Cars Holds Fairly Firm in Face of the Rudical Decime in Wheat-

Conditions Are Generally Bearlah.

OMAHA. Jan. 31. 1811.

Foreign cables on wheat came firm, not following our decline yesterday. Upening these were steady, with some advance over yesterday's close. With sufficient moisture and milit weather over the wheat nelt and slow cash demand news is favoring the bear side. Selling pressure is heavy and declines in order the present time. The corn market is stubborn and holding its own regardless of the decline in wheat. Liberal receipts are being well taken and rantern and export demand is showing good increases.

After ruling firm early on steadiness in laverpool the wheat market suffered a sharp break on free liquidation by longs on weakness in northwestern markets. Closing values showed a heavy time. Cash wheat was very stull and prices ranged is site lower.

Reports also regarding the shutdown of additional mills in Minneap-olls were parried with denials minimizing the effect until the market collarge. had been forthcoming and apparently was much needed at the dollar level for May. May fluctuated between 98%c to \$1.60%, with the close 1%@1%c net lower at

25%409c. Foorness both of domestic and export demand made corn dull and neavy. May ranged between 49%400c. Cash corn was weak; No. 2 yellow finishing at 479474c. Oats were relatively steady because local receipts of the week were but little in ex-cess of shipments. Price changes for May kept within 16c limits and in the end were precisely that much under last night's
