Harvard "Prexie" Asserts Scholar Has Small Honor

Head of University Says Student Thinks "Sport" Has Best of "Grind" in After Life.

ALBANY, N. Y., Oct. 29 .- That the ap-534 preciation of scholarship among students 2.51s of the present day is very low would

that in after life the 'sports' pass the 'grinds,' is sufficient evidence of how they rank. It requires, indeed, little familiarity with students ourselves to recognize that they not only regard the athlete or the man of social prominence as a far more promising personality than the high scholar, but rank in itself is in their minds little or no indication whatever of 2,558 the qualities that make for success in Rf-This feeling seems to have been progressive, as is shown by the very works hard.

476 to indicate the student who works hard.

A generation ago he was called a 'grind.'

448 but now he is often referred to as a sive, as is shown by the very words used 'greasy grind,' the adjective, of course. being used to imply contempt. In fact, it may be doubted whether the respect for scholarship has ever been so low in any Institution of learning as it is in American Cities' Morality colleges at the present time."

NORMAL SECOND TEAM WINS OUT

Pero Men Trim Nebraska City by
3 to 6 score.

PERU, Neb., Oct. 29.—(Special Telegram.)
—In a very closely contested and well played game here today the Peru Normal school second team won from the Nebraska City High school by a score of 3 to 6.

Peru scored from the fifteen-yard line Peru scored from the fifteen-yard line from the first, but could not get within scoring distance of the Peru goal, Peru made all its gain on kicks, the high school to the man scored from the first, but could not get within scoring distance of the Peru goal, Peru made all its gain on kicks, the high school to the man found a complete set. WHO SAW the "TRIPLE-TRICK" ROASTER COM-BINATION under actual service conditions at the Omaha Gas office recently were AMAZED to see the marvelous and hitherto unknown top burner possibilities made available by the aid of this wonderful and many-featured kitchen utensil.

Astonished to see, for the first time in the history of stove cooking, the BROILING or TRUE roasting principle successfully applied to the heavier cuts of meat.

Delighted to find it possible to Roast Meats OVER ONE SMALL TOP BURNER of their gas stoves without BASTING, WATER or SMOKE, and with no stooping, lifting or heat discomfort.

Convinced by the evidence of their own eyes and taste that MEATS-small roasts or large-can be roasted without losing half in bulk and appetizing flavors-it BROIL-ROASTED instead of baked or steamed in ovens-YES, and kept hot for HOURS-if needful-without drying or burning.

THE TOASTING, WARMING and STEAMING features of the "TRIPLE-TRICK" were seen to be possible with but a Fraction of the Gas required to operate the faulty constructed appliances in common use.

THE IDEA that a MEAT ROASTER could, in addition to the features named, include all the advantages of a Baking Oven, except the Flour Food functions, was so new, so unique, that people actually wanted to know if they couldn't bake bread, biscuit or pies in the "TRIPLE-TRICK", too.

IT WAS CAREFULLY EXPLAINED that the "TRIPLE-TRICK" is constructed on the scientific principle of a BROILING OVEN and would be a failure for foods made of flour, as would the Gas Broiler of their stoves.

MEN and WOMEN alike were intensely interested and overwhelmingly convinced that

Cooking With Gas is practicable, successful and easily within the financial reach of every family in Omaha if the full value of its heat units is utilized, as is emphatically the case with the "TRIPLE-TRICK" COMBINATION ROASTER, TOASTER, WARMER, STEAMER and SAD IRON HEATER.
