# PENNSYLVANIA LINES

## Solid Steel Trains To New York

All Pennsylvania "Limited" trains Chicago to New York have all-steel cars, including "The Pennsylvania Special" The 18-hour train. Lv. Chicago 10:00 a. m. Ar. New York City 5:45 a. m. "The Pennsylvania Limited" Lv. Chicago 5:30 p. m. Ar. New York City 3:30 p. m.

All-steel cars are non-collapsible—massive steel beams extend their entire length—indestructible—fireproof—electric reading lamps in upper berths—weight of cars eliminates practically all vibration. They are new and luxuriously furnished.

Other New York trains leave Chicago daily 8:15 a. m., 10:05 a. m., 10:30 a. m., 3:15 p. m., 9:45 p. m. and 11:45 p. m.

When the Pennsylvania Station opens in New York City, Nov. 27, through trains from the West will be all-steel and land passengers in that city's busiest spot, one block from Broadway.

OPERATED OVER ONE BURNER ALL FLAME STOVES.

**TRIPLE-TRICK ROASTER, TOASTER & WARMER.**

## All housewives

WHO SAW the "TRIPLE-TRICK" ROASTER COMBINATION under actual service conditions at the Omaha Gas office recently were **AMAZED** to see the marvelous and hitherto unknown top burner possibilities made available by the aid of this wonderful and many-featured kitchen utensil.

**Astonished** to see, for the first time in the history of stove cooking, the **BROILING** or **TRUE** roasting principle successfully applied to the heavier cuts of meat.

**Delighted** to find it possible to **Roast Meats OVER** ONE SMALL TOP BURNER of their gas stoves **without BASTING, WATER or SMOKE**, and with no stooping, lifting or heat discomfort.

**Convinced** by the evidence of their own eyes and taste that **MEATS**—small roasts or large—can be roasted without losing half in bulk and appetizing flavors—it **BROIL-ROASTED** instead of baked or steamed in ovens—**YES**, and kept hot for **HOURS**—if needful—without drying or burning.

**THE TOASTING, WARMING and STEAMING** features of the "TRIPLE-TRICK" were seen to be possible with but a **Fraction of the Gas** required to operate the faulty constructed appliances in common use.

**THE IDEA** that a **MEAT ROASTER** could, in addition to the features named, include all the advantages of a **Baking Oven**, except the **Flour Food** functions, was so new, so unique, that people actually wanted to know if they couldn't bake bread, biscuit or pies in the "TRIPLE-TRICK", too.

**IT WAS CAREFULLY EXPLAINED** that the "TRIPLE-TRICK" is constructed on the scientific principle of a **BROILING OVEN** and would be a failure for foods made of flour, as would the Gas Broiler of their stoves.

**MEN and WOMEN** alike were intensely interested and overwhelmingly convinced that

**Cooking With Gas** is practicable, successful and easily within the financial reach of every family in Omaha if the full value of its heat units is utilized, as is emphatically the case with the "TRIPLE-TRICK" COMBINATION ROASTER, TOASTER, WARMER, STEAMER and SAD IRON HEATER.

## The "Triple-Trick" Roaster

## The Bee's Newest Premium

HOW TO GET ONE—Subscribe for The Evening and Sunday Bee, and pay 15c a week for six months. This pays for both the paper and the roaster.

Call at Bee Office and leave your subscription, or phone Tyler 1000 and our representative will visit you.

## GIANT PORTALS OF PANAMA

Government Authorizes Start on Big Steel Contract.

## FORTY-SEVEN PAIRS OF GATES

Sixty Thousand Tons of Steel Required to Build Great Locks that Will Be Used in the Canal.

