BOOSTERS ARE ENTHUSIASTIC

Plans for Next Junket Already Under Consideration.

PARTY IS NOW HOMEWARD BOUND

Fourlight Processions Make Tremendous Hit in Tributary Towns—To Invade the Southwest.

HEMLOCK, Neb., Oct. 28.—(Special Telegram.)—On the last stretch toward home, the Omaha trade excursionists are all ready for the next trip which will be held in the spring of 1911.

One direction seems to meet with the most favor, an extended trip to the southwest, probably to Los Angeles. New features of the present trip have added new enthusiasm, the night parades having made such a hit, and days not being long enough, these spectacular entrances will now be a permanent feature of the Omaha trade excursions of the future.

So successful were the red torch light processions that all future excursions will take these into consideration. While the party arrives at Blair at 5 o'clock the visitors will return to the train and march uptown the second time at 8 o'clock, thus giving another torch light parade. The spirit of the towns on the Omaha road is making an impression on the Omahans.

It was only because of the late arrival that a smoker was not given by the business men of Bloomfield, who had rented the opera house and prepared for the event.

Want New Railroad.

Crofton met the party with a bid to help the new railroad from Yankton to Omaha, Hartington had a reception committee consisting of almost every business man in town. Coleridge had the public schools lined up, though it was but 9 o'clock when the party reached there. Laurel people were out with banners flying, but it was considered too cold for the school children and boxes of bells and souvenirs were sent to the school house to be distributed.

A number of Laurel business men headed by Dr. C. C. Sackett accompanied the party to Waksfield.

One of the surprising features of the trip is the way in which merchants keep open house for the boosters. A conspicuous example of these hosts was H. S. Kleks & Co. of Bloomfield, where the store took on the appearance of a reception hall, the proprietor and Mrs. Kleks serving punch and cake.

The party is returning with almost the same personnel with which it sailed, there being two changes on the entire trip.

Wind Blows Man from Wagon Seat

Charles Sandstedt is Paralyzed by Force of Fall Head First to Street.

Blown from his seat on a Cady Lumber company wagon, Charles Sandstedt, a driver, struck upon his head at Tenth and Douglas streets and was seriously injured about 5 o'clock Thursday afternoon. The injured man was taken to the police station and found to be suffering from paralysis from the waist down as the result of his fall.

Sandstedt lives at 2613 Hamilton street. He says his fall was due solely to a sudden gust of wind.

RUSHING THE BIG BUILDING

Steel Frame of Union Pacific Headquarters Reaches the Fourth Story.

Four stories of steel construction have been completed on the Union Pacific headquarters and the big derricks have followed the work right up and are now on the fourth floor. In the basement floor the cement work for the big receiving vaults, to be used for records, is started also.

The granite blocks which are to form the base of the stone that will be put on next in the way from Maine and the cut stone will follow in two weeks. Before December 15 the contractors expect to have the iron work all up and the brick and stone construction started.

ILLINOIS CENTRAL LOSES

Supreme Court Sends Suit for State for Taxes Back for Trial.

COMPANY WINS ON ONE POINT

State Charges that Company Has Manipulated Earnings Report to Avoid Payments Due Under Original Charter.

SPRINGFIELD, Ill., Oct. 28.—In deciding today on the demurrer of the Illinois Central Railroad company to the suit of the state of Illinois to collect back taxes from the road the supreme court ruled in favor of the state on all but one point.

The court holds that the charter agreement of 1861 under which the railroad was to pay the state 5 per cent of its gross earnings, is a contract and that the 4 per cent is not a tax in the legal sense. The court holds that all interstate commerce business of the road, as well as income from eating houses, express business, of charter lines as well as the trunk lines, form the principal on which the 4 per cent shall be paid to the state.

In the matter of tax, the court holds against the state, which sought to recover its percentage since 1877. Under this ruling the \$15,000,000 which the state sought to collect is returned to the railroad.

Million More Yearly for State.

From 1861 on the court lays down the rule for accounting by which the state, it is estimated, will receive \$2,000,000 revenue annually from the road instead of \$1,000,000 or less, as at present.

The effect of the decision is to send the case back to the circuit court of LaSalle county for hearing on its merits.

It is the contention of the governor that because of an accounting the railroad has been "milking" the state through its system of accounting for gross earnings on what is required under its charter to pay 7 per cent to the state in lieu of other taxes.

The suit was filed by the attorney general early in 1907, following a message of Governor Deneen to the legislature, in which it was asserted that the railroad had so manipulated its account as to credit millions of its earnings to lines not chartered in Illinois and hence not subject to the 7 per cent tax. An appropriation was made by the legislature to defray the expenses of an accounting. This accounting swelled the amount, which the governor had estimated to be due the state, from \$5,000,000 to \$15,000,000.

History of Suit.

The history of the suit really dates back to 1861, when the state granted a special charter to the road, which provided, in consideration of a land grant of 2,500,000 acres, that the company should pay annually 5 per cent of its gross receipts a property tax of three-fourths of 1 per cent, which should at least be equal to 7 per cent of the gross earnings on the mileage in Illinois.

