They promptly selected H. able building in which to locate his fac-U. Calkins of the Nebraska Portland Ce- tory, and he hopes to be ready for operament company as chairman. Mr. Calkins tions on a rather extensive scale not later heads the local arrangements committee than January 1. Omsha, by reason of its for the big exposition, with F. W. Whipperman of the Omaha Concrete Stone company as secretary. Members of the committee on arrangements are N. J. Peterson of the Ideal Cement Stone company; Omaha uses an exceedingly large number W. E. Owens, the inventor and manufacturer of a very successful cement post; Stone company, J. H. Sanders of the South manufactured a number of the collars and Omaha Artificial Stone company, B. B. after a thorough test they have been de-Hopper of the Dundee Cement Stone company, R. E. Sunderland of Sunderland Ing & Martin, cement contractors, and W. H. Melerstein of the Southern Coal and Supply company

Supply company, Others who took a prominent part in the meeting were Join A. Beebe, F. D. Carey and C. A. Martin.

Chairman Calkins represents a firm which manufactures coment at Superior. Neb. and which has a sales office in Omaha. He Informal Reception to the Public is formal opening of the canal in 1913 necessiis thoroughly familiar with the cement sit uation in Nebraska and says of this exposition: "Nebraska can show as good a lin of cement products as any state in the country and the Omaha exposition will be a surprise to visitors. It will exploit a Nebraska resource about which little is will be conducted in its new home beknown and make one of the most interest-

ing shows ever held in Omaha." The exposition has the Commercial club. to inspect the new quarters on the through the publicity bureau, back of the ing Wednesday and days thereafter. enterprise. It has already been extensively advertised in cement and concrete papers and considerable space in the Auditorium gins two days later. has been sold.

This building will be transformed into as near a cement factory as possible, with afternoon after banking hours. Many of is sanguine of accomplishing the feat. Reeverything from rock orushers and cement mixers to steam oured cement blocks. Some of the exhibits will be unique, one having been secured which shows a model farm with all cement buildings.

President McCord goes on to New York to attend a national exposition of cement machinery and products, expecting to contract considerable space while in the east and induce many machine men to come to Omaha. The Omaha dates have been so arranged that those making exhibits at the Midwest Cement exposition may go on
