NEW YORK STOCKS AND BONDS

Interest Centers on Big Issue of New York Bonds. Market Distinctly Apathetic on Very Light Volume of Business—Prices Move Irregularly in Very Narrow Groove.

NEW YORK, Jan. 24.—The interest of the financial community today converged largely around the \$10,000,000 issue of New York city 4 1/2 per cent bonds.

The sum total of subscriptions was probably several times greater than the amount offered. That most gratifying feature of the offering was the large number of foreign bids in which French financial interests are reported to be especially prominent.

The stock market itself was distinctly apathetic on a very light volume of business. Prices moved irregularly and in a very narrow groove with the tendency toward a more successful outcome.

The inflow of money to the center today was smaller than has recently been the case, but the banks continued to gain on operations with the ordinary day.

The general bond market was firm. United States government bonds unchanged on call.
