## ALL ON SALE SATURDAY IN BRANDEIS BASEMENT

### GOSSIP OF COMMERCIAL CLUB

Several Spoken Of as Chairman of Executive Committee.

### ELECTION FIRST OF THE YEAR

Usual Contest is On to See Whether Retainers or Jobbers Will Pre-dominate in the Club Management.

W. F. Baxter is likely to be the next chairman of the executive committee of the Commercial club. If not he, the man will probably be either Everett Buckingham or W. M. Glass.

The annual election of a new executive committee takes place the first of the year and speculation among club members is already rife. While the committee will choose its own chairman, and a good deal depends upon the personnel of the committee to be chosen, the committee is always swayed somewhat by popular preference among club members, and this preference is for Mr. Baxter, with the other two men following in the order named.

Mr. Baxter is secretary of Thomas Kilpatrick & Co., and his being connected with a retail house is at once an advantage and a disadvantage as respects his chances of election. On the one hand, many club members including some of the broader minded jobbers feel that the club will do well to elect a man as its active head who is a retailer. The election of David Cole chairman last January was symptomatic of this sentiment, for Mr. Cole, while a wholesaler, is in closer touch with all business interests of the city than almost any man who could be named.

Contrariwise the die-in-the-last-ditch

jobbing faction will be against Mr. Baxter solely for the reason that he is a retailer, just as it would be against any other man similarly situated. All of these will declare that they have a high personal regard for Mr. Baxter as a business man and in every other way, but they will not vote for him.

**Buckingham Popular.**

Mr. Buckingham is personally one of the most popular men in the club as he is in Omaha, and he as chairman would unify all business interests. This last is a strong argument and the regard in which he is held will make him the strongest candidate against Mr. Baxter. Neither of these two, nor Mr. Glass for that matter, is a candidate in any sense, either active or passive, but all will be urged to let their names be used.

Mr. Glass is mentioned by his friends because of his record as chairman of the industrial committee, which has been a notably active committee and which has within recent months landed many new industries in Omaha. Mr. Glass is secretary and manager of the Lee-Glass-Anderson company, and if he consents to be a candidate he will be held to be the jobber's entry because of his identification all his life with jobbing interests.

The scramble for membership of the executive committee will bring out even more names than usual, and it is safe to say that slate-making and trading of votes will be observed as heretofore.

In the long run the tendency will be, as it has been in the last one or two years, for other interests than jobbers to be well represented on the executive committee, and if a nonjobber is not chosen chairman for 1911 it will come about in 1912.

At the end of the year David Cole will pass to the honorary position of president, now held by Edgar Allen.

On the executive at present are eleven

### JOBBERS, THESE BEING E. B. BRUCE, W. M. BURGESS, W. M. GLASS, F. L. HALLER, C. S. HAYWARD, CHARLES HARDING, G. H. KELLY, T. C. BYRNE, C. H. PICKENS, J. B. RAHM AND J. A. SUNDERLAND. Counting Mr. Cole this makes within one of half the committee, which with the chairman numbers twenty-five. The remaining memberships are scattered as to business. W. H. BUCHOLD, G. E. HAVERTICK and F. H. DAVIS are bankers; J. L. McCAGUE and E. A. HENSON are real estate dealers. H. H. BALDRIGE is the only lawyer. Messrs. Baxter and T. A. Fry are the only retailers, unless Gould Dietz of the Dietz Lumber company be counted one. The Dietz company is both wholesale and retail. C. C. Rosewater is a newspaper man, Nathan Merriam a grain man and more like a wholesaler than retailer. John Steel is an insurance man and Everett Buckingham is general manager of the Union Stock Yards company.

### PLANK CRUSHES MAN'S FOOT

Tom Williams Suffers Painful Injury from a Falling Beam.

A heavy plank falling from the fourth floor to the second struck upon the right foot of Thomas Williams, a structural iron worker at Fifth and Jones streets, and crushed it Friday morning. Williams was attended by Police Surgeon Bishop at the police station, and was then taken to his home, 1815 Farnam street.

