New York Man Has Account of Record Fight with Bears
William Mizner Shoots Three and Accidental Discharge of Gun Kills Fourth and Saves Life.
MONTICELLO, N. Y., Nov. 26.—William Mizner of Grahamsville yesterday established a new bear killing record. He shot and killed three bears and saved his fourth by accident when about to be killed himself. As he tells the story, it reads like a romance.
Within twenty-five minutes three black bears came crawling from the rocks, one at a time. Each was killed. Then Mizner crawled into the cave in search of cub. The cave was narrow, but he squeezed in only to be confronted by a large male bear. In his cramped position he could not use his gun. He drew a knife and brand driving the blade in the animal's ribs. They struggled madly for a minute. Then, Mizner says, the gun was accidentally discharged and the bear fell dead.

Sack of Registered Mail Causes Great "Doings" for Hour

Reported Lost, City's Detective Force is Put on Trail—All Time it Was Where Should Be

After causing immense excitement among the city force of detectives, the secret service and the postal officials, a sack of registered mail, which was reported stolen early last evening from the corner of Tenth and Douglas streets turned up later at its destination, Council Bluffs, all safe and sound.
Instead of having been stolen in the moment's time that he lost sight of it while a car came between, as Elmer T. Matson, the clerk in charge of the mail sacks reported, Matson picked it up with another sack, unknowingly, and threw it on the car. When he looked around the sack, of course, was not there.
That it had been stolen was the first thought that came to Matson's mind. Almost beside himself at the thought of having allowed a sack of registered mail to be stolen while in his charge, and his mind filled with fears of the consequences, Matson never thought of looking in the car, but reported the theft immediately to his office and the police station.
Several city detectives were at once detailed by Captain Dempsey, and in company with the secret service men searched non bottom compasses and the railroad yards high and low in an attempt to discover some trace of the missing sack.
Matson lives at 336 South Twentieth street.

Take Labor Importers on Omaha Indictment

Two Greeks Arrested for Victimizing Countrymen Brought Over for Track Work.

NEW YORK, Nov. 26.—Stavros Karambas, a restaurant proprietor, and Sopolos Vicos, an associate, were arrested tonight charged with conspiring to violate the immigration laws by preparing the transportation of a number of Greek contract laborers for construction work on the Union Pacific railroad.
The arrest followed the receipt of a copy of an indictment found against the men by the federal grand jury at Omaha on November 2.
The agents of the government allege that the men arrested have for some years been trafficking in labor. It is charged that accomplices are at work in Europe gathering up the "contract" men, who are sent en masse to New York. The operations of this alleged syndicate are said to have netted handsome profits exacted from the victims as a percentage on their wages.
Three defendants arrested in Nebraska are at liberty under bond. The two men arrested in New York may be brought to trial here, although F. R. Howell, a state district attorney, said last night that it was possible the trial would be held in the east.
While the authorities decline to discuss details of the case at this time, it is understood that they are intent to apprehend a number of other defendants.

Eleven Miners Are Entombed in New Mine Explosion Buries Alive Workmen Near Providence, Ky.—All Believed to Have Perished.

PROVIDENCE, Ky., Nov. 24.—Eleven coal miners, eight of whom were negroes, were entombed in mine No. 4 of the Providence Mining company today by a gas explosion and it is believed that all are dead. The mine is new, the shaft being only 150 feet deep, with only a few entries. The explosion was so violent that little hope is entertained of the miners having escaped death. A rescue train from the mine rose station at Linton, Ind., is on the way to the scene tonight. Comrades of the men entombed are digging frantically to reach them.
The explosion blew great masses of slate and stone far from the shaft. A mile down, still alive.
Officials of the mining company and state mine inspectors late tonight expressed hope that the men in the shaft might still be alive unless they were killed by the first explosion.
