ZERO TEMPERATURE GENERAL

Cold Wave Extends from Northern Texas Into Canada.

NORTH PLATTE HAS 16 BELOW

Number of Trains Stalled in the Snow in Iowa—Roof Torn from Passenger Coach by the Wind in Kansas.

WASHINGTON, Jan. 2.—A special bulletin was issued by the weather bureau as follows:

"The cold wave that opened the present year in the northwest was the most severe of the season. It follows a disturbance that moved down the eastern slope of the Rocky mountains to western Kansas, and from thence northeastward to Lake Superior, where it was central this morning, attended by general snows and rains over the eastern half of the country.

"In the meantime a high pressure area of great magnitude has overspread the entire west and the cold wave now covers the whole interior of that section.

"The cold wave will maintain its severe character, and temperatures below the freezing point may be expected by Wednesday morning well into southern Florida, while over the middle northern districts they will range from zero to probably as much as twenty or twenty-five degrees below over the extreme northern districts.

KANSAS CITY, Jan. 2.—With the thermometer registering 3 degrees below zero and the wind blowing twenty-eight miles an hour from the northwest at 6 o'clock this morning, Kansas City and vicinity exeprienced the severest cold of the season. The mercury is below the zero point all over Kansas and Missouri. Officials at the United States weather bureau here say it will remain in the zero neighborhood most of today. During the night a fine sleet carried before the swift northwest wind formed the first real blizzard of the year. Texas experienced zero weather all through the Panhandle. It was 4 degrees below at Amarillo.

The lowest temperature in Oklahoma was 2 degrees below zero at Oklahoma City. In Kansas the range was from 3 below at Wichita to 8 below at Dodge City.

High Winds in Kansas.

TOPEKA, Kan., Jan. 2.—The blizzard sweeping over Kansas gave passengers on Rock Island railroad train No. 28, due here early this morning, an unusual experience. While running at full speed the top of a passenger coach was blown off, causing a scare and giving the passengers a chill, but no one was injured. The damaged coach was abandoned at Belleville and the train reached Topeka two hours late. The telegraph lines along the Rock Island are down and the trains are being operated with difficulty.

Fourteen Below at Denver.

DENVER, Colo., Jan. 2.—Denver and Colorado in general are experiencing the coldest weather so far this winter, the thermometer at the United States weather bureau station here registering 14 degrees below zero at 5 o'clock this morning. There is practically no snow in this part of the state, but comparatively heavy falls are reported from the mountain districts. Railroad traffic is considerably affected.

Much Suffering in Chicago.

CHICAGO, Jan. 2.—With the temperature dropping at the rate of more than 2 degrees an hour and with the wind approaching a gale, the first blizzard of the new years began to make itself felt in Chicago today. Emergency preparations were hurriedly made by the relief organizations to meet the consequences which were expected to be severe before nightfall.

Twenty Below at Mitchell.

MITCHELL, Jan. 2. (Special Telegram.)—For over twenty-four hours the snow storm which started Saturday night continues unabated. The government thermometer showed the mercury at 13 degrees below zero Sunday morning and 20 degrees below this morning. The wind blew very heavy from the northwest and filled the cuts in the railroads.

The Milwaukee company abandoned its trains to the Black Hills country last night, when it arrived here four hours late, although the passenger train was sent north with its load of passengers, for the legislative opening at Pierre. The passenger train from the west over the Milwaukee road was abandoned again this morning although a train was sent west at 9:30 o'clock this morning.

Twenty Below at Bloomfield.

BLOOMFIELD, Neb., Jan. 2.—(Special Telegram.)—A severe blizzard has been raging in this locality for the last thirty-six hours. Late Saturday night it began to snow and a terrific wind has been blowing since then. Last night the thermometer reached 20 degrees below zero. On account of the snow drifting the train that leaves here at 5:50 in the morning did not get out this morning. The noon train, however, went out on schedule time, but it is not known whether it will be able to get through or not.

CAR SERVICE DESPITE STORM

Trolley Lines Kept Clear by Sweepers and Plows.

Street car service in Omaha, although somewhat irregular was kept up by the company to the usual hours Sunday night, and cars were out again Monday morning. The blizzard hit the service in several ways, the tracks, of course, causing the most trouble.

