## NEW BOX COMPANY TO START

Concern to Be Opened in Thirty Days Fills Want.

OMAHA CORRUGATED BOX CO.

New Establishment Will Have Two Thousand Feet of Space and the Product Will Supply Open Territory in West.

A new and needed manufacturing industry will begin operations within thirty days. This is the recently incorporated Omaha Corrugated Box company, which will make a practical shipping package for such articles as cigars, spices, coffee, cereals and similar articles.

A building for the use of the company is being erected at Twenty-seventh and Martha streets, which will provide 2,000 square feet of floor space. Although the company begins operations on a comparatively small scale, employing about thirty hands, no concern has begun work here with a better prospect for orders, because there is no competition between Chicago and the Pacific ocean, and large orders for similar articles now go from here to Milwaukee and Chicago.

Local florists and packing houses, which are likely to be the greatest users, have been obliged to the east to buy in larger than desirable quantities at a single time and to provide storage for the shipments. Also orders have had to be placed three and four months ahead, and this will now be done away with.

Allen M. Robinson is the president of the new company and W. M. Devitt is vice

president. The secretary is H. D. Robinson. Mr. Allen Robinson is also connected with the Wooden Package Manufacturing company, the building of which adjoins the factory now being erected. The new company will import corrugated board in all grades and will manufacture for a large part of the west as well as supplying local demand.

## Plan Help for Needy Widows

Associated Charities is Arranging for a Pension Fund for Winter Months.

The central office of the Associated charities is beginning to make plans for the heavy work of caring for the poor during the cold weather and one scheme that has been much discussed that of providing a pension fund for widows will probably be put into operation. There are a number of families in the city," said Miss Junie, secretary of the Associated charities, "which get along very well in the summer time when there are no fuel bills. The older children can then remain at home and care for the little ones and the mother can go out and work. But in the winter the older children have to go to school, expenses are very much higher, and things are very much harder. Many women thus left with large families are not altogether dependent and do all the work they are capable of doing. What they want is a little help at critical times and it would not require a very large fund to give them the necessary aid. We expect to make an especial effort to get contributions for such a fund as the need is very great and the cases are worthy of whatever we can do."

## DAN BUTLER IS APPOINTED ON BIG STATE COMMITTEE

Mayor Love Names Local Man to Help Get Data for League of Municipalities.

City Clerk Dan Butler of Omaha has been appointed by Mayor Love of Lincoln as a member of a committee to establish for the Nebraska League of Municipalities a municipal reference bureau. The other members of the committee are Prof. L. E. Aylesworth of the state university and P. C. Oman, city clerk of Lincoln. These three men will confer and investigate the feasibility of establishing for Nebraska a bureau such as exists in Wisconsin and some other states for the aid of city governments and state legislatures. The League of Nebraska Municipalities will make an especial effort this year to have the rights of cities more liberally defined by the legislature, and the bureau will be expected to gather information that will aid this cause.

## It's the Farmer's Turn Now, So Turn to Farming

Every year you pay more for your living. And most of the extra money from your pocket goes into the farmer's. He's the man who can afford automobiles. He lives like a king in his modern home, with its telephone and lighting plant and bath room, with modern machinery to do the chores that used to drive the boys to the city. He raises all of his food, drives a good horse as well as his motor car, and buys mortgages nowadays instead of giving them. The cities are overcrowded. The only possible chance for a man with a small capital lies in agriculture.

The best chances for the least money are in the Southwest, where traffic is cheap, schools and comforts abound on all sides, and millions of acres of first rate arable land still to be bought at ridiculously low prices. Oklahoma, Southern Missouri, the Texas Panhandle, Arkansas, Louisiana, New Mexico and Eastern Colorado have land to spare.

IMPORTANT—The Rock Island's Agricultural Bureau will help you make your farm a success—supply expert information as to what to raise, when to plant your crops, and the markets where your produce is most in demand. State how much you can invest, where you want to go and what you want to grow.
