MUTINY IN BRAZILIAN NAVY

Crews of Two Battleships Turn Guns on Loyal Vessels.

ASK CONCESSION AND AMNESTY

Ships Are Now Outside Bar of Harbor and Are Awaiting Action by Congress—Few Shells Thrown into City.

RIO JANEIRO, Nov. 24.—The mutineers in the navy have sent a message to the government offering to surrender.

The senate has unanimously approved a proposition for amnesty to the rebels.

The chamber is still discussing the matter.

RIO JANEIRO, Nov. 24.—The crews of two battleships of the Brazilian navy mutinied yesterday.

They turned their guns on the loyal ships and also threw a few shells into the city.

During the outbreak several officers were killed. The fighting ceased at night.

The mutineers remained in possession of the two vessels.

Today the battleships with their mutinous crews were anchored outside the bar awaiting action by the government.

Congress was summoned in session at 1 o'clock this afternoon to deal with the situation.

The censorship in strict and details of the trouble cannot be cabled at this time.

It is officially stated the trouble is not of a political character and should be described as a mutiny among the sailors to enforce certain concessions from their officers.

rather than a revolt against the administration of President Fonseca.

Demand for More Pay. For some time the men of the navy had been agitating the matter of more pay.

They also objected to the practice in the navy of inflicting corporal punishment upon insubordinate or otherwise offending sailors.

The matter came to a head yesterday when the crews of two of the larger warships turned on their superiors.

It is reported that the captain of the battleship Minas Geraes was killed.

Following the fighting the mutineers expected congress to pass a measure this afternoon granting them amnesty.

Each dispatch conveyed the news that the crews of several warships had mutinied.

A rigorous censorship has with-held further details. A cablegram received here today from Rio Janeiro says that

framing is in progress between the warships in the Navy base.

Admiral Paruchar, commanding the Fourth British cruiser squadron, has been ordered to Rio Janeiro.

The Admiralty, however, asserts that this was only in pursuance of the original itinerary of the squadron and not connected with the outbreak.

Matry Spreads to Other Ships. WASHINGTON, Nov. 24.—J. J. Slechts, the American consul at Rio Janeiro, today cabled the State department that all of the seamen in the Brazilian navy had revolted and controlled all the vessels in Rio harbor.

Cosacks Stop Demonstration. ST. PETERSBURG, Nov. 24.—Extraordinary precautions were taken today to prevent the students making demonstrations against capital punishment.

The bridges leading from the university quarter to the city were closed. The police and several regiments of infantry and Cosacks were stationed along the routes.

A number of persons were injured, but none seriously.

Geneva Woman Files Will. SIOUX FALLS, S. D., Nov. 24.—(Special.)—Mrs. Hattie E. Hedy of Geneva, Neb., has filed in the county court of Lawrence county the will of her late father, Orson B. Hedy, for probate.

The estate is stated to consist of \$15,000 worth of mining ground in the Black Hills, \$600 in cash and \$15,000 worth of farm lands in Nebraska.

By the terms of the will the estate goes to the daughter during her life and to her son upon her death.

Importance in the national capital's observance of Thanksgiving day was the second annual Pan-American service at 11 o'clock this morning in St. Patrick's church.

President Taft, nearly all the members of the cabinet, supreme court justices and diplomatic representatives from every government in North and South America, being expected to attend.

Special mass was celebrated, Cardinal Gibbons and Archbishop Homedale Falconio, the apostolic delegate, taking part.

The church will be decorated with flags of all nations.

President Taft will eat his Thanksgiving day dinner at the White house, surrounded by his family and a few intimate friends.

BULLETIN. MEXICO CITY, Mex., Via Galveston, Nov. 24.—Victor Rosewater, The Life, Omaha, Neb.—Border reports from Mexico are greatly exaggerated.

From official assurances and reports from our own correspondents, I am satisfied the government forces are amply able to control the situation in the northern states.

PAUL HUDSON, Editor Mexican Herald.

CITADAD PORTIFRIO DIAZ, Mex. Nov. 24.—The Mexican government has ordered the confiscation of all of the property of Francisco I. Madero, leader of the revolutionists.

Madero has large landed interests in northern Mexico, and owns valuable property in the city of Monterey.

But even if the revolutionary movement should fall and Madero lose all of his property in Mexico, he would not be a poor man.

It is known that he has investments in New York and his holdings of continental securities are said to be large.

According to reports reaching here today through government sources, the Diaz forces are now in complete control of all of northern Mexico, except perhaps small sections of Coahuila and Chihuahua.

Arms and ammunition in large quantities shipped from St. Louis and New York have been seized by the government forces in the mining camps at San Pedro, Santa Barbara, Ido and other points, according to reports received here today.

These military supplies are said to have been shipped several weeks ago as mine supplies, etc.

It is assumed that more than \$5,000,000 worth of modern rifles, cartridges and high-power explosives have been taken by the Diaz troops since Sunday.

Telegram from Creel. WASHINGTON, Nov. 24.—"Order has been established in all the republic with the exception of the district of Guerrero, in Chihuahua, where a faction of about 500 men are not yet completely reduced."

The foregoing is a text of a telegram dated November 23, received today from Enrique C. Creel, the Mexican minister of foreign affairs by Ambassador De La Barra.

It is the opinion of Henry Lane Wilson, United States ambassador at Mexico City, that the situation in the republic is improving.

The State department has a