Lines running north and south fared much better than the east and west lines. On the Farnam and Benson lines forces of men and the sweepers were working all night, but as fast as the snow was swept off it would blow over and cover the tracks up again. The cars, in hitting these snowy places, would stop and run slowly and in a short time almost all the cars on the line were bunched at one spot.

The power in the wires was also affected some by the cold, and another cause that put many cars out of service until they could be thawed out was the freezing of the air brake system. All the cars in service were put on by the company in an effort to help the service, and as there were not many people traveling Sunday and Monday, things went off much better than if the cold wave had come on a working day.

BLOCK BURNED IN WICHITA

Bitting Store and Office Building Destroyed, Causing Loss of Hundred and Fifty Thousand.

WICHITA, Kan., Jan. 2.—The four-story Bitting office and business block and the Herman & Hess clothing store stock on the first floor of the building were destroyed by fire today. The loss is $150,000. Insurance amounts to $75,000. Gas that escaped in the basement caused the fire. Fireman Bessie was dangerously frozen while fighting the fire in a temperature of 3 degrees below zero. The tenants who had offices in the building moved out in time to save their property.

The Weather.

Official Forecasts—

Forecast for Nebraska—Fair with continued cold, with temperature below zero.

Reports from weather observation stations in the northwest received by the local weather station indicate great extent of the storm and the severe cold.

High barometer was reported from stations all over the northwest and all stations reported heavy falls of temperature. Temperatures ranging from 28 below zero to 40 below zero were reported from all observation stations in western and south western Canada, the lowest temperaure being recorded at Edmonton. The Winnipeg station reported a minimum temperature of 32 below zero. Temperatures ranging from 28 to 30 below were reported from stations in the Dakotas and Montana.

The lowest temperature recorded in Nebraska Monday morning was 16 below zero at North Platte. Cheyenne, Wyo., reported a temperature of 20 below zero, and the weather bureau thermometers at Lander and Sheridan, Wyo., showed minimums of 26 below zero.

The cold area extends southward beyond Dodge City, Kan., where the mercury registered 8 below zero Monday morning. Amarillo, Tex., reported 4 below zero.

Temperature at Omaha yesterday:

Coal Production Nearly Up to Mark

Most Important Factor During Year Was Prolonged Strike in Illinois and Southwestern States.

WASHINGTON, Jan. 2.—The production of coal in the United States in 1910 was between 475,000,000 and 485,000,000 short tons, a considerable increase over the output of 459,715,704 short tons in 1909 and near the previous record of 480,363,424 tons produced in 1907.

This estimate was made by Edward W. Parker, from reports received by the United States geological survey from coal mine operators and others familiar with the industry.

"The most important factor influencing the coal mining industry in 1910," says Mr. Parker, "was the prolonged strike in Illinois and the southwestern states. This strike, or suspension, which started on April 1, pending an adjustment of the wage scale, was not settled until September 15, and after that much time was lost in putting the mines into condition for operation, so that the period of idleness was fully six months. The settlement was a practical surrender of the operators to the demands of the miners, with an increase of 5.55 per cent in wages.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

BANKS SHOW GREAT GROWTH

(Continued from First Page.)

the Merchants and Bankers Almanac, a one-volume octavo publication of 183 pages. The Bankers Encyclopedia for 1910 contains 2,570 pages.

The three national banks had a total capital stock of $150,000, $50,000 each. The state banks may have had as much, but it is probable that most of them did business on considerably smaller capital. The six state banks may have totalled about another $150,000, which would make the total banking capital of Nebraska in the year named $300,000.

In 1910 the total capital of the 219 national banks of the state was $15,300,000. Deposits of these same national banks were $121,700,000. This is more than $100,000,000 more deposits than thirty-five years ago.

Omaha National's Expansion.

Another comparison showing the growth of Nebraska in banking power can be made in looking at the first report of the largest bank in the state, the Omaha National, and comparing this with the last statement made to the comptroller of the currency. The first quarterly report shows that the Omaha National had deposits of $120,115. November 10, 1910, the date of the last statement, deposits in this bank amounted to $11,055,421. Capital stock has increased from $50,000 to $1,000,000. Loans and discounts jumped from $42,949 to $6,962,775. In 1905 the Omaha National bank had government securities worth $56,155. In November last year United States bonds bought to cover circulation were owned in the sum of $780,937.

