Council Bluffs

INSTALLING EXHIBITS BEGINS

Problem Now Appears to Be to Find Room for Fruit.

ARRANGEMENT OF FLOOR SPACE

But Few Minor Changes Made by Program Committee—Corn Show Workers Down to Work.

With material enough already on hand to fill every part of the exposition building the work of installing the exhibits began yesterday. To find a place for the exhibits yet to come is the problem that has been put up to the exposition management. The exhibitors, however, are not worrying, for they can find a ready sale of all the fruit brought here, and will have a tremendous reserve stock upon which to draw to supply the orders of customers.

The last finishing touches were being put upon the interior of the Auditorium yesterday, and this morning all of the scaffolding will be out of the way and all of the tables constructed for the fruit displays. The whole area to be used is more than twice as large as that of last year and the exposition will be proportionately more beautiful.

The arrangement of the tables is somewhat different from last year. A line of two-sided pyramid tables has been constructed the full length of the Auditorium, which will form a suitable framing for the huge fruit mosaic that will be spread over the central part of the floor. The center of the room will be reserved for the pieced resistence as in former years, but will be surmounted by an immense globe of green sparkling with hundreds of electric lights of many colors. The globe is suspended from the ceiling by concealed wires and appears to be floating in the air.

But few minor changes have been made by the program committee. A telegram was received late last evening from Governor Jared Y. Sanders stating that he would be here on "Southern day," accompanied by the Louisiana delegation, and deliver an address on "The New South."

Corn Show Men Busy.

Superintendent Reed yesterday moved his office into the special apartments constructed for him in the northwestern corner of the annex, and was busy yesterday with his corps of stenographers and helpers. The workers in the Corn Show sections were as busy as any of the others and succeeded in constructing some singularly beautiful designs for the ornamentation scheme.

The combined shows will be formally opened on Thursday afternoon at 2:30 o'clock.

The exercises will be held in the main building. Governor Carroll will deliver the address of welcome for the state of Iowa and Congressman Smith for Council Bluffs and southwestern Iowa. Responses will be given by Silas Wilson of Idaho, Dean Curtiss of Ames, Ia., and Prof. Hutt of North Carolina.

Several additional special program features were announced yesterday. On Monday morning, November 14, the farmers attending the Fruit and Corn Show will have the opportunity of hearing two interesting addresses. Prof. Stevenson of Ames will speak on "Soil Improvements" and Prof. Bowman of the Iowa Corn Growers' association on "Value of Good Seed Corn." These men are experts in their lines. The program commences at 10:30 a. m.

Wednesday, November 16, has been designated "Dairy and Beef Cattle Day." A fine program will be offered at the regular hour, 10:30 a. m., in the lecture room. Prof. H. R. Smith of Nebraska university will speak on "Feeding Beef Cattle." He is an authority on that subject. Prof. Van Pelt of Waterloo will speak on "The Possibilities of the Dairy Cow."

Thursday, November 17, is Southwestern Iowa Day at the exposition. A profitable program, interesting to both the fruit raisers and the stock farmer, will be given. In addition, L. F. Genung, from Glenwood, will speak on "Fruit and Fun." This program begins at 10:30 a. m.

ELMER FEHR IN COURT ON CHARGE OF CONTEMPT

Ordered to Make Accounting of Trust Funds in His Hands as Guardian.

Elmer L. Fehr was arrested yesterday afternoon upon a bench warrant issued by Judge O. D. Wheeler charging him with contempt of court in neglecting to turn over trust funds after being removed as guardian. Complaints were filed simultaneously, each charging that Fehr had neglected to obey the court's orders for an accounting to the new guardian. One affidavit was filed by E. A. Jones of Omaha, alleging that on October 12, 1906, Fehr was appointed guardian of Elma Reafa Jones and on that day there was paid into his hands the sum of $2,235.62 from the sale of real estate belonging to her, and that Jones, as guardian of the same minor in Kansas, paid an additional sum of $1,125 to Fehr. On October 12, 1910, Fehr was removed from the guardianship and Jones appointed instead. The order of removal included also the command to pay to the new guardian all of the money held by Fehr belonging to his ward. The affidavit alleges that he has failed utterly to do so despite numerous demands.

