CONSTITUTIONAL INFECTION

Constitutional Blood Poison is the most insidious of all diseases. It begins in an insignificant manner, usually the appearance of a tiny sore being the only outward evidence of its presence. But down in the blood the treacherous infection is at work, and in a short time its chain of symptoms begin to crop out. The mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, the glands in the groin swell, and sometimes the hair comes out. Mineral medicines cannot cure Constitutional Blood Poison; they only shut the disease up in the system to smoulder and await an opportunity of breaking out afresh. The only possible way to cure the disease is to REMOVE the germs from the blood. S. S. S. goes into the blood, and while removing the infection makes the blood pure, fresh and healthy. This
