## Creating Wealth for the State of Nebraska

By building its lines through lands then worth less than \$5.00 per acre, the Union Pacific Railroad has aided in increasing the value of those lands many-fold.

The assessed value of all property in Nebraska has increased from \$171,747,593 in 1900 to \$398,985,819 in 1909.

There has been no more important factor than the Nebraska railroads in creating this enormous wealth, The resultant prosperity has increased the value of the

railroads. In 1900 the Union Pacific Railrord paid taxes in the State of Nebraska amounting to \$3-9,855.44. In 1909 it

paid \$578,112.44. Progress for the Unica Pacific means progress for the whole state. Every mile of additional track laid, every train or station, creates wealth, which is not shared only

by the Union Facific Railroad, but by every citizen in the State of Nebraska. We have a book on Nebraska and its resources which will be mailed to some friend in the East for the asking,

Please send us his address. Every Union Pacific Ticket Office is a bureau of railroad information. Make your wants known there, or write to me.
