

COMMENCEMENT AT MID YEAR

High School Class to End Work January 27.

DR. G. E. VINCENT WILL SPEAK

Address on "Playing Games" by New President of State University of Minnesota—Seek Place for Exercises.

Omaha High school will hold its first midwinter graduation exercises Friday, January 27. A class of seventeen, six young men and eleven young women, will be graduated.

The exercises probably will be held in the First Methodist church, corner of Twentieth and Davenport streets. William M. Davidson, superintendent of schools, has not been able to decide on a place of holding the graduation exercises.

Superintendent Davidson is enthusiastic over the innovation. "For years I have been agitating the double commencement, but until last June I was unable to get the movement going," said he.

"Under the new scheme I believe that it will take about five years to equate conditions. In that time we will be graduating as many as we receive into the high school each year. I am free to predict, also, the number graduated will have been increased by half within that time."

Kennedy Names the Committees for the School Board

Omaha Amateurs Play for Charity

"Every Man" to Be Presented by the Visiting Nurses' Association Next Month.

"Everyman" the famous old morality play, is to be staged in Omaha next month. The play will be given in behalf of the Visiting Nurse association by Lloyd Ingraham, who will be assisted by a number of society amateurs.

The announcement is of more than ordinary interest and this for several reasons. "Everyman" has never been played in Omaha, but every Omaha theater-goer knows of the success of Edith Wynn Matson in the role during the years 1892 and 1893.

Mr. Ingraham will play the title role which is regularly a man's part, although most famously played by the wife of Charles Rang Kennedy.

Locked in Box Car; Both Feet Frozen

Dick Shofeldt, a Hoosier, Must Suffer Amputation of Both Members, Say Physicians.

Dick Shofeldt of Huntington, Ind., will lose both feet from having been frozen while locked three days in a box car. Shofeldt walked painfully from South Omaha to the Omaha police station, after having been liberated.

He was taken to the county hospital where physicians say both feet must be amputated.

Shofeldt says he got on the freight car at Corning, Ia., after paying a brakeman 25 cents and asking the man not to lock the box car door. Instead of keeping his promise, the brakeman fastened his passenger in.