The second affidavit is made by Sarah Jones, the new guardian of Irma Bishop, whose money retained by Fehr is stated to be the same as in the first case, $2,235.62, and the third is from Mary A. Williams, the new guardian of Willie Williams. She alleges the amount still in the hands of the former guardian is about $2,000. Judge Wheeler fixed Fehr's bond at $1,000, and he was under arrest but a few hours until he secured the required obligation. The hearing of the case was set for November 12.

Real Estate Transfers.

These transfer were reported to The Bee, November 7, by the Pottawattamie County Abstract company of Council Bluffs:

William L. Cockin and wife to James R. Putnam, s½ nw¼ and sw¼ ne ¼ of 11-74-38, w. d. $14,400

Edna J. Lindekugel and husband to Fred W. Pierce, nw¼ ne¼ and n 20 acres sw¼ ne¼, 4-75-41, w. d.. 5,000

Lorenz P. Pallsen to Karolina Larsen, w½ of lot 2, in block 1, in Hall's addition to Council Bluffs, Ia., w. d. 1,100

E. H. Anderson to Estella Anderson, lot 28 and s½ of lot 29, in block 4, in Hinchley's addition to Walnut, Ia., w. d. 800

Sarah B. H. Bohrer and husband to Louis E. Orcutt, lot 7, in block 4, in Bohrer's Park 1st addition to Council Bluffs, Ia., w. d. 514

Julia R. Myers to H. G. McGee, lot 14, in block 1, in Wright's addition to Council Bluffs, Ia., w. d. 150

Chermack et al, to Frank A. Pariotto, lots 7 and 8, in block 12, in Crawford's addition to Council Bluffs, Ia., w. d. 79

George W. Lise and wife to James H. Harris, lot 1, in block 1, in Railroad addition to Council Bluffs, Ia., w. d. 35

Friend L. Hayes to Maggie A. Hayes, lots 6 and 7, in block 1, in Highland Place addition to Council Bluffs, Ia., w. d. 1

Total, nine transfers..... $21,079

Council Bluffs

Council Shies Over Street Car Line Resolution

Whole Matter Referred to Committee of Whole, Which Will Meet Friday to Consider It.

In the presence of an audience that filled every foot of sitting and standing room in the council chamber, packed the antechamber and extended into the hallway back to the head of the stairs, the city council shied last night when the time came for the consideration and passage of the resolution presented more than a month ago by the street railway company granting permission to make some car line extensions. If the presence of the unusual and determined looking audience had been insufficient the presentation of two petitions, one bearing 640 names and the other more than 400, would have added weight to the popular demand for the rejection of a resolution that has come to be looked upon with the greatest suspicion all over town. If these petitions had not been enough there were still others that would have been presented, together with an amended resolution to be offered as a substitute for the pending measure with safeguarding clauses. But the council side-stepped the whole matter by referring the petitions to the committee of the whole, which will meet Friday morning at 9 o'clock for the purpose of either passing the street railway company's measure or rejecting it. In the face of the opposition that has been aroused the council will probably reject it.

One of the monster petitions came from the newly organized Citizens' Improvement club, asking for the amendment of the extension resolution to include the East Pierce street and Walnut Hill line, and the other was headed by H. G. McGee and others. For the purpose of getting all of the papers in the case before the committee of the whole Friday morning the original resolution was read again and referred for the same meeting, as was also a lengthy and most carefully written legal opinion by City Solicitor Kimball, pointing out the purpose of the resolution to be simply an attempt by the street railway company's lawyers to validate the purchased East Omaha & Lake Manawa interurban franchise and fasten it upon the city for a term of thirty-seven years. When the crowd found there were to be no verbal pyrotechnics it quickly melted away with considerable noisy confusion.

For the purpose of raising money to pay for the new aerial hook and ladder truck and the remainder due the contractors for the construction of the central fire station, the mayor was authorized to appoint a special committee to negotiate the sale of a block of bonds running ten years, drawing 4½ per cent interest and of sufficient amount to pay the outstanding obligations, approximating somewhere between $25,000 and $30,000.

Bids for the construction of 58,550 square feet of cement sidewalk were opened. Bebee & Ferguson bid the lump sum of $12,764.40 for the entire job. Pete Nelson bid 12 cents per square foot for the walk and 50 cents per cubic yard for grading. E. A. Wickham & Co.'s bid was 12¼ cents per square foot for the walk and 49½ cents per yard for excavating and grading. The bids were referred to the city engineer for tabulation. These bids are all more than 3 cents per foot higher than the last batch of sidewalk bids submitted under which the greater part of the work was done this season.

