BEEFSTEAK IS STILL CHEAPER

twelve years, says Edgar Allen of the Allen Bros. company. "Except lines controlled by trusts or dominated wherever produced by large interests, grocery wares are now far below what they used to be. Milk and cheese and preparations of these are higher, at least 2 1/2 per cent in some cases. But all other lines are lower. You have never heard a complaint, have you, with respect to grocery prices, even when talk about the increased cost of living has been most furious? The standard of many things has increased. Canned goods are far better in quality than ever before and the amounts sold larger per can."

German Wants Cheaper Meat. BERLIN, Nov. 16.—It was officially announced that the imperial government contemplates the early opening of the frontiers for the importation of foreign live stock in order to counteract the high prices for meat. Live Stock Lower at Kansas City. KANSAS CITY, Nov. 16.—Declines of 50 cents per 100 pounds in the price of sheep, 15 to 25 cents in the quotations on hogs, 15 to 25 cents in the cattle prices occurred at the stock yards today, owing to large receipts and the general belief that cheap corn will result in largely increased supplies of all kinds of fat live stock in the future.

TREE DAMAGE RULING UPHELD

Supreme Court Says Power Company Must Pay Mrs. Slabaugh Damages.

LIQUOR SELLER LOSES APPEAL. Admission of Liquor Seller that He Has No License All That Is Required for Conviction.

(From a Staff Correspondent.) LINCOLN, Nov. 16.—(Special Telegram.)—The verdict for damages secured by Annie C. Slabaugh against the Omaha Electric Light and Power company for trimming the trees in front of her property because they interfered with the light wires has been affirmed by the supreme court. The court holds:

In the absence of a valid legislative act or municipal ordinance granting the public service corporations authority to trim shade trees growing in the streets of a metropolitan city without compensating the abutting property owner for damages thereby inflicted and enacted before the lot owner plants trees in that part of the street contiguous to his lot, an electric light company is liable to the owner for damages accruing to his lot by reason of such trimming.

The supreme court has affirmed the judgment of the district court of Lancaster county, which found Herman H. Slabaugh guilty of selling liquor without license. After his arrest the defendant asked for a change of venue to a Havelock justice, he holding that the police judge and other justices in the city were prejudiced. This motion was overruled and when arraigned the defendant did not plead a plea of not guilty, was entered for him and he was bound over to the district court. There he filed a motion to quash the information. This was overruled and the defendant found guilty.

The principal question for the supreme court was the result of the motion to quash the information. The court held:

Proof that a defendant who admits that he has no license to sell intoxicating liquors was requested to procure liquor for another, thereby receiving money therefor, and shortly afterwards delivered the liquor to such person, is sufficient to make a prima facie case, and authorizes a conviction in the absence of any explanation or denial.

Labor Federation Hears Resolutions From Committee

Proposition for Erection of an Office Building in Washington to Come Up for Action.

ST. LOUIS, Nov. 16.—Resolutions which have been presented to the American Federation of Labor convention were read at this morning's session. Reports of committees were also made. Because of a visit to one of the largest breweries but one session was held. The delegates before adjournment will act on the recommendation of the executive committee that the federation erect a building in Washington, D. C., for its own use and with space to rent to business and professional men.

It has also been recommended that the convention meet the third Monday in November instead of the second. The delegates claim that the convention comes too soon after the elections in different parts of the country. The dispute between the American Federation of Labor and the Canadian Trades and Labor congress as to terms on which they are affiliated, broke out afresh today. The terms have not yet been accurately defined.

P. M. Draper, secretary of the Canadian organization introduced a resolution making the Canadian body co-ordinate with and independent of the federation. Many members of the American Federation wish to admit the Canadians under the status of a state federation. The resolution was referred to a committee. A discussion of two hours took place on the floor upon the question of seating delegate Kemp of the Keokuk, Ia., Central Trades and Labor union. The credentials committee recommended that Kemp be seated on the ground that the Keokuk organization took sides with an anti-union body. The committee was sustained.

Jacob Classen of Osage County Declines to Take Oath of Allegiance to United States.

BEATRICE, Neb., Nov. 16.—(Special.)—Jacob Classen, a wealthy Mennonite, living six miles southwest of Beatrice, yesterday applied for final naturalization papers, but refused to subscribe to the oath of allegiance administered to and accepted by every foreigner before he may become a full-fledged citizen of the United States and enjoy the right of suffrage which it grants.

Mr. Classen stated that he absolutely would not subscribe to it if meant that some time it might behoove him to take up arms and fight for his country in time of war. He said if that was one of the requirements before he could become an American citizen he would take his family and emigrate to some other country. Unless Mr. Classen decided later to subscribe to the oath his application will be refused and action taken for his deportation.

(From a Staff Correspondent.) DES MOINES, Ia., Nov. 16.—(Special Telegram.)—The report of the State Board of Control, filed with the governor today, asking for over a million and a quarter of special appropriations for state institutions, including \$200,000 for land for an epileptic colony, is taken to indicate that the demands upon the next legislature for money will be enormous. It is believed the new institution to care for the epileptics will be established.

Carroll Orders Thanksgiving. Governor Carroll today issued his Thanksgiving day proclamation, in which he said: "Through the blessings of an overruling providence, we come again to the thanksgiving season, with abundant cause for rejoicing. Never in the history of our state has there been greater reason why its citizens should return to Almighty God the sincere thanks of a grateful people. Seldom, if ever, has our commonwealth been blessed with so plentiful crops as have been grown in Iowa this year. An abundance of almost everything common to our soil has been produced. Labor has been employed and at good wages. Business conditions are good and our people are prosperous and contented. It is not only in harmony with custom but highly appropriate that a day be set apart for thanksgiving and prayer for continued blessings and protection to our commonwealth and its people, and, therefore, I, H. F. Carroll, Governor of the state of Iowa, do hereby designate and proclaim Thursday, November 24, as Thanksgiving day, and I do earnestly request that insofar as it is possible the day be observed as a day of thanksgiving and that the people meet together in thankful worship and praise to God for blessings already bestowed and in petition for a continuance of His goodness toward us and all His people."
