**Battleship Named After Antelope**  
**State Stands High—Honor for Nebraska Officer.**  
WASHINGTON, Oct. 30.—One of Uncle Sam's newest dreadnoughts, the Delaware, led the sixteen battleships of the Atlantic fleet in gunnery efficiency during the annual battle practice held off the Virginia coast last September. The trophy winner was the Delaware, in third place, the standing. The Delaware's sister ship, the North Dakota, finished sixth, which is considered by naval officials as a splendid record for a ship which had met with a serious accident aboard just prior to the practice.

## Sibley Wreck; Wife Will Die

**Former Pennsylvania Congressman and His Wife Not Likely to Survive Recent Illness.**  
FRANKLIN, Pa., Oct. 30.—Word tonight from the home of Joseph C. Sibley, the effect that neither the former congressman nor his wife has more than the slenderest chance of recovery. Mr. Sibley, who was elected to the Pennsylvania legislature in 1908, has been suffering from a severe illness since he was struck by a train in the city of Philadelphia on August 22. ## Homely but Valuable Hints

**By this season of the year**  
The season of the year is now showing strain and must be carefully laundered to last until cold weather. Every woman should know how they are done to instruct her laundress. See that all repairs are made before the blouses are put into the wash.

**Very fine ones last longer if not done in the general wash.**  
Many women save a half dozen or more to be done at one time.

**Make thick suds of lukewarm water**  
and pure white soap and squeeze the blouse up and down in it. Rub as little as possible. If necessary, wash through a second suds.

**Rinse out the soap through several waters, using a little bluing at the last.**  
If the blouse is not to be starched, hang in the sun to dry if the material is white; otherwise, dry indoors.

**Sprinkle half an hour before ironing**  
and wrap in a clean towel. Use moderately hot irons and see that the ironing board is covered with clean muslin. Use an old blanket in several thicknesses into which press embroidered parts. Put an extra muslin cloth over this.

**A sleeveboard insures quicker work.**  
Without one use a small iron and

"The Girl of the Golden West" at the Strand.  
"The Girl of the Golden West" at the Strand. The two men and three girls in the troupe sing with good-toned voices which blend with the music. The songs are delightful to listen to. One of these is a colored lullaby, now heard for the first time in Omaha. R. W. Lardner wrote the verses and "Doc" White, the White Sox pitcher, wrote the music for the song, which is called, "Little Puff of Smoke."

**"The Girl of the Golden West" at the Strand.**  
"The Girl of the Golden West" is a play in which all the rich traditions of the days of '49, the freedom of the hills, the quick shooting, hard drinking, but boyish-hearted miners, the open-air standards of right and wrong and sentiment are depicted. This may never have been just so picturesque, but we like to think that California was once a place where men lived such lives and the story of the "girl" whose saloon was a respectable saloon and who had been a lady ever since she watched her mother playing poker with men at her father's bar to win money for the family comfort is an appealing and attractive story.

**Miss Lang has secured most of the original Belasco production of the play,**  
which opened a week's engagement yesterday to crowded houses. The show is in big every way. It carries plenty of pretty girls, who make numerous changes of sparkling costumes, plenty of wit and humor, some lively music and good singing, and in fact is one of the biggest shows on the circuit. It is an entertaining show and prides itself on its cleanliness, and this fact seemed to please the large audience yesterday.

## Express Drivers Will Organize

**Attempt to Be Made to Spread Strike in Order to Enforce Demands of Men.**  
NEW YORK, Oct. 30.—That the striking express drivers and helpers intend to continue the fight here with vigor and that, if necessary, it would be extended throughout the country was declared today by Vice President Hoffman of the International Brotherhood of Teamsters. Hoffman said that all drivers and helpers of the express companies in Brooklyn would be called out tomorrow and that in addition the employees of the smaller express companies in Manhattan would be ordered to strike. This, he declared, would increase the number of men on strike from 5,000 to 10,000.

**Hoffman added that he had received a letter from the national president of the International Brotherhood of Teamsters, Daniel J. Tobin, of Indianapolis, who is now in Boston, informing him that word had been sent to all the organizers of the brotherhood throughout the country telling them to organize the drivers, helpers and stablemen of the express companies so that they could all be called out if necessary.**

**As yet no demands have been submitted to the express companies. This will be done some time during the week.**  
At a meeting of the strikers today a tentative list of grievances was drawn up. It includes a demand for an eleven-hour workday, with one hour for luncheon, and an increase of \$5 a month for all men who are now receiving \$75 a month or less.

## Gold Dust Makes Dish-wash-ing easy

**The use of a little GOLD DUST in your dish-water will make your dishes whiter, sweeter and cleaner than they ever can be without it. Unlike soap, GOLD DUST does more than clean the surface. It goes deep after germs and hidden food particles, and sterilizes everything it touches.**

**GOLD DUST does all the hard part of the work without your assistance, because it begins to dissolve and clean the moment it touches the water.**  
When you have to wash dishes 1095 times a year, the GOLD DUST method of saving half your time and half your labor means something.

**GOLD DUST is sold in 50 size and large packages. The large package offers greater economy.**  
"Let the GOLD DUST TWINS do your work"

**IT'S NO LONGER ENOUGH**  
merely to manufacture a good article. In many cases, through imitation and substitution, a manufacturer has to send a bodyguard along with his goods until they reach the consumer.

**Take the case of RUBEROID ROOFING, for instance. RUBEROID ROOFING was put on the market nineteen years ago. It was the best roofing then and is the best roofing now. RUBEROID ROOFING to-day has over three hundred imitators and most of them use the three letters, "oid," at the end of the name of their imitation brand.**

**You can't get a better reason for putting RUBEROID ROOFING—made by The Standard Paint Co., and with the trademark shown here—on your roof. RUBEROID ROOFING must be a good deal more than merely a good roofing when a new and unknown company believes that the best way to break into the roofing business is to call itself by the name of its foremost competitor.**

**RUBEROID ROOFING, made by The Standard Paint Co., costs a little more when you buy it, but a great deal less when you use it, than any other roofing made.**

**The first cost of roofing means nothing. The ultimate question is, "How long will it last?"**

**Another advantage of RUBEROID ROOFING is that it is also made in permanent colors of RED and GREEN. The reason RUBEROID colors are permanent is that they are not painted on—they are built into the fabric, and so cannot peel off.**

**When you go out to buy roofing steer a clear course through the tangle of imitators, and get RUBEROID ROOFING.**

**made by the company who are giving you this information now—with the trade-marks shown here, outside the roll, and stamped on every seven feet of the roll itself. Every other competing roofing was put on the market after RUBEROID ROOFING, and has since trailed it not only in age but in quality.**
