James Thompson, 9 years old, died yesterday after a two-days liness from acute
pneumonia at Mercy hospital. Mr. Thompson was taken from his apartments in the
Ogdan hotel, where he resides with his wife
and family of three children, when the disease developed. The body was removed
to Cutler's undertaking room to be prepared for transportation to Wamego, King,
the former homs.

A Council Bluffe and

A Council Hiuffs amateur photographer is the satisfied possessor of a photographe made by himself showing the moon's sciles. The photographic lone was strongthed by a good objective mounted for the purpose, and the apparatus, hurridly prepared, did its work excellently. The periphery of the earth as cast in shadow on the moon presented a saw-tooth outline The photographic negative wheat thrown of the corn and grain exhibits that took becountain slibouettes.

Else slarm box No 51 beauted at the prizes winning exhibits will be sold to

Fire slarm box No. 51, located at the morner of Eighth street and Fifth avenue, was pulled last evening by some victously-incided man or boy and a faise alarm sent to the fire department. The box is one of the modern pattern with the push button protected by glass, which must be broken when an alarm is turned in. The glass has been broken several times lately and the firemen have had useless runs. The law provides a fine of 50 and a hall sentence, but the difficulty of catching the offenders is so great that the box will probably be removed and placed in a safer environment.

The annual meeting of the Danish Hall

removed and placed in a safer environment.

The annual meeting of the Danish Hall association was held on Wednesday evening. The old officers were re-elected unant-mously. Peter Peterson, the well known contractor, being slacted president, and M. Rassmunsen, treasurer. The financial report showed the affairs of the association were in such excellent shape that a dividend of 5 per cent on all of the stock was declared. It has been three years since all of the stock of the huilding was acquired by the lodges and during that time dividends of 37 per cent have been declared. During the lass year a good deal of money has been experided on improvements of the building or the dividend would have been larger. The Danish lodges have a membership of about 900 men and women and the building is becoming too amail for their accommodation. The necessity of adding another story to the rear part was discussed at the meeting, and the improvement will probably be made next year.

One of the Greek track workers employed by the Milwaukee Railroad company was brought to the Edmundson hospital years.

One of the Greek track workers employed by the Milwaukee Railroad company was brought to the Edmundson hospital yesterony afternoon for surgical treatment made necessary by a distressing accident. He was working near Manilla, in., driving rail spikes into a hard oak ite. He had given it a few light taps to start it and then struck a full force blow with the heavy sledge. It flew out, striking him in the corner of the right eys, driving the ball from the socket and leaving it suspended on his cheek. Handages were placed over the injury and he was hurried to the hospital wiere Dr. Macrae operated upon him. The eye was returned to its place and ir. Macrae said inst evening that there was a possibility of saving the sight. The unitertunate man cannet speak a single word of English and the hospital authorities will be unable to secure his name until it is siven to them by an interpreter this morning.

Fire Chief Nicholson returned yesterday from Sionx City, where he attended the annual meeting of the State Firemen's association. As predicted, Des Moines went that the meeting with an overwhelming number of votes and secured the firemen's state tournament next year. When it came to vote upon the tourney question the meeting was instantly transformed into a Des Moines jublies. No other town had even a look in. The date of the event is never fixed at the annual meeting, but left to a local committee acting in conjunction with the board of control. All of the old officers of the association were re-elected for the ensuing year, George M. Kellogs, chief of the Sions City department, president; E. E. Lambert, chief of the Newton department, first vice president; Thomas Price, the Clinton chief, ascond vice president; Chief Nicholson, third vice president; E. I. Adderman, Cedar Rapids, trassurer; George Francis, Des Moines financial secretary; E. E. Parson, Marion, recording secretary. The board of control is composed of the chiefs of departments of nine cities, When the Des Moines local committee decides upon the time best suited for the tournament the board of control announces the date.

FIREMEN ON WAY HOME PAY VISIT TO THE BLUFFS

Number of Those at Sloux City Meeting Inspect the Workings of Department Here.

A number of firemen who attended the meeting of the State Firemen's association at Sloux City, returned from there yester day in company with Chief Nicholson and ere his guests during the day. Nearly all of them were members of the board of plot in part uncovered by the Mexican govcontrol. They were Frank Sawman, chief, and R. E. Oviatt of the Shenandoah department; A. J. Seefeldt, chief of the Red Nogales, Ariz., to Brownsville, Tex., was Oak department, and J. H. Raferty and 1. set for Sunday, November 20. Nogales is S. Cook of the same department; C. V. Mullins, H. T. Bunker and H. Kerson of Schora. It has been in existence since the the Villisca department.