He was at work on the new street railway power house when he received his injury.

### An Auto Collision

Means many bad bruises, which Buckler's Arnica Salve heals quickly, as it does burns and burns. See For sale by Heaton Drug Co.

### VACANCY WORRIES COUNCIL

Doubt Exists as to Method of Appointing Attorney.

### BURNAM'S AIDES CONSIDERED

No Ordinance Bears on Case and the Council Isn't Sure How to Proceed—Two Other Places to Be Filled.

Some doubt exists in the minds of the city officials as to the proper method of appointing a successor to the office of Harry E. Burnam. There seems to be no ordinance that bears directly upon the matter and there is a choice between having him elected by the council or appointed by the mayor and merely confirmed by the council.

There is one precedent in the case of John P. Brown, who was elected by the council to succeed Carl C. Wright, when Mr. Wright resigned. At that time, however, the office of city attorney had been appointive and now it is elective.

The members of the council would express no opinion Friday morning as to the probable outcome of the doubt, and no one is known as a candidate for the position. J. J. Dunn is first assistant city attorney and John A. Rine second assistant. Both of these men are prominent democrats and should stand well with the democratic administration.

### It is still an open question as to who the new city comptroller will be to succeed C. O. Lobeck, and the new plumbing inspector to succeed John Lynch, since

both of those officials have been elected to other responsibilities.

### All Machines Re-read and Various Small Changes Recorded

Lobeck's Majority Cut Down to 215 Votes—Country Precincts to Be Canvassed.

Upon the conclusion of the work by the canvassing board Thursday and the voting machines had been re-read and the principal change recorded was that reducing the lead of Lobeck to 215 votes, whereas it had been 330. The various changes made in the count were eight votes gain for Sutton in the Second precinct of the Tenth ward, thirty votes gain in the Fifth precinct of the Tenth ward, making the total gain in recount for Sutton 38 votes. Lynch gained 100 votes in the First precinct of the First ward, ten votes in the Second precinct of the Twelfth ward, making his total gain in revision 110. Pixa gained two votes in the Fifth precinct of the Tenth ward, which brought his total gain to 138. There are eleven country precincts yet to be canvassed.

### OFFICIAL CANVASS UNDER WAY

Six Precincts Counted Reveal No Change from the Original Clerks' Returns.

Canvassing of the official returns of the election of November 8 was begun in the committee room of the Board of County Commissioners Friday morning. When the board took its noon recess returns

from six precincts had been examined and no differences from the unofficial returns found. The canvassing was continued Friday afternoon.

### Woman Gets Big Damages in Verdict

Jury Awards Mrs. Elliott Seventy-Five Hundred Dollars for Death of Son Last July.

By the verdict of a jury in the district court Friday morning, Mrs. Mattie A. Elliott was awarded damages of \$7,500 against the General Construction company of Omaha. Mrs. Elliott's suit was for \$5,000 as damages in the death of her son, Howard Elliott, who was electrocuted while at work for the company on the construction of a street railway at Halston on July 12. The company made an informal motion for a new trial. Mrs. Elliott is acting as administratrix of her son's affairs. The construction company gave notice of a motion for a new trial.

### PAULSEN DAIRY DESTROYED

Thirty-Six Cows and Two Horses Die in Blaze.

### SHERIFF PROBES FIRE CAUSE

Flames Totally Wipe Out Dairy West of City and Owner Thinks that Incendiary Caused the Destruction.

Thirty-six cows and two horses died in the flames of a fire which destroyed the dairy of Henry Paulsen on the Center street road two miles west of the city limits Friday morning about daylight. The cause of the fire is unknown.

It was discovered by a member of the Paulsen family when every building in the dairy enclosure was a mass of flames. Two horses and one cow were the only animals saved from burning. It is estimated the loss will reach past \$5,000. The Paulsen residence, a short distance from the scene, escaped damage.

Deputy county sheriffs were sent out Friday morning to investigate the origin of the fire. Paulsen thinks it was started by an incendiary. This belief, however, could not be verified.