## PIZZA! PIZZA! PIZZA!

Miscellaneous boys dreaming tonight of gates they will seize as Halloween trophies would not in the wildest nightmare imagine such enormous gates as are being made in Pittsburgh for the Panama canal. They will be largest gates in the world. Any one of the ninety-two of them, for there are to be forty-six pairs in all, will be about as high as a six-story building, as wide (sixty-five feet) as many city buildings are and seven feet deep or thick. The structural steel that will go to make them will weigh 90,000 tons, or more than eight times as much as was used to build the Eiffel tower in Paris. The mighty portals, designed to admit a world's commerce from one ocean to another, must withstand a tide of criticism as well as a tremendous pressure of water and possible convulsions of the earth. For years the controversy over gates or no gates, locks or sea level has been the dividing issue of the canal problem. In the face of fear in some quarters that the foundations on the isthmus are not sure enough for locks, that earthquakes or water pressures would dislodge them and that an enemy's mines or accidental explosions might easily destroy them, the government has begun to build the gates. Five and Half Millions. The cost will be \$5,500,000. The builders are the McClintock Marshall Steel Construction company, a half of whose independent plant here has been given over entirely to the gate contract. Of the 90,000 tons of steel required the heaviest single piece will weigh about eighteen tons. These will be the base girders, which are seven feet long and which will be placed much like the first floor girders of a skyscraper. The series of girders above them will range from 22 feet apart near the bottom to 7 feet apart at the top, and over the tops of these girders will be a sheathing of water-tight armorplate will be bolted, much after the fashion of clapboards on a house. The thickness of the plates will range from an inch at the base to 7-16 of an inch at the top. The weight of a single gate will be about 40 tons and the dimensions are 77 to 82 feet high, 30 to 40 feet wide and 2 feet thick.

The thousands of individual pieces, numbered and fitted to go together as easily as children's blocks, will be shipped by steamer via Baltimore and with them will go over four hundred skilled structural steel builders from Pittsburgh to set them up. The advance guard of experts leaves here in December and the first work probably will begin early in 1911. It will take three years to complete the job. The location of the forty-six pairs of gates will be twenty at Chatham dam on

**FOOD FOR NERVES** Weak and nervous men who find their power and youthful vigor gone as a result of overwork or mental exertion should take **SHAY'S NERVE FOOD PILLS**. They will make you eat and sleep and be as well as ever. Price, 1 Dozen \$1.00 by Mail. **AMERICAN & MCCONNELL DRUG CO.** Cor. 16th and Dodge Streets. OMAHA, NEB. Cor. 16th and Morley Sts., Omaha, Neb.

## Rollable Dentistry At Taff's Dental Rooms

The Pacific side, twelve at Pedro Miguel and fourteen at Miraflores near the Atlantic entrance. The gates are designed to hold back water at 14 feet depth in a channel 100 feet wide, which means a pressure of a million pounds. Engineers, in reply to alarmists, point out that even if a tremendous explosion or earthquake should damage or destroy one or more sets of gates, no great disaster would result, for all locks are to be made in duplicate, to accommodate traffic in both directions at once, and the wreckage of one set of locks would only necessitate the diversion of commerce into another set. But really violent earthquakes have not occurred in the Panama region for more than two centuries and it would require a mighty seige for an enemy to destroy the locks. Each lock will be ample for a ship 90 per cent larger than any vessel now afloat, and it has been estimated that as many as a hundred ocean ships may be handled in a single day. There are no locks approaching these in size. The famous Suez canal is a sea-level affair and the few great lock canals would have to combine their gates to equal the size and strength of the great doors of Panama.

**Draddy Freight** possesses sufferers from lung trouble till they learn Dr. King's New Discovery will help them. See and Buy. For sale by Beaton Drug Co.

## STOCKMEN KILLED IN WRECK

Four Men Meet Death When Passenger Train Crashes Into Caboose.

**MONTEVIDEO, Miss., Oct. 30**—Six stockmen, coming east with a trainload of cattle, were asleep in the caboose when the passenger train down upon it and four were killed outright. Two, George Rahabold and William Downing managed to crawl through the end of the stock train as it was endeavoring to back on the siding to let the passenger by a mile west of this place today. The dead: **WILLIAM R. HILL**, Miss. City, Mont. **THOMAS HILL**, Miss. City. **GEORGE LEFER**, Homer, S. D. **J. D. DECHTER**, Gresham, S. D. Not expected to live: **George Rahabold**, Aberdeen, S. D. **William Downing**, Miss. City. Every family has need of a good, reliable liniment. For sprains, bruises, soreness of the muscles and rheumatic pains there is none better than Chamberlain's. Sold by all druggists.