It is alleged that the railroad has not

only construed the 7 per cent provision as a maximum instead of a minimum, but has failed to give the state a proper accounting since 1877. The total amount said to have been hidden is placed at \$24,000,000, 7 per cent of which is \$15,000,000.

When the state filed its bill in the LaSalle county circuit court three years ago the railroad entered a demurrer and also demurred to an amended bill filed later by the state. The circuit court sustained the demurrers, issued a decree dismissing the complaint. From this decree the state appealed and today's decision indicates that the supreme court finds the complaint sufficiently tenable on its face to warrant a trial on its merits. The remaining of the case means a trial on the evidence. The date for this will be determined by the LaSalle county court.

Statement for Railroad.

CHICAGO, Oct. 28.—According to Attorney Horton of the Illinois Central the decision includes the important point that under the statute of limitations the state's case as bearing on years prior to 1906 is null. The state, Mr. Horton says, may now sue for only such tax as it claims accrued between 1906 and 1907.

Dakota Divorce Not Good in D. C.

Wife Put Away by Husband Gets Decree of Her Own and Alimony.

WASHINGTON, Oct. 28.—Divorce decrees granted in South Dakota are not "legal tender" in the District of Columbia, according to a decision rendered today by Justice Stafford in the district supreme court.

The particular decree which the justice declared invalid here was obtained by Milton E. Davis, who in April, 1907, went to South Dakota, in December got his divorce and three weeks later was married again. The former Mrs. Davis—if she really is no longer a legal wife—brought suit for absolute divorce and alimony. The answer made to the petition was that Davis had already secured a divorce.

"Is it for the public interest," Justice Stafford says in his opinion, "that divorces of this character should be held good?"

He held that inasmuch as Davis had deserted his wife and left this jurisdiction it follows that the court of South Dakota has no jurisdiction over her and no right to bind her by its decree. Wherefore he ordered Davis to pay alimony and to make provision for the support of the child by his former marriage.

Nearly Twelve Per Cent of Deaths Among Men During Decade Due to This Cause.

WASHINGTON, Oct. 27.—Heart disease ranked second only to tuberculosis of the lung as the principal cause of death during 1909 among the gainfully employed male persons in the United States death registration area, which comprises over half of the estimated population of the country, according to figures issued today by the census office.

CRIPPEN APPEAL IS FILED

Hearing Will Be Expedited, but Application May Delay the Execution.

LONDON, Oct. 27.—Solicitor Newton today entered an appeal in the court of criminal appeals from the verdict of the criminal court, which found his client, Dr. Hawley H. Crippen, guilty and sentenced him to death on November 8. It is probable the hearing on the appeal will be expedited, though it may be necessary to postpone the execution.

The high court today fined the Evening News \$1,500 for contempt of court in having published the story of a conference between Richard Muir, the prosecuting counsel, and the quartermaster of the steamer Montrose, during which the ship's officer revealed a plan which he and Dr. Hawley H. Crippen had made to bring

about the latter's escape from the vessel when he was being pursued by the British authorities.

The court held that the publication of the story was calculated to prejudice the case of Crippen when the latter was brought to trial for the murder of his wife.

SEASICKNESS NO EXCUSE FOR NOT DECLARING GOODS

Chicago Young Woman Must Pay Eighteen Hundred as Result of Customs Fraud.

NEW YORK, Oct. 27.—The lesson that the government customs regulations are to be "taken seriously" was learned at considerable expense this afternoon by Miss Helen Jerrens, who gave her address as the Hotel Metropole, Chicago. Miss Jerrens, arriving from Europe with her mother, declared \$50 worth of dutiable goods, but inspectors found in addition, gloves and presents intended for friends, valued at \$28. Miss Jerrens was asked if she had read the warning that forfeiture of goods and imprisonment were the penalties for failure to make a proper declaration.

"Yes, I read that, but really I did not take it seriously," she said. "Besides the voyage was rough and I was seasick most of the way over."

Surveyor Henry ordered the undeclared goods seized, disallowed the usual 500 exemption for free entry and fixed the duty and penalties that Miss Jerrens must pay at \$1,800.

USES WIFE FOR SPARRING PAL

Mrs. Jennie Pospisil Tells Her Troubles in Court and is Granted a Divorce.

Disposition of Joseph Pospisil, a prize fighter, to use his wife, Jennie Pospisil, as a sparring partner was the chief cause of her decision to seek a divorce, according to her testimony in the equity division of district court Thursday. She said her husband frequently beat her and finally packed up his trunk and left her for good two years ago. She was granted a decree.

Judge A. C. Troup, in granting divorces to two women Thursday mildly lectured them for marrying men whom they knew were in the habit of striking, with the idea that they would drop the habit after marriage. The names were those of Mabel A. Loyne against Charles E. Doyle and Zoe G. Hill against Joseph Hill.

SACRIFICE OF FINGER FAILS

Private Sentenced to Prison for Disabling Himself to Avoid Military Service.

ATLANTA, Ga., Oct. 27.—Although he shot off a portion of his right index finger to escape military service, Private Eugene Langer, Company I, Seventeenth United States Infantry, did not free himself from military domination. His sentence to one year's imprisonment at Fort Leavenworth, Kan., for wilfully disabling himself, was announced today, in addition to his dishonorable discharge from the service.
