BEVERIDGE CANNOT COME

Indiana Senator Writes Letter to Chairman Husemeyer.

IS BOOKED FOR THE CAMPAIGN

Democratic Party in Hands of Reactionaries from East to West—Compliments Burkett's Record in the Senate.

(From a Staff Correspondent.)

LINCOLN, Oct. 25.—(Special.)—Chairman Husemeyer has received the following letter from Senator Albert J. Beveridge:

INDIANAPOLIS, Ind., Oct. 24, 1910.—My Dear Mr. Husemeyer: I have been out over the state campaigning and just got your letter. Nothing would give me more pleasure than to come to Nebraska, to make a few speeches, but I am booked day and night, so I cannot come, much as I would like to do so.

However, I feel that it is unnecessary. I am very sure the people of Nebraska will return Senator Burkett to the senate. The great progressive movement that is sweeping over this country needs every man of progressive tendencies. Generally speaking, the politicians now in control of that party are not putting up such men. The whole tendency of the cabal of dominant politicians now in control of that party is reactionary. One has only to consider the dominant influences in that party from New York and Ohio to Texas and Georgia.

I am exceedingly sorry that the engagements already made will prevent my coming to Nebraska. For I should like very much to attend, to be of some assistance to Senator Burkett. He should be returned, and I have no doubt he will be returned. With kind regards, sincerely, ALBERT J. BEVERIDGE.

Example Ballots Nearly Ready. Secretary of State J. J. H. Jones has prepared the copy for his sample ballots and it is now in the hands of the printer. Mr. Junkin expects to mail out the samples tomorrow, together with the certificates of nomination of the various candidates.

Should a republican desire to vote against the proposed constitutional amendment it will be necessary for him to make his cross in the square opposite the name of the democratic party. The amendment appears on the ballot as having been endorsed by all the parties except the democratic. So before the brackets which embrace these parties is the word "for." Before the word democratic is "against." There is no place left for a democrat to vote yes or no other than to make a cross to vote no, without crossing his party line.

Master Bakers Meet. The master bakers of the state began a three days' session here this afternoon with a considerable number of dough mixers in attendance. The bakers were welcomed to the city by H. Mrs. Rounds Found Dead. Tuesday morning when Mrs. K. Lots of Emerald, went to call Mrs. Herolita Rounds of Honey Creek, Ia., who was visiting at her home, she found her dead in bed. Mrs. Rounds arrived at the Lots home Monday to visit the family, who had been old friends in Iowa. The visited and talked of old times until after 11 o'clock Monday evening and then retired for the night.

Tuesday morning the family awoke and Mrs. Lots went to arouse Mrs. Rounds about 10:30, receiving no response to her knock she entered the room which Mrs. Rounds occupied and found her dead.

For many years the deceased has been a sufferer from asthma, and this affliction is believed to have caused breathing difficulty enough to have resulted in heart failure from which she died. Coroner Matthews was called, and decided that Mrs. Rounds had died from natural causes and that an inquest was not necessary.

Before retiring Monday evening Mrs. Rounds appeared in perfect health and laughed and enjoyed the conversation over former days when the families lived in the same community. Mr. Rounds, the husband of the deceased was expected to arrive in Lincoln sometime Tuesday afternoon, and funeral arrangements will be announced when he arrives.

POWER IRRIGATION SUCCESSFUL

Sutherland Farmer Waters Ten Acres Daily with Thrasher Engine.

SUTHERLAND, Neb., Oct. 25.—(Special.)—James R. White, a prominent farmer and a man who is cognizant of irrigation conditions and has opinions regarding the possibilities of canal irrigation in this valley in the future, has recently been making a test of irrigating by means of a pump. He used a five-inch circular pump propelled by a thrasher engine and found that he could easily irrigate nearly ten acres of crops in a day. He figures that with a sufficient number of wells and suitable pumping facilities the farmers can supply their crops with all the moisture necessary at a reasonable cost. As this section of the valley is given a considerable to beet growing and alfalfa, there is reason to believe that Mr. White's plan will be followed in the course of time. During the last season lack of water in the irrigation canals resulted in a shortage of crops. So long as water for irrigation purposes here must be taken from the North Platte river after a journey from the banks, the outlook for the future from an irrigation standpoint is not flattering to local farmers. Therefore, Mr. White's investigation of the feasibility and cost of operating pumping plants for irrigation.
