VACANCIES AT THE CITY HALL

Plumbing Inspector and City Comptroller Offices Soon Vacant.

GOSSIP ABOUT THE CHANGES

Politicians Figure There is a Chance for a Consolidation, the Same as in the Office of Treasurer.

Two offices in the city hall will be vacated by the election changes and a new plumbing inspector and a new city comptroller will have to be provided before next spring, unless plans to do away with the city comptroller's job materialize. Mr. Lobeck's successor as comptroller, if there is one, will be elected by the city council when Mr. Lobeck resigns about March 4, and Mr. Lynch's successor as plumbing inspector, must be appointed by the mayor by January 1.

The arrangement of the comptroller's job is somewhat up in the air because of the agitation that is just beginning to make itself known in favor of consolidating the city office with the formerly existing county office, which will be revived for the purpose. There used to be a county comptroller, but this job was taken away and the duties conferred upon the county clerk last January, but for the purpose of consolidation of the county and city affairs, the office could be recreated.

A number of city and county politicians are of the opinion that it will not be long before all the city and county offices are consolidated and Omaha is made a county as has been done in many metropolitan centers of population.

"All we need in consolidation with South Omaha," said Frank Putney, who holds the only combination office now, operating the city and county treasurership, "and when we can do that we will have our county and all of the offices can be brought together as they should be."

WORK ON NEW POWER HOUSE IS BEING RUSHED

Omaha's chance of having its new street railway power house ready for occupancy next June as was expected depends greatly on whether the fine weather that has kept us so long will continue for another week or two days. The big building with its many tons of steel is all ready for the cement construction roofing, but because of unnecessary delay in the bringing of materials the roof has not been started. It now the materials have arrived and it will take about ten days to place it.

If the roof of cement can not be laid immediately it will be obliged to be put in at odd times when the weather is moderate during the winter, but much of the inside work will be delayed because it cannot be done in weather below freezing.

The two big boilers, 300 horsepower each, are in, and Saturday has been set as the day for testing them. One-half of the steel work is up, 1.20 tons having been placed. Bricklayers and cement workers are present

In force and rushing everything before the cold weather stops the progress.

H. Lemm, foreman for the McGowan & Jacobson Co., contractors, declares that if he can get the roof on in time he will easily be able to finish in time.

Human Fly on City National Bank

Dare Devil Gilds the Ball on Top of the Flagstaff on New Skyscraper.

A little ball of gilt that stands against the sky fifty feet above the top story of the City National Bank building was the roofing phase Friday for a human fly. The crowds below stepped to stare up at

AGED MAN PUT UNDER BOND

Lewis W. Driscoll is Arraigned in Police Court on Statutory Charge Made by Girl.

Louis W. Driscoll was arraigned in police court Friday morning on a statutory charge. Several of his friends from Hot Springs, S. D., from whence Driscoll came yesterday to give himself up to the Omaha police, went on his bail, which was set by Judge Crawford at \$1,000. The preliminary hearing was set for next Wednesday morning.

It is alleged that Driscoll gave a 13-year-old girl doped candy three weeks ago in Omaha. The girl's parents obtained a warrant for his arrest, but not until after the man had gone to Hot Springs. A son of Driscoll heard of the warrant and notified his father. Driscoll is 73 years old.

Lifelong Bondage

to dyspepsia, liver complaints and kidney trouble is needless. Electric Bitters is the guaranteed remedy. 50c. For sale by Reaton Drug Co.

Look for the Proof Behind the Talk!!

Would you pay \$25.00 for a fine, new, stylish raincoat or waterproof overcoat if you could get it for \$14.80? Or \$18.00 for one that you can select here any day for \$11.30? Not if you are careful of what you do with your money.

You, sir or madam, cannot afford to pay your good money for raincoats without knowing what are our qualities, our styles, our prices. We originated the idea of selling raincoats direct from manufacturer to wearer. We have no middlemen. We make one profit—and that a fair one. Y-O-U save two profits for yourself—that of the jobber and retailer. This is the only exclusive raincoat store in Omaha. Nowhere else can you get such raincoat values as here at Southeast corner Sixteenth and Davenport streets. Won't you come in and look for the proof behind the talk?
