This majority is more than one-third of the total number of republican votes cast this year, and in order to overcome k we had to hold slit the democratic vote of two years ago and convert one in every three of the republicans. A Great Organization.

Chairman Franke said today that those who view the outcome of the election with a superficial inspection fail to realize the enormity of the organization which brought about another republican victory in Iowa. The results obtained by Chairman Franke two years ago, by laying special stress on organization, strengthened his belief in that method of campaigning and therefore was not responsible for any connection she may have had with the tragic death of Thomas. In other quarters it is thought self-defense will be urged in behalf of the accused woman.

Immediately after her acrest on the charge of killing Thomas, Mrs. McMahon claimed that she acted in self-defense, so it is likely this will be the grounds upon which her defense will be based at her trial.
