals of the road here. He announced, however, that the road would do nothing in improvements immediately, although it intends to make a "bigger point" of Omaha in the future.

## French Method of Developing the Bust

Mme. DuBarrie Explains How the Bust May Be Developed 2 to 3 Inches in 30 Days.

"I am explaining for the first time to the ladies of America," says Madame DuBarrie, "the French method of developing the bust. It is much more effective, the results appear much more quickly, the breasts become more firm, plump and symmetrical, the method is more simple.

We have all the latest styles in all lasts in stock and our corps of expert fitters is ready to assist your selection and give you a perfect fit.
