Delegates Discuss Playgrounds.

Prof. H. B. Alexander, who was to speak upon the "Relation of the Playground Movement to Education," at the charitable conference now in session here, could not be present today and his paper was read by Prof. Lucile Eaves. The relation of the playground to the moral life of children was admirably discussed. W. E. Hardy read a paper on "The Prevention of Unsanitary Housing Conditions" and described the evils of the tenement system. Prof. Eaves called attention to the fact that Omaha and Lincoln are face to face with the problems set forth in Prof. Hardy's paper and should prepare to act now.

Mrs. R. K. J. Edholm spoke upon "Civic Rightness and Tuberculosis" and pointed out the necessity for action against the advance of the disease, which by careful prevention could be reduced to minimum danger. Prof. A. L. Candy gave a history of charity work in Lincoln. Mayor Love gave an address in the afternoon on the relation and obligation of the city and county to the poor.

The efforts of State Auditor Barton to complete a deal with the representatives of the Syracuse capitalists that wanted to get control of the Farmers' and Merchants' insurance company were a failure and he went to Kansas City to a conference with the buyers there and received more favorable action. Members of the Kansas company will probably arrive in Lincoln tomorrow and look the property over with a view to taking it and organizing a company which will have a capital of \$400,000 or \$500,000.

Hitchcock at Commercial Club.

Congressman Hitchcock spoke at the Commercial club at noon today and assured Lincoln men present that in the senate he would represent the whole state of Nebraska and not any one part of it. He was introduced by Henry T. Clarke, Jr., railway commissioner.

To Line Up Suspects at Victim's Bedside

Captain Savage Will Ask Reuben Elton to Point Out His Assaultants.

Captain Savage will take his four suspects in the holdup cases to the home of Elton, the druggist, Wednesday morning for a possible identification as the men who held him up and shot him in his store last week. Elton's condition has been such as to prevent an earlier visit, but by that time the doctors in charge think that his condition will be sufficiently improved.

Since the identification by Conductor Kruger when he pointed out Trimble and Nazei as two of the three boys who boarded his car shortly after the holdup acting in a suspicious manner, Captain Savage has been confidently counting upon a positive identification by the druggist.

A new hotel is in process of erection at Bellevue. The building will be the largest in the town when complete and is being built of cement blocks. The foundation is completed and the boilers are being installed. Bowling alleys, barber shop, pool room and natatorium are to be included. The site is a desirable one, being a corner at the principle interurban crossing, opposite the street car station, at the foot of the college hill.
