London Stock Market.

Situation in Wheat Shows High Re-

cuperative Power.

strongly in favor of further advances and weather conditions are regarded with less importance.

The corn market is in practically the same position as wheat. Heavy bulging the sales have had no effect on checking the advance and the market daily works into a stronger position.

After a strong and higher opening wheat slumped off and ranged slightly lower during the best part of the session. News of any feature was lacking and a dull market was the result. Cash values were unchanged.

of oats and wheat and flour equal to 43,985 bu.

Liverpool closed %d higher on wheat and 12d to %d higher on corn.

Market Unsettled as Result of Selling of Pennsylvania Shares.

INCREASE CAUSES MUCH ALARM Action of Directors in Increasing Company's Capitalization Gives Rise to Fears Others May Follow Example.

NEW YORK, Jan. 12.-The stock market NEW YORK, Jan. II.—The stock market was more or less unsertied all day by reason of the heavy selling of Pennsylvania shares following yesterday's announcement that the directors had proposed to the stockholders an increase of \$100,000,000 in the company's capitalization. The action of the directors gave rise to fears that similar steps may soon be taken by various othe roads, with a resultant congestion of the securities market. Pennsylvania sold down to 12%, a loss of 3% points from the previous day's high price on a total of transactions much in excess of any recent day.

Industrial shares were described by the second shares and the second shares a second share and the second shares are shared by the second shares and the second shares are shared by the second shared by t

cess of any recent day.

Industrial shares were fairly steady under the lead of United States Steel, which was affected favorably by reports that operations are soon to be resumed at one of the corporation's largest plants, as well as the decision of the leading manufacturers to maintain the existing schedule of prices. Taking the market as a whole, its professional tone was even more pronounced. Trading diminished in the late session, but the market hardened gradually until at the close prices were near the best of the day. A further recession in fultures on copper was shown in the London market and there were reports ceasion in futures on copper was shown in the London market and there were reports of slight price shadings here, but they lacked confirmation in official quarters.

It was rumored that large exports of the metal are under negotiations, but the day a developments in the local copper market gave no indication of this.

Among the few interesting railway reports of the day was that of the St. Paul road for November, which showed a decrease of over \$750,000. The Puget Sound division of the system showed a net increase for the same period of \$124,000. Net returns of threescore representative lines for November show a decrease in net of 5.52 per cent.

Bonds were irregular. Total sales

5.52 per cent.
Bonds were irregular. Total sales, par value, \$2,360,000. United States bonds were unchanged on call.

the week show a falling off of over 2,000 5 western ewes a head, as compared with the same days a 10 western lambs year ago. year ago.

Conditions at all points seemed very favorable to the selling interests this morning and sellers started out with a determination to force buyers to pay more money than yesterday. In this they were successful in many cases. The desirable beef steers sold all the way from steady to as much as 10c higher in some cases.

The medium kinds of cows sold at steady to strong prices and the demand was good. On the other hand holders of good cows in some cases complained that buyers did not seem very anxious for them at prevailing prices, and that they moved slowly as a result.

the same conditions at Chicago and other points.

Movement was quiet and with the supply well up to normal it required the greater part of the morning to make anything like a clearance. Lights and light mixed were favored as usual, but quality continued as the big factor in determining

price.

Loads with weight brought \$7.70 and less, according to quality and good light mixed brought \$7.7597.30. Best bacon grades on sale commanded \$7.90, most of the high-priced offerings being bought for specula-

priced offerings being bought to retrive purposes.

Receipts for the week thus far are fairly large, but weakening influences at other points have affected trade more or less and present prices, it will be noted, are fully be lower than those paid last Saturday.

SHEEP-Prices paid in the sheep barr for all kinds of fat offerings averaged gen erally strong this morning. Receipts were relatively limited and with a reasonably active and fairly broad demand from packers everything on sale moved in very good season. Supplies of sheep and lambs were about equally divided and weights as a rule were still heavy.
Good ewes sold as high as \$4.00 and wethers of handy weight were wanted around \$4.15. No very desirable light yearlings were received but anything good in this line would probably sell at \$5.00 and better.

better.

Lambs brought \$6.15, two separate shipments bringing this figure. They were choice, of course, and the sales can hardly be taken as a basis for a quotable top of \$6.25, although such a price is not an impossible one. Bulk of good lambs moved around \$6.90.

One separable feature of trade that

around \$6.00.

One seasonable feature of trade that deserves mention is the fact that scattered strings of heavy native stuff are showing up in the run. These heavy natives, when brought into competition with well finished westerns, are selling none too readily, for the reason that dressing percentages on the latter class of stock are more easily estimated. estimated. Railroad Pays \$1,500 a Day to Feed Storm Bound Passengers

Five Hundred Persons Tied Up in * Calgary by Worst Blizzard in Years.

WINNIPEG, Man., Jan. 12-The worm blinzard in years has been raging in the Rocky Mountains for the last three days, tieing up completely the traffic of the Canadian Pacific railway. A snowslide near Field has leveled the telegraph wires and poles for several hundred feet carrying them into Columbia Hiver canyon. A dozen passenger trains held up are almost buried n the snow.

VANCOUVER, B. C., Jan. 12.-Snowslides east of Field and bliggards on the prairies continue to impede the Canadian Pacific train service and not a transcontinental train has come through to the coast since

It is costing the Canadian Pacific railway \$1,500 a day to feed 500 passengers tied up at Calgary on the way to Vancouver and no prediction is made as to when the road will be open.

Grooves cut through snow banks in the mountains fill very rapidly. The sun is shining brightly at Galgary and though the thermometer is low there is no inconveniences and absolutely no suffering. On the Crow's Nest line, twelve trains are tied up within six miles of Michael.

DAKOTANS WILL INVESTIGATE

Soldiers' Home Inquiry Committee Will Probably Be Named Today.

PIERRE, S. D., 2Jan. 12.-(Special Telegram.)-Representative Stuverude started his bill today to eliminate the long hatpins, his hats and towering hair dressing. He limits hatpins to seven inches, and they must be muzzled, and makes wearing hats and head dresses in a public meeting a finable offense.

The committee on compensation, after a hot session last night, cut out the employes of the secretary of state from the legislative payroll and if they can make it stick will save about \$7,000.

The commission of investigation of the Soldiers' Home will likely be appointed to: morrow, and the most probable senate list will be Wyman, Johnson and Morrissey. Two of the probable house list will be Browne and Ziebach, with the rest of the list in the air.

The house passed its first bill today in the one which seeks to give protection to antelope for six years in this state, and this will be pushed along as there is now no protection whatever for these animals.

INSURANCE COMPANY ELECTS Commonwealth Life Selects Same Men to Handle Its Affairs Another Year.

Officers of the Commonwealth Life Insurance company were re-elected at a meeting of the stockholders in the company's offices in the Omaha National bank building Tuesday. Sherman Saunders, Franz Nelson and A. D. Marriott were re-elected directors for three years, Clark O'Hanlon and C. C. Parmele for two years and E. H. Mason for one year. About fifty stockholders were present and all were very much enthused over the showing made by the company during the four steady to strong prices and the demand was good. On the other hand holders of good cows in some cases complained that buyers did not seem very anxious for them at prevailing prices, and that they moved slowly as a result.

Feeders were in good demand and desirable kinds sold quite readily at good, firm prices. The fact is the feeder market has been good all the week and prices have been strong every day.