The grand totals in the first quarterly report were $319,890; in the last statement to the comptroller the grand total was $13,389,029. The Omaha National is no single instance of banking growth. Many other institutions can show great growth and prosperity and splendid prospects for the future.

New Bank Opens Up Today.

Today a new national bank opens its doors, the Stock Yards National bank of South Omaha, which is the result of the combination and consolidation of the Live Stock National and the Union Stock Yards National banks.

The internal growth of Omaha and the state in the next few years will be almost limitless and for this purpose the banks must be called upon for loans to merchants and manufacturers who are expanding their business. Plenty of money will be available for these men when their ventures are sound and rational, and the net result will be profitable to the banks, the borrowers and not very indirectly to the whole people of the state.

M. Selicow has left the city for New York to select his spring line of ladies' tailoring goods for the spring and summer season of 1911.

Oklahoma Legislature Meets.

OKLAHOMA CITY, Okl., Jan. 2.—Members of the Oklahoma legislature are here for the third regular session of that body, which is scheduled to begin at noon tomorrow in the assembly rooms of a large office building here.

DIX IS GOVERNOR OF NEW YORK

First Democratic Executive for Eighteen Years Inaugurated.

OHIO LEGISLATURE CONVENES

Democrats Have Both Branches of the State Legislature and Governor for First Time in Twenty Years.

ALBANY, N. Y., Jan. 2.—John Alden Dix, a democrat, was inaugurated governor of New York state at noon today. He succeeds Governor Horace White, who became chief executive last October when Governor Charles E. Hughes resigned to become an associate justice of the United States supreme court.

Surrounded by a brilliant gathering in the great assembly chamber, which had been appropriately decorated for the occasion, Governor White relinquished the office of chief magistrate to Governor Dix, the first democratic governor to assume the office in eighteen years. The governor then delivered his inaugural address. He said in part:

"The end of all governments should be the preservation of true liberty—that liberty which guarantees to every man the fullest measure of individual right consistent with a proper maintenance of the rights of all others, and at the same time preserves and maintains the collective rights of all the members of the state.

"Under our constitution such liberty we possess in New York. It must be our constant aim to so strengthen and extend the exercise of the personal and inalienable rights by the individual as to bring to the state the greatest growth and highest development of which our citizenship and resources are capable.

"I am succeeding to the governorship when business training and understanding seem absolutely essential to the proper administration of public affairs.

"Great as are the public resources of our commonwealth, expenditures and outgo have grown in a measure out of all proportion to the revenue of the state and we seem committed to an outlay which will not alone tax to its fullest extent our income, but demand that we draw on the future in a way which, in my opinion, is of doubtful wisdom."

Ohio's Legislature Meets.

COLUMBUS, O., Jan. 2.—The seventy-ninth general assembly of Ohio opened today at 10 o'clock with the democrats for the first time in two decades in control of both branches and Judson Harmon, a democrat in the gubernatorial chair, having been re-elected at the November election.

Unusual interest is shown in the proceedings of the legislature because there will be elected a successor to United States Senator Charles Dick, a republican, and because of the fact that Governor Harmon is believed to be in training for the presidential nomination.

In the senate there are nineteen democrats and fifteen republicans; in the house, seventy democrats and forty-eight republicans. The republicans lost one member through the death of Representative-elect C. J. King of Ashtabula county. The democrats, therefore have a majority of twenty-six on joint ballot.

New Governor of Michigan.

LANSING, Mich., Jan. 2.—Charles F. S. Osborne of Sault St. Marie, well known as an author of books of travel and as a public speaker, was sworn in today noon as the twenty-ninth governor of Michigan. He is the first citizen of the upper peninsula to hold the office.

MADISON, Wis., Jan. 2.—Francis E. McGovern of Milwaukee was sworn in as governor of Wisconsin at noon today. A feature of the inauguration will be a big ball in the gymnasium tonight.

Caucus in Illinois Today.

SPRINGFIELD, Ill., Jan. 2.—Members of the legislature flocked to Springfield this morning. The chief interest was in the speakership situation, pending the caucuses to be held tomorrow. The outcome depends on the action of the followers of former Speaker Edward D. Shurtleff of Marengo.

John Says:—

"A 'New Years' Swear Off' is as easily busted as a pane of glass. Half of the men who yesterday swore off smoking will be blowing rings again as soon as some one mentions 'Trust Buster' 6c cigars."
