For The Woman That's Fat

A Detroit physician says that the cheapest and safest mixture a fat woman who wants to get thin can use is 4 ounce Marmola (get it in the original 4 ounce package), 4 ounce Fluid Extract Cascara Aromatic and 24 ounces Peppermint Water. The proper amount to take is a teaspoonful after meals and at bedtime. These ingredients may be obtained from any drugglet at small cost, and make a combination that is not only excellent as a fat reducer, being able, it is claimed, to take off a pound a day without causing wink es, but is also a splendid help to the system as a whole, regulating the stomach and bowels (where the fat person's troubles begin), and clearing the skin of pimples and biotones. No exercise is required to help the remedy in its work, and best of all, no disting is necessary while taking it—you can eat what you like.—Adv. For The Woman That's Fat
