MARTIN LUTHE

A bold, vigorous and masterful life of Luther is the only kind of life to do justice to a bold, vigorous and masterful man.

The monk who defied the Pope and brought about the Reformation is but little known to the present generation of readers.

This need of a modern biography has been met and well met by the Life of Luther, which begins in The Century for December. Dr. McGiffert, a distinguished scholar and an enthusiastic student of Luther's time, is the right man to write it, and The Century, the medium for so many epoch-making biographies, is the right magazine to publish it.

This December number is the Christmas number of The Century, and Christmas is celebrated in it with something more than the usual Christmas good cheer, some stories being essentially Christmas stories, and others being just good stories. It is needless to remind those who care for The Century that it makes a good gift to others.

CENTURY
