

You'll Find Your Opportunity at the Omaha Land Show

Come to the Omaha Land Show January 18th to 28th, '11

This is what it will do for you:

If you live in the corn belt

It will teach you how to raise more corn; how to test and select seed; how to keep up your land; how to prevent hog cholera; how to combat insect pests, etc.

If you have money to invest

It will show you where the best opportunities are located. See the exhibits shown by all western states, and the openings for investment in the rapidly developing sections of the West.

If you want to move elsewhere

It will show you the best locations for new homes. Places where developed farms and bearing orchards are offered for sale. Where new projects are being placed on the market and where free government homesteads can be obtained. These opportunities will be fully explained to the Land Show visitors, and you can see just what is offered in each locality.

If you want to see the West

You can see it all under one roof by attending the Omaha Land Show, where the different states will join in making exhibits, and where they can be compared, one with another.

If you want a good time

You will find entertainment and amusement as well as instruction at the Omaha Land Show.

The Omaha Bee and The Twentieth Century Farmer

Wish to convince the people about the wonderful possibilities of the west, and they are backing up the Western Land-Products Exhibit because they realize that an exhibit of this kind will show people more of the real truth about this wonderful section than any amount of pure talk and the real interest in the upbuilding of the empire is due to the fact that they realize that it is upon the west that Omaha must depend for its future progress and greatness.

Go west and grow with it!

Land information bureau

So many of our readers have written us from time to time, asking us for reliable information as to soil, climate and value of land in localities in which they were thinking of locating or buying for investment, that we have decided to establish a Land Information Bureau.

This bureau will make investigations and gather data, so that it will be able to either answer inquiries direct or give parties wanting information the names of reliable persons to whom you can write.

When writing, address, Land Information Bureau, The Twentieth Century Farmer, Omaha, Neb.

Go west and grow with it!
