

GRAIN AND PRODUCE MARKET

Drenching rains in Southwest Put End to Drouth Talk.

CORN RECEIPTS ARE VERY HEAVY

Stocks Increase Slightly—Present Levels Liable to Weaken Under Growing Pressure—Bulls Are Suffering Now.

OMAHA, Dec. 28, 1910. Drouth in the southwest is effectually broken and dry weather talk will end as good drenching rains have fallen over Missouri, Kansas and Oklahoma.

Receipts of corn are heavy and demand continues daily. It is doubtful if present levels can be maintained under the heavy pressure of crop.

Wheat bulls supported their market in face of rain throughout the week. The estimated Argentine surplus values early advanced, but eased back and were yesterday.

Liberal receipts of the visible supply have the market a heavier tone, resulting in a decline in values. Cash demand is not sufficient to urge buyers to support the market.

Primary wheat receipts were 32,000 bu. and shipments were 75,000 bu. against receipts last year of 37,000 bu. and shipments of 50,000 bu.

Liverpool closed 4 1/4 and higher on wheat and 4 1/4 to 4 1/2 on corn.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Dec. 28.—Disappearance of world's available supply of wheat helped turn the market upward today, notwithstanding good rainfall and drouth in the southwest.

The first named happening was overlooked for the other had been largely discounted in full day in the Chicago market.

Leading longs in wheat bought the May option, but they sold July, because the distant delivery became weak, whereas that nearby was strong.
