Fellowing this action the subcommittee's report will be prepared for the full committee at once and will be sent to the senate within a short time.

The subcommittee consists of Senators Burrows, Michigan; Bulkeley, Connecticut; Gamble, South Dakota: Heyburn, Idaho; republicans. Frazier, Tennessee: Paynter, Kentucky, and Johnson of Alabama, demo crats.

These men conducted the hearing and practically all the testimony of the case was taken in Chicago. The testimony of a few witnesses, taken in Washington, developed little of importance.

Fall Committee to Meet. The full committee may meet late this week, to receive the subcommittee's report, but no session of the full committee has been called.

.\$10,000 The proceedings of the subcommittee today were executive, all members declining to discuss their action. A resolution was adopted, by which all members agreed not to divulge any of the proceedings or to discuss the vote until after the matter had been submitted to the full committee. The 1.45 full committee consists entirely of lawyers and it is expected they will judge the evidence from a technical viewpoint, much the same as a court would do. The report was current about the senate that an informal canvass of the committee had been taken and not one member would vote to sustain the charges. This, however, was not confirmed. There is no doubt that the action of the

subcommittee reported today is correct. Although the members refused to discuss it publicly, news of the action was communicated to their colleagues in the senate, who are not members of the committee. History of Case.

The charge that Senator Lorimer had purchased his seat in the United States senate was first made when a confession