The Imperial Milling company, a new enterprise that is locating at First avenue and Thirty-third street, establishing a flouring mill and grain elevator, was granted permission to use that part of Thirty-third street extending from First avenue to the alley for the necessary railway tracks connecting with the combination railway tracks on First avenue. The vacation of the streets was by ordinance, passed under suspension of the rules as an emergency measure.

Another ordinance, passed in the same manner, regulates the building of retaining walls, and abutments and building foundations along Indian creek, for the purpose of preserving uniform construction. Permission to build such walls must be granted by the council upon plans approved by the city engineer and kept on file in his office.

Chief of Police Froom asked to have a steel plate placed along the east side of the city jail corridor, where Roy Green so easily dug his way to liberty a few days ago, and the request was promptly granted. A request from Chief Nicholson of the fire department for the purchase of a smoke protector was as willingly acceded to after the fire chief stated that the use of such a protector at the Peterson store fire on Friday night would have prevented nearly all of the loss incurred by smoke and water.

Alderman Younkerman reported the offer of $400 for the present police patrol horses, which, he said, were unfit for their work, and he was instructed to conclude the sale and purchase a new team for the wagon.

A request of property owners for the reduction of the curb line on Bloomer street from twenty-six to twenty-four feet was granted.

CONGRESSMAN WOODS TELLS OF SMITH'S WORK WITH RULES

Through His Efforts Start Was Made in Fight that Gave House Members Freedom.

Congressman Frank P. Woods, member of congress in the Tenth Iowa district, and also a member of the republican national congressional committee, has written the following letter to Henry Petersen, chairman of the republican congressional committee for this district:

"I understand that there are some parties in the Ninth district who are making the statement that Congressman Smith has always been opposed to any revision of the rules governing transaction of business by the house of representatives.

"This is not the fact. During the last few weeks of congress preceding the present congress it was through the influence of Congressman Smith that rules were amended which gave us calendar Wednesday. It was through the influence of Congressman Smith—in fact, I understand he personally assisted in drawing the amendment—that the rules were amended during the latter part of the last session of congress which enables the majority of the members to get bills out of committees. There is no question but Congressman Smith is one of the ablest members of the house of representatives. I think this will be conceded by practically every member of congress. I am sure that it will be very gratifying to the Iowa delegation if Congressman Smith is re-elected by a very large majority."

Marriage Licenses.

Marriage licenses were issued yesterday to the following persons:

Name and Residence	Age
Engelbert Nelson, Council Bluffs	21
Kate Miller, Council Bluffs	19
Leonard E. Arlesworth, Omaha	22
Mabel G. Anderson, Council Bluffs	18

Council Bluffs

Mrs. Agnes Hendry Goes for Estate

McIntosh Property in Scotland to Be Divided Among Number of American Heirs.

Mrs. Agnes C. Hendry, who has been a resident of Council Bluffs for nearly half a century, sailed from New York Saturday for Glasgow, Scotland, where she goes to look after her interest as one of the heirs of one of the oldest estates in Scotland. The property is chiefly located at Edinburgh and vicinity and represents many thousand dollars in value. The heirs are scattered all over the world, and but one-eighth of it comes to this country. The interest in the estate comes to Mrs. Hendry through her grandmother, Mrs. Jane Hetherington, who came to Council Bluffs with the first Mormon immigrants and remained here. When she died, many years ago, her property all went to her only surviving daughter, Mrs. Kippen, the mother of Mrs. Hendry. Mrs. Kippen died two years ago in Denver, leaving three other daughters besides Mrs. Hendry, and two sons. One of the daughters became the adopted child of H. H. Field, and was a beautiful and accomplished woman. She was married to W. M. Geddes, and for many years resided at Washington, D. C., where she died in 1900. Mr. Geddes has had charge of the government exhibits in all of the recent world's fair enterprises, and is well known in Council Bluffs. Another of Mrs. Kippen's daughters is Mrs. Thomas Mulqueen of Denver, a member of the well known Mulqueen family of this city.