The firemen spent a pleasant day visiting the exposition and the local fire stations, are in the United States. The revolutionists In the afternoon Chief Nicholson brought out the new aerial truck and save them an supply of meney, which has been used to exhibition, showing the efficiency of the purchase arms in this country. apparatus and the case with which the Council Bluffs firemen acquired mastery of the new apparatus. Just at noon, when all of the visitors were at the central fire can be construed as overt under the federal station an slarm came in, fortunately close enough in to permit the visitors reaching it When an attempt is made to take them in time to see how the department discharges its duties. The fire was located in the rear of the brick building at 319 Broadway, occupied by Mrs. Emma Pfeiffer as a millinery store. A shed had caught fire and was going nicely when the firemen arrived. It was of such small dimensions that it was turned over to No. 3 chemical. for treatment. The loss was practically

Several of the visiting firemen went to Omaha during the afternoon and all returned to their homes on the evening

Taft Sails for Home Well Pleased with

President Says Progress on Isthmus Has Been Very Satisfactory Since His Last Visit.

COLON: Nov B .- President Tail sailed for Cherieston at 6 c'clock last evening abourd the armored cruiser Tennesses which was convoyed by the Montana after four interesting days on the lathmus. Be-

fore leaving, the president said: "This is the fifth time I have visited the sthmus and I have gone over the whole line and looked into every part of the imthe busiest individual in Council Binffs yes- provement, it is about twenty-two months the progress made has been most satisfactory. Indeed, it is remarkable.

"The first thing that strikes one is the fact that work is being done apparently on every foot of the fifty miles of canal, and done under an organization of men plants and materials that operates as conomically and effectively as if it were a machine, with Goethals in control of a lever which sets and keeps the whole mahine in operation.

"When I was here twenty-two months ago the main question was the confirmation of the judgment of congress in having adopted a lock type of canal instead of a sea level. The extent to which the Catun dam and the locks have been completed has removed from every impartial observer the slightest doubt of the wisdom of the decision made and the feasibility of the plan adopted." On the eve of President Taft's departure

me bottermakers, dissatisfied that, after earing their complaints last evening, the resident would give no immediate answer o their demands, gave five days' notice of quitting their work and sailing for ome. Several of the unions of ma-

It is not proposed to strike, but simply o resign and leave the lathmus. Only hourly employes, constituting % per cent of the force, are likely to be affected. The canal officials are indignant at these employes for trying to force their demands. which the officials regard as unreasonable. President Taft promised to consider the matter fully and cable his answer from Charleston, but this did not satisfy some of the hot-headed among the bollermakers.

THREE DAYS' TIME REQUIRED TO CURE THE DRINK HABIT THE NEAL WAY

Where Formerly It Took Weeks It Now Requires Only Days to Cure.

In the treatment of alcoholism the remarkable results obtained by the administration of the Neal 3-Day Liquor Cure have long been recognized. The old custom of placing alcoholic pagents under from four to six weeks' freatment with the necessary loss of time and money is a thing of the past.

Three days are all that are required to cure drunkenness, either periodical or habitual at the Neal Institute in Omaha at 1502 South Tenth street, and the cure is effected without the use of dangerous hypotermic injections or injurious drugs. Another desirable action of the medicine used in the treatment is the repidity with which it restores the general system to its normal condition. From the vary first dose almost all craving for alcoholic stimulants is descroyed and a perfect cure is effected in only three days' time.

It has been demonstrated that there is no such thing as a sesser cure for drunkenness and you are taking great risk in administering these remedies. The genuine Neal Cure is administered in Nebraska only at Grand Island and at 1502 South Tenth street, Omaha, Neb. Address Neal Institute Co., O. B., 1502 South Tenth street, Omaha, Neb.

Why All Progressive Merchants Are Using Electric Light

Progressive merchants everywhere have found the wonderful General Electric Mazda Lamp an immeasurable benefit to their business. This lamp radiates brilliant white rays nearly like those of the sun. "This superior quality of artificial light is produced by a rare metal filament that not only radiates a perfect light, but gives nearly three times as much light as the ordinary incandescent -and costs no more to burn. It is this remarkable combination of facts that is causing thousands of people to have their houses and places of business wired for electric light. In fact, this new G-E Mazda Lamp is swiftly revolutionizing artificial lighting. It is making electricity the universal illuminant.

You owe it to yourself to at least come in and see this wonderful lamp. We can show you to your own satisfaction that this G-E Mazda Lamp immensely increases the advantages of electric light. THE OMAHA ELECTRIC LIGHT AND

POWER COMPANY
