The sixth annual automobile show of the Omaha Automobile Dealers' association will open with every expense paid in full and all money taken will be profits. The arrangements for the show provide that each dealer shall pay for his space, and this puts a rum of money in the treasury that pays the expenses. At the end of the show the money taken in will be divided up proportionally and refunded to the

A meeting of the men who will exhibit motor trucks was held in the last week and arrangements for the placing of the exhibits made. The Murphy company will have six heavy transport trucks, the Electric garage two Packard machines, the Johnson-Danforth company the Avery truck, which is well known in eastern cities, but new here; the Nebraska Buick company one of its cars and the Norwall company one of its light one-cylinder delivery cars.

The basement floor of the Auditorium will be turned over to the merchandise cars, a heavy floor installed and decorations fitted up just as on the main floor. The Auditorium has been so built that the trucks can be run directly in from the street, making it easy to have the truck exhibition in the basement.

It was found necessary to shut down on outside dealers exhibiting in this show, as the space available was all taken up by the Omaha men. In this city, however, almost every standard make of car is represented and only the small independent firms are the ones affected.

Posters advertising the Omaha show are being sent out to outside towns by Clarke Powell, secretary of the association, and the country visitors to the exhibition will be here in much greater force than ever Many of the small town auto dealers have signified their intentions of getting pointers in the business by comins to Omaha February 20, when all Omaha

will be automobiles. Local arrangements for an interesting orchestra will be on hand at the Auditorium afternoon and evening sii during the week of the show and several touring by the dealers' association.

But Four Star Ones in National League-Jake Stahl, One of Two in American, to Retire.

NEW YORK, Jan. 7 .- Any minor league nanager who can develop a really star first baseman can obtain almost any price he cares to ask for them. Gilt-edged initial sackers belong to a rare breed and are becoming more valuable every day. NEW COACH TO BE SELECTED Maurice Benedict in Favor, While There is Little Chance for Johnny Bender, Hero of Many Grid-

tron Battle in Nebranka. LINCOLN, Jan. 7 .- (Special.)-The Nebraska athletje board was not "grandstanding" when it instructed its delegate to fight against the rule prohibiting summer base ball, and if unsuccessful in having the measure rescinded, then to fight base

ball as a collegiate sport. Base ball at Nebraska received a knockout blow yesterday at Des Moines when the conference approved the provision against summer base ball, passed last spring, with a few modifications.

"College base ball must go at Nebraska," says Dean Richards, who is the president of the athletic board. "We tried to take a conscientious attitude in regard to the rulng, and as such an attitude made it impossible for the players to participate, we believed it wiser to secure the revision of the rule or to abolish base ball.

"That is the reason our delegate was in atructed to take radical steps to secure the abolishment of the rule. We were not attempting to hold a club over other colleges, neither did we believe in passing a rule which every college knows must be violated if base ball is retained as a college sport. The board will undoubtedly abolish base ball at Nebraska. That is the only consistent course to pursue, and I am sure that it is what will happen,

"You may say for me that I am greatly disappointed in the action of the confernce in regard to the summer base ball."

Action No Surprise to Richards. Dean Richards was not much surprised by the action of the conference in regard to the annual Thanksgiving day game. He had rather expected the board to fight against the abolishment of the game, but said that he understood fully the objections against a Turkey day game. He concurs fully with the view that finances will be seriously impaired at Nebraska by the abolition of the Thanksgiving day battle.

"It remains to be seen," says Dean Rich-BOY JOCKEY MAKES MILLION ards, "whether the management can schedule enough big games to make up the loss sustained by the abolition of the Thanks-Danny Maher Drives Kinnikinic to

Eager has long been in favor of doing away with William Clarke Puts Him on Ground base ball if the rule could not be rescinded. S. V. Shonka was also strongly opposed to playing under the ruling.

The other faculty members of the board, with the exception of Dr. Clapp, agree with Richards and Eager. The undergraduates will sustain any action taken by the Maher was thrown into the saddle carried board looking toward the abolishment of

New Coach Must Stick. "The man who comes to Nebraska as coach of the foot ball team must come with the idea of making it his life work." declared Dean Richards Saturday morning. We do not want some one to come who intends to stay two or three years. We want a man who is willing to devote his of a typical American horseman attached time to developing the athletic policy of the school, and such a man will have to ever knew, but such has been the result of