The property to be distributed is the McIntosh estate, one of the oldest in Scotland, and the order for distribution followed the death of the last surviving member a short time ago. The value of the estate is problematical. H. H. Field thinks it will amount to about $3,500 for each of the heirs in the United States. Attorney Thompson of Grand Island, Neb., has been employed by Mr. Geddes to represent the interests of the local heirs, but Mrs. Hendry, who is the oldest in the family, refused to join the other heirs and decided to make the trip to Scotland and make her settlement direct with the crown lawyers.

MINOR MENTION.

The ladies of the First Presbyterian church will serve meals election night in the parlors of the church on the cafeteria plan.

The body of Mrs. Q. O. Johnson, who died Sunday in Denver, will arrive here this morning at 8 o'clock for burial. The body will be taken to Cutler's pending arrangements for the funeral.

Mrs. J. E. Youel and son left yesterday for their home at Union, Ore., after a lengthy visit at the homes of Mr. and Mrs. W. E. McConnell in this city and Dr. and Mrs. Stephan Phelps at Bellevue, Neb.

The members of the order of the Eastern Star will give their regular monthly kensington on Thursday evening at the home of Mrs. Louie, 601 Mynster street. All of the members of the order are invited to attend.

The opening game of basket ball for the season will be played at the Y. M. C. A. gymnasium Friday night. The contest will be between the Omaha University team and the regular team of the local association. It is expected that a large crowd will come across the river to encourage the Omaha team, and the game promises to be a notable one.

Mr. and Mrs. K. Rus, residing at 343 Grahsam avenue, reported to the police last night that their horse and buggy had been stolen from the corner of Broadway and North Main street. They had hitched it there while attending a theater. When they returned with their three young children it was missing. It was the second attempt to steal the rig, according to their statement.

William Stumpf, aged 50, was taken to the police station yesterday afternoon suffering from a severe injury occasioned by stepping off a rapidly moving street car near South Main street and Fourteenth avenue. He dropped his pocketbook while taking out change to pay the conductor and immediately plunged after it, without waiting for the car to stop. He fell heavily on the pavement, striking on his head. Dr. Mat Tinley, who attended him at the station, found that his skull was fractured.

The county court house will be deserted today to permit all of the attaches and employes to do their full duty at the polls. Some of them, however, took out hunters' licenses the last thing yesterday and contemplate hunting other kinds of game than the unsatisfactory and stubborn voter. Auditor Innes' office will have to remain open all day on account of election supplies, and "Honest John" Matthews, the deputy whose political fortunes are fully made regardless of the result of the fight today, will be on duty all day.

The fire department has had twelve runs in the first seven days of November, as against less than half a dozen for the entire month of October. There were two fires yesterday afternoon. Sparks from a chimney set fire to the roof of the home of S. M. Buttel, 1712 Third street, and a small section of the roof was burned off before the department arrived. Burning papers in the alley caused a fire that crept unobserved through the grass and into the barn on the premises of G. A. Lowery, 819 Seventh avenue. The roof was partially burned off and the interior badly damaged.

Fire Chief Nicholson yesterday afternoon filed an information in police court charging two teamsters, one driving a huge freighting van for the Welch Transfer company, and the other a big freight truck for McMillen, with driving over a section of fire hose while the firemen were fighting a fire at 819 Seventh avenue. The firemen had 500 feet of hose stretched across a street when the teamsters came along. Both, it is alleged, drove across the line after a few moment's delay. The McMillen wagon had a 6,000 pound load on, and passed over the hose within twenty feet of the hydrant. The hose was carrying ninety pounds of water pressure, and on account of this and because it was a new section, withstood the additional strain. The men will have a hearing in police court this morning.

MAKE LAST EFFORT TO DEFEAT KUEHNLE

Delayed Action Used as Pretense to Affect Election Against Candidate for Senator.

DENISON, Ia., Nov. 7.—(Special Telegram.)—A last attempt was made today to defeat C. F. Kuehnle for state senator in this district, composed of Monona, Harrison and Crawford counties by sending broadcast a copy of an original notice in a case filed recently in district court, charging the law firm with which Mr. Kuehnle is a member, with defrauding a German farmer of his land. The petition was drawn by a local attorney named Harding, who has recently been before the court under dishonest proceedings. The transaction in which it is complained Mr. Kuehnle had a wrong part is said to have taken place in 1897 and no suit has been brought before. It is clear that it was brought now and the notice mailed out by the thousands at this time to affect the election and Senator Kuehnle's friends here are most indignant.

