Five Men Considered  
for the Post of Dean

List is Made by Bishop and Members  
of Vestry, from Which Successor  
Will Be Chosen.

Five men are being considered by the  
vestry of Trinity cathedral and Bishop A.  
L. Williams for the post of dean of the  
cathedral. Rumors of the favorites of the  
bishop or the several members of the ves-  
try are floating around, but the members  
of the vestry and the bishop all agree  
that nothing will be done until after the  
next vestry meeting.

The list of the men being considered as  
possible is:  
The Rev. Hubert N. Wells, rector of St.  
Andrew's church, Wilmington, Del.  
The Rev. George Davidson, rector of St.  
Luke's church, Marietta, O.  
The Rev. J. A. Tancock, rector of Christ  
church, Douglas, Wyo.  
The Rev. J. S. Bunting, rector of Christ  
church, Macao, F. P.  
The Rev. R. F. Perry Silver, secretary  
Seventh Missionary department.

The Rev. Mr. Tancock preached in Trin-  
ity cathedral a few Sundays ago and was  
very well received here. He is understood  
to be a favorite with several members of  
the vestry. On the other hand, the Rev.  
Perry Silver is a former Omaha man and  
has many friends among the congregation  
of Trinity and may land the deanship.

Special Order to Mail  
Clerks to Be Out Today

Van Dervoort Pays Official Visit and  
Leaves Order Which Concedes  
Certain Demands.

An order coming from the Postoffice  
department headquarters at Washington,  
D. C., will be made known to the local  
railway mail clerks, offering them many  
concessions to their demands. Today. This  
became known yesterday following a visit  
of a few hours in the city by Second As-  
sistant Superintendent Van Dervoort of  
this division, in which he paid an official  
call to Postmaster B. F. Thomas and Chief  
Clerk W. J. Mettlen.

The orders which Mr. Van Dervoort  
placed in the hands of the local chief  
clerk were held in strict secrecy, pending  
their issuance today, but their general  
tenor became known in postoffice circles.  
It is understood that, among other things,  
the department at Washington is arrang-  
ing to place extra men on the work which  
the railway mail clerks now have to at-  
tend to outside of their regular road  
duties. It is expected the provision for  
lightening the mail clerks' lot will prob-  
ably satisfy all grievances.

coughs and colds by the use of Foley's  
Honey and Tar and I am never without a  
bottle in the house. It soothes and re-  
lieves the irritation in the throat and  
loosens up the cold. I have always found  
it a reliable cough cure." Sold by all

## AFFAIRS AT SOUTH OMAHA

Ordinance for Stock Yards Water  
Plant Pending in Council.

## MAYOR INSPECTS CITY HYDRANTS

Suggestions Made for Changes in the  
Location of Important Fire Plugs  
—Funeral of Mrs. Stora  
Friday.

It was given out yesterday that between  
800 and 900 names have been received to  
the petitions calling for a special election in  
case the franchise is granted the Stock  
Yards company for laying a line of pipes  
through certain streets from the river to a  
reservoir in the stock yards district. Several  
grounds of objection have been discus-  
sioned in the controversy, which has ranged  
over the past two weeks. As was pointed  
out some time ago, there is an objection to  
the use of the phrase "stock yards company"  
or its assigns. It is held that this will  
give the company liberty to sell out to a  
syndicate from anywhere.

In reply to this the stock yards people  
say that they have no such intention and  
that the "assigns" represents a company  
composed of the stock yards and packing  
house interests that will run and operate  
the plant. "We only want," a packing  
house official said, "water to run our  
plants, and we have no desire either to  
enter into competition with any com-  
pany or persons supplying South Omaha  
with water."

Another point raised is that the ordinance  
does not indicate the streets through which  
the line of pipes shall run. The stock yards  
people object to making this any more  
definite and say there are only a few  
streets from the river and that if they  
designate any they would have to pay an  
exorbitant price for the land, once this  
was known.

Further action on the ordinance awaits  
the decision of the judiciary committee  
of the city council. If some statements  
made yesterday were to be believed, Mayor  
Trahnor has committed himself to the pass-  
ing of the ordinance and was going to have  
it pushed through the council. In the po-  
sition the matter at present stands in the  
committee, such a statement could only  
be made for the purpose of politics and  
discrediting the city administration. "I  
have no open mind on the subject," de-  
clared Mayor Trahnor, "but it has not yet  
come up to me for action. The council  
has yet to pass upon the subject and they  
will make their decision when the judiciary  
committee reports either for or against  
the ordinance."

But aside from these objections urged  
against the passing of the ordinance in its  
present form there is a general objection  
against "doing anything," as it is put, for  
the stock yards company until it comes to  
terms in connection with the F street viaduct.

This is an old bone of contention between  
the people resident in the northwest side  
of the city and the company for years. It  
has been made an election rallying cry  
again and again by both parties and like  
King Charles' head it has cropped up again.  
Members of the council do not conceal the  
fact that they will continue to oppose the  
granting of the ordinance no matter how  
strong the case made out in favor of it  
until the stock yards company comes to  
terms in connection with the construction  
of this viaduct across the tracks. It is  
thus the situation in regard to the ordi-  
nance stands and it has yet to get its  
second and third reading.

