Be Made This Year Until Close of Season-Standing of Eastern Teams.

BOSTON, Nov. 20 .- The college foot ball season which closes this week has been one of surprises and unexpected upsets been regarded as weak.

The question of awarding the theoretical championship probably will prove almost Oakland's superior. The fact is, Oakland all-American eleven, which sporting writers beat Lyons, 3 to 0, and Lyons beat Oak- like to figure out on paper, and on the makeup of which no two ever agree.

Most of the experts have postponed the settlement of these two quustions until the final games are played. Thanksgiving day Pennsylvania will clash with Cornell at Philadelphia and Brown will meet the Carlisis Indians at Providence. Saturday comes the annual army and navy contest at Philadelphia.

Eighteen deaths on the gridleon from injuries received in the game, is foot bail's toll thus far this year. Appalling as is this number of fatalities, it is only approximately one half as large as that of a year ago, when the number was twenty-nine, indicating that the new rules, while they have not entirely eliminated the dangerous feature of foot ball, have been successful in cuiting down the number of fatal aco i cidents. Of the eighteen deaths reported to

date, thirteen have occurred since the foot ball season opened this fall. The other five were of players injured under the old rules. Most noted in the list being that of Earl Wilson of Annapolis, who hovered between life and death from last October until April 14, when he died in the naval hospital at Annapolis. One of the recent fatalities was that

of Captain Budolph Munk of the University of West Virginia, who died on the field a week ago today while playing against Bethany college. Munk's death caused the cancellation of the balance of the schedule at both West Virginia and Bethany. Among the other colleges cancelling its games because of the death of a player, was Wabash college of Indiana, following the death of Ralph Wilson, a halfback of the eleven, who expired in a St. Louis hospital following injuries sustained in the Wabash university of St. Louis the day before Shortly after the new rules made their appearance last spring, a number of prominent foot ball critics declared that the increased open play would not materially reduce the number of injuries and that prediction has been fully borne out by the injuria- reported from the gridirons in all sections of the country this fall. The total number of cases of fractured bones is 150, while instances dislocations, torn ligaments and gashes sustained, swell the total to con siderably above 400.