Iowa News Notes.

CRESTON—The new Fontanelle depot was formally opened Sunday for traffic and the trains will now stop in the village. Heretofore, for years, the depot has been located a mile from the village, and the residents of that place are now preparing to assume metropolitan airs, because they can take the train within a few minutes walk from their homes.

CRESTON—In the foot ball game here Saturday between Greenfield and Creston High schools, the result was a tie, neither side scoring. The Greenfield team is composed of great husky fellows, much heavier and older than the local team, and they came with the anticipation of an easy victory. The plucky home team not only held their own in a great game, with the odds all against them, but made their opponents work to the utmost to prevent them scoring.

RUSTIN STORY TOLD AGAIN

Widow of Late Omaha Doctor on Stand in Insurance Suit.

SAYS WAS SHOT WHILE ON PORCH

Accident Companies in Louisville Court Plan Defense Death Was Due to Conspiracy—Many Depositions.

LOUISVILLE, Ky., Nov. 8.—(Special Telegram.)—The case of Grace H. Rustin, widow of Dr. Frederick Rustin of Omaha, against the Fidelity and Casualty company of New York, the Aetna Insurance company, the Casualty Company of America, the Travelers' Insurance company and the Employers' Liability company went to trial yesterday in Judge Fields' court.

The plaintiff is suing for about $40,000 accident insurance carried by her husband when he was shot in Omaha and from which wound he died September 2, 1908. Mrs. Rustin is now living in Haverhill, Mass.

The defendant insurance companies, the cases having been consolidated, held that Dr. Rustin's death was an accident, but allege that it was the result of a conspiracy. Mrs. Rustin, placed on the stand at 3 o'clock this afternoon, related that her husband was shot while sitting on his front porch.

T. J. Mahoney of Omaha and Marshall Bullit of Louisville represent the plaintiff, while Fred Forcht, Colonel Bennett H. Young, David Baird and others represent the defendants. The case will be on for several days, but court will not sit tomorrow on account of election. The rest of the testimony will be by depositions which were taken in Omaha and Denver several weeks ago. Maps of streets and pictures are on exhibit in the case. The opening statement for Mrs. Rustin was made by Mr. Mahoney and for the defendants by Fred Forcht.

Mrs. Rustin on Stand.

Mrs. Rustin, on direct examination, said she did not know who shot her husband. She submitted to a rigid cross-examination by David Baird. The witness declared that money matters were a source of constant trouble between her husband and herself. She admitted that her husband had borrowed money from his mother and had failed to meet a note, for which she upbraided him. She also admitted that she and her husband had discussed the matter of leaving Omaha, as he had made a failure in the practice of medicine so far as money matters were concerned.

When questioned as to the fact that her husband had not spent a night with her for two weeks before he was shot, she said that he had spent a Sunday night at home with her during the period of time.

Mr. Baird asked the witness if her husband had not taken typhoid fever germs in milk with the intention of committing suicide. The witness said he had typhoid fever and she told a physician that she thought he might have taken typhoid fever germs, as he had some in his possession, which came from Chicago. She said she never saw him take any germs, but saw him throw some in the furnace. She was questioned strongly why she did not call in the neighbors as soon as her husband was shot, but she said she called various persons as soon as she could. Mrs. Rustin was on the stand over an hour.

The defense has prepared to build up an elaborate case upon the theory that Dr. Rustin arranged with an acquaintance to kill him so that the insurance might be collected.

Rice Story to Be Retold.

Evidence in support of this theory will be presented from Mrs. Abbie Rice. The testimony given by this woman at the coroner's inquest in Omaha, which will presumably be repeated in court in Louisville is thought here one of the strangest stories that ever came from a witness in a trial in an American court house. The Rice woman alleges in the first place, that Dr. Rustin tried once to kill himself by swallowing typhoid germs and did get typhoid fever. Later she says Dr. Rustin persuaded her to kill him, so that his family might get the life insurance. She agreed with the understanding that she would then kill herself. They determined that the woman should shoot and kill Rustin in his office, but she lost her nerve and failed to do it. Several nights later Rustin took her to the barn back of his residence and tried to get the woman to kill him there, saying that it would be believed that burglars had done it, but after promising to kill him she again weakened and would not fire the shot. She says Dr. Rustin would not kill himself because he feared his family would not get the insurance.

