

'The problem of relieving the congestion of population in large cities," which we read so much about now-a-days consists merely in providing proper transportation facilities and inducing people who have the means of living out tin nature's realm, where all is quiet, peaceful, healthful and pleasant. Man is an out-of-door creature and the more time he can spend in his natural element the healthier and more successful he is. The joy of being transported in a few minutes from the heart of a smoky, noisy, odorous, city business center with its continual nerve racking, money making strife and nothing but business, business everywhere to a quiet country home surrounded by trees, flowers, the aroma of the forest and the recollections of boyhood can only be appreciated by experience. The relief and rest it gives to a busy overworked mind soon becomes a acquired when the change is so marked. No and perseverance assures success. nature as conventionalism will allow.

centive to endeavor to the owner of such tunities, he will create them. pared to the advantages for health, morality and pleasure which a country home families on a lot formerly occupied by offers to the children. Constant contact one, becomes more marked. This results with the sights of evil which greet a child in a commonplace manner of living, which make one side elegant and another plain on every hand in a large city can not im- soon becomes a habit. The incidents of without exposing the sham. Some people prove its morals and are sure to lead to each day's life vary but little. The result evil imaginings which may or may not be is that many people live a humdrum exist- gold-plated hardware trimmings, and use the seed from which will spring future ence year after year and never think to a cheap grade of wood for the interior fin-iniquity according to the child's training take a day off and get acquainted with naand personal power to resist temptation, for ture in her natural environment. If they temptations will surely come to a city did they would realize how much of real, child. A large city has been likened to a delightful, healthful living is possible in order to outdo the neighbors. A front sponge which continually soaks up a mixed within easy access to any busy center and entrance should be attractive as a mark pulation of varying morals, let a drop of black impurity be taken up and it will abodes (you can hardly call a flat or tene- propriately so and not lead to unpleasant ing its darkest and irradical strains in certain places, but affecting the whole to some extent. A child raised in the country, in a modern attractive home, with everything bearing the stamp of simplicity frankness, natural honesty and genuine sincerity and charm of manner, to say nothing of good health, which forms the nucleus from which all our great men grew up to sturdy, robust manhood. Lincoin, Garfield, Grant were all born in in a space hardly wide enough for a dog country homes of primitive rusticity. In to wag his tall. I have been told that some the primitive homes of America "Are people have to go out of doors when they rocked many cradles which our nation want to smile because they live in a flar. would preserve for centuries as sacred, if we only knew which ones they were."

Why Omaha Property is a Good "Buy" for Anyone.

RE-SALES PROVE THE PROFITS

Property After Property Has Increased from Twenty to Forty or Fifty Per Cent in a Year or Two at the Most.

If you wish to get rich quick, buy Omaha and even 50 per cent, put your money into profit of 40 per cent. lots or buildings in Omaha. Sales of record | The week over has seen dealers much show how true these statements are.

business district show the most excellent

Take for example Griffin & Smith's addition, not far from the Field club district. The southwest corner of Poppleton avenue and Thirty-fourth street sold for \$1,760 in 1907, in 1909 for \$2,500, and in 1910 for \$3,000. The northwest corner of Thirty-fourth street and Woolworth avenue sold for \$5,500 | high, with a basement. The cost in 1907 and for \$5,750 in 1910. This is a gain of \$3,250 on \$5,500 in a little less than three years or about 20 per cent per annum.

In the same addition a lot on Woolworth avenue between Thirty-third and Thirtyfourth streets sold for \$1,000 in 1907 and for \$2,750 last year.

In Oakhurst addition a lot on Thirtythird street between Pacific street and street to Charlotte Endres for an investin 1968 for \$1,250. Elighteen months later he sold it for \$1,766. Another lot, fronting east on the boulevard between Pacific street and Poppleton avenue, sold for \$1,500 in 1900 and less than a year later for an even \$3,000. So much for this part of town. Patrolman Fimple Sustains Sprained

Take an example from the retail business district:

September 9, 1908, E. A. Cudahy bought the northwest corner of Seventeenth and a run-away team at Fifteenth and Har-Douglas streets for \$6,000. The property, hey streets last night, fell and twisted is unencumbered and is \$6x122 fest. Oc- his ankle badly. He was taken to the tober 10, 1810, just thirteen months later, station and the injured member was Dr. Harold Gifford bought the property dressed by Police Surgeon C. H. Peppers. paying \$97,500 for it. Mr. Cudahy's profit The team which had almost come to a was \$12,500 on an investment of \$65,000. Comment is superfluous.

Going to another part of the city one finds that in Sulphur Spring addition, sevgral jots between Lacust and Emmet and Sixteenth and the railroad tracks sold in gram.)-G. D. Smith's elevator, operated 1907 for \$800 each. Recently they sold for by \$1.100 each. A jot in Patrick Piace, on fire last night. Loss on building, \$4.000; Ohio, between Twenty-fourth and Twenty- on grain and contents, \$2,000; partly infifth street, sold for \$650 in 1907; in 1910 it sured.

Twenty-fourth street, one block north of business

One of the advantages of building in the

country from an architectural standpoint

is the fact that a country home is essen-

tially all front. Very often what we usu-

ally term the front of the house faces the

most desirable view, while the approach

by driveway is from the opposite side.

making it necessary to make one side as

attractive as the other. This means a

home in which one takes more pride and

consequently gives more care to than is

given to the rear part of a house on a

congested street with a "city front" that

is square, covered with useless ornament

and generally uninteresting. There are few

homes in the city in which a guest is per-

mitted to inspect the back porch, and it is

just as well that they do not, for the av-

erage back porch does little credit to the

owner's taste. The "all front" effect of a

country home is therefore but another ex

ample of the genuineness of country life.

Here the "lie" on a "city front" which

sending a strong delegation to Portland

tive to the prospects for a tariff commission and possible changes in the wool schedule.

Dr. Wilson spoke in vein similar to Mr. Delfelder. The Omahans who must compete against Denver and Chicago for the convention include representatives of the Commercial club, the South Omaha Live Stock exchange, Omaha hotels and comnission men. The party will include A. F. Steve's "First Offense" on Charge of Stryker, J. M. Guild, Rome Miller, Will A. Campbell, F. Castle, Everett Buckingham, Will Wood, Joseph Shoemaker, William Farrar, Charles Bogue and Ed Cahow.

Omaha goes before the convention with many excellent arguments. The Omaha wool market has expanded wonderfully and the great wool warehouse has been full of thousands and thousands of pounds of wool all year. Inasmuch as 1910 is really had tasted other drinks than come from the first year of the wool warehouse opsibly be usked.
