# **The Luther Burbank** Exhibit will show you the wonder creation-

of the man who proposes that all the world's waste places shall be utilized and all plant life shall be trained to produce better fruits, greater beauty and be more value to mankind in general.

This man would turn the seething desert with its thorny cactus into a value producing and life giving garden peopled by a prosperous people instead of the death dealing scorpion and rattlerso he takes the cactus that is fit for nothing and by hybridization and cross breeding makes a huge plant, whose leaves are food for animals and whose fruit is food for man.

This man is a scientist, who sees in the future better grains, nuts, fruits and vegetables, all in new forms, sizes, colors and flavors with more nutrients and less waste and with every inferior and poisonous quality eliminated and with power to resist sun, wind, rain, frost and destructive fungus and insect pests; fruits without pits, seeds or spines; better fiber, coffee, tea, spice, rubher, oil, paper and timber trees and sugar starch color and perfume plants.

The Burbank Exhibit at the Omaha Land Show, January 18 to 28, 1911, will be a part of the Union Pacific Exhibit, and consists of grapes, peas, beans, cherries, asparagus, flowers and complete exhibit of spineless cactus-Burbank's most wonderful creation. This is the first time that a collection of Burbank's creations has ever been exhibited at any show.

25 cents, the general admission price, takes you to every exhibit, show and lecture