The case will be resumed Wednesday.

Congress to Be Asked for Aerial Military Fleet

St. Louis Aero Club Offers Free Use of Aviation Field for Government Tests.

WASHINGTON, Nov. 7.—Plans for an aerial military squadron will be presented to congress, the number of the air machines to be provided being left by the War department to the lawmakers.

This was announced today by Major General Leonard Wood, chief of staff of the army. Brigadier General James Allen, chief of the signal corps, in his report to General Wood, already has recommended that twenty machines be purchased at once for the army.

The necessity for more heavier-than-air machines is held by army authorities to be imperative if the United States is to keep abreast of other powers in the science of military aviation.

ST. LOUIS, Mo., Nov. 7.—The board of governors of the Aero Club of St. Louis tonight authorized President A. B. Lambert to offer to Secretary of War Dickinson the use of Kinloch aviation field for government aeroplane tests, following the announcement that the secretary had contracted for fifty machines for the use of the United States signal corps. At the same time Mr. Lambert was authorized to offer $20,000 to any domestic or foreign manufacturer of aeroplanes who will first demonstrate the practicability of his machines to the satisfaction of the War department. The use of the local aviation field is offered without cost to the government, and the further proposition is made that the soldiers at Jefferson barracks, who may be required during the tests, will be transported without expense to the department. The Aero Club of St. Louis is the only organization in the United States of a similar nature which owns its own aviation field.

Good Results Always Follow

The use of Foley Kidney Pills. They are upbuilding, strengthening and soothing. Tonic in action, quick in results. Sold by all druggists.

DIETZ RELEASED ON BAIL AND REARRESTED AT ONCE

Cameron Dam Defender Again in Jail Charged with Shooting in Nineteen-Four.

HAYWARD, Wis., Nov. 8.—John F. Dietz, "The Cameron dam defender," today was released from jail on $40,000 bonds, but immediately was re-arrested on another charge and tonight is again in jail.

Dietz was charged with killing Oscar Harp, a deputy in the recent siege of Dietz' cabin at Cameron dam. As soon as Dietz stepped out on to the porch of the jail Sheriff Madden served a warrant for the shooting of Patrick McGin on May 8, 1904. Dietz' attorney asked if that was the last of the charges against his client, but no information was given him.

Attorney Schultz stated that the $10,000 bail for Leslie Dietz would be available in a day or two. Bail for Mrs. Dietz is available at any time, but she refuses to accept it until her husband is liberated.

A Frightful Experience

with biliousness, malaria and constipation is quickly overcome by taking Dr. King's New Life Pills. 25c. For sale by Beaton Drug Co.

Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Aikey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ills, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Clothes do not make the man

But they improve him mightily

Especially our kind of clothes. The clothes without an equal. Possibly your political opinion was of a substantial nature and may have included a suit or an overcoat—and—well, we are always "looking for more business."

The Berg Clothing Co
15TH & DOUGLAS

This Gown is Armand's Personal Choice

This is the model for the coming season that M. Armand singles out from all the exclusive creations in Martial et Armand's lovely Place Vendome palace.

The foundation of Ibis (Egyptian red) broche crepe de Chine, printed with a cashmere border, is veiled with prunelle chiffon that has a deep hem and panlers of prunelle velvet. Chemisette of the charming prune-tinted chiffon. Lace emplecement of vient argent and acier (old silver and steel).

Line is the chief motif of the new styles.

Therefore, the fashionable silhouette demands a good figure under the gown. A good figure is merely a matter of the right training. Figures are made, not born.

Figure building and figure training (requiring both art and science) are peculiarly the province of C/B corset makers. Their clients are the best dressed women of all countries. If you are wearing C/B A La Spirite corsets ask to see the new models designed for your figure. If you are not wearing them you do not yet know how much your figure can be improved. For sale everywhere.

Weekly style cables from C/B Fashion Bureau in Paris are at least 60 days ahead of everything else. These cables are published in full on the first of each month in a free booklet entitled "C/B Style Cables." Ask for it at the corset counter.

C/B A la spirite corsets

Prices $1.00 up to $5.00