**City and Water Company.**  
A committee of the city council with  
Mayor Trahnor and Charles Collins, local  
superintendent of the water company, yester-  
day made an inspection of certain  
hydrants complained of by the mayor when  
he vetoed the bill of the company for  
water service at the meeting of the coun-  
cil January 18. Mayor Trahnor stated that  
after the inspection Superintendent Collins  
admitted the mayor's contentions were  
justified both as to location and pressure.

It was suggested that the hydrant at the  
northwest corner of Q street and the viaduct  
not under it as at present and to this ar-  
rangement Mr. Collins agreed. Another  
suggestion made was that the Union Pa-  
cific company should be approached to  
make an opening in its highboard fence so  
that the fire department should have ready  
access to the hydrant at the Swift com-  
pany's plant. This hydrant is meant for  
the protection of the plant and this part  
of the city. As to the pressure at West L  
street, Mr. Collins admitted that it is low  
at certain times.

In connection with the new stock yards  
water scheme this fact has been fre-  
quently commented upon. The low pres-  
sure, it is stated, is due to the amount of  
water being drawn by the stock yards and  
packing houses and it is affirmed the new  
scheme will relieve it not altogether do  
away with this situation.

What will be done with regard to the  
hydrant at Twenty-fourth and Q street  
is a matter for further determination by  
the council. It is really only available in  
case of a fire when notice is given the  
water company and it is stated that owing  
to the cellar of a store at this corner being  
so much below the street the danger of  
a burst is feared if the hydrant were  
allowed to be in continual operation the  
same as others.

**Postoffice Changes.**  
Postmaster Law F. Etter announced this  
morning the changes in the department  
consequent upon his promotion to the  
charge of the office. As was generally  
expected, Charles W. Mettlen succeeds  
Mr. Etter as assistant postmaster. This  
position, according to the new rules, is  
under the civil service commission, but  
aside from this restriction the power of  
appointment is discretionary with the post-  
master in making all the changes. Post-  
master Etter has given credit for length  
of service when it has been combined with  
efficiency. Assistant Postmaster Miller  
has been connected with the South Omaha  
office for twenty-two years, nine of which  
he has officiated as superintendent of the  
Stock Yards station. His successor here,  
Frank H. Clark, has been in the office for  
twenty-one years, and Jacob G. Jacobson,  
who becomes the new foreman of crews  
has been a government official for nine-  
teen years.

The following is the complete list of ap-  
pointments and changes:  
C. W. Miller, superintendent of Stock  
Yards station, to be assistant postmaster;  
Frank H. Clark, foreman of crews, to  
superintendent Stock Yards station; Jacob  
G. Jacobson, mailing division, to foreman  
of crews; Thomas C. Allen, mailing divi-  
sion, to mailing division main office;

office, to mailing division station; Thomas  
J. Fitzgerald, carrier to clerk, general de-  
livery; Blanche T. Johnson, money order  
division, transferred to money order divi-  
sion, San Francisco, Cal.; Charles T. Cowan,  
stamp division, to money order division;  
Clarence R. Way to stamp division; E. G.  
Roselle, route No. 4, to route No. 19;  
William S. Derbyshire, route No. 4, to route

carrier to regular route No. 8; Michael X.  
Donahue appointed substitute carrier.

at the residence of her daughter, Mrs. W.  
H. Russell, Twenty-third and Q streets,  
aged 88 years. She is survived by two  
daughters, Mrs. David Callahan and Mrs.

## Annual January Sales 1911

The housewife of today with wardrobes, linen presses, roomy cupboards, closets, cabinets and sideboards at her command, cannot appreciate the difficulties which beset her ancestors. Probably she has never given thought to the situation of the women of olden times and does not know that the problem of "where to put things" has ever been a perplexing one. In the days of the Tudors the housewife who was tidily furrowed her brow over this question. In designing furniture, masters of the art in that and other periods struggled to devise articles which would give women room for their many trinkets and dresses. How ingeniously they succeeded can be learned by an inspection of patterns of the various classical periods in our store. These will enable the housewife to look back into other centuries and see how her ancestors were provided for by master designers whose models have been reproduced for use in the simplest cottage and most elegant mansion. Prices on classical and modern patterns have been reduced for the closing days of our January sale, making alluring attractions for shoppers.

Dr. C. M. Schindler and wife left today for an extended trip to the Pacific coast via Spokane, San Francisco, Los Angeles and Texas. They will return about March 1 by way of New Orleans. **Board Wants Further Powers.**  
City Clerk Good made a trip to Lin-coln Tuesday night and was there yester-day. It is said that his visit was in con-nection with further amendments to the charter. Some members of the Fire and Police board want power to purchase sup-plies and it is alleged that the city clerk's migration to the state capital was in con-nection with something in this regard. Such a proposition was not discussed at any meeting of the Fire and Police board and was neither brought before the char-ter revision committee nor the executive committee of that body.
