

Home of Duffy's Pure Malt Whiskey

The accompanying illustration shows the plant of the Duffy Malt Whiskey Company at Waterloo, N. Y., and the executive offices in Rochester, N. Y. This plant is the largest and most complete of its kind in the world, occupying fifteen acres of land. It is fully equipped with every up-to-date, sanitary device, thus guarding against any impurities or contamination.

There are duplicate warehouses a great distance apart filled with Duffy's Pure Malt Whiskey, which is laid away in the wood to soften it and make it more palatable, so in case of fire in one warehouse the trade can be supplied and the high quality and excellence maintained. This farsighted business policy and the desire to give humanity the best product of its kind are what have made Duffy's Pure Malt Whiskey the most celebrated curative agent in the world.

HOW IT IS MADE—WHAT IT DOES

It is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, producing a liquid food, tonic and stimulant, requiring no digestion, in the form of a medicinal whiskey. It stimulates the mucous surfaces and the little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving the system its full proportion of nourishment. Its gentle and invigorating properties influence for good every important organ in the body.

OLD AGE IS A DISEASE THAT MAY BE OVERCOME

Duffy's Pure Malt Whiskey, the great renewer of youth, makes the old feel young enough to run the race of life beyond the century mark and keeps the young strong and vigorous. It has carried the blessings of health to hundreds of thousands of homes during the past fifty years, and it stands today without a rival as the greatest body builder known to science.

1860—50 YEARS' SUCCESSFUL PROGRESS—1910

1860—just a half century ago—the formula of Duffy's Pure Malt Whiskey was discovered. It was also discovered that it was a great curative agent in the treatment of tuberculosis, pneumonia, grip, coughs, colds, other throat and lung troubles and in all stomach troubles.

The merit and honesty of an article that has been before the public for such a length of time cannot be questioned. Scientists have tested it, chemists have analyzed it and always found it pure and full of medicinal virtue; doctors have prescribed it, ministers of the Gospel, temperance advocates and men and women in all walks of life have used it, and all indorse it as the most effective tonic stimulant that nourishes the body, stimulates the circulation of the blood and acts as an aid to digestion, thus keeping the entire system in a normal, healthy condition and stopping the inroads of disease and old age. The fame of Duffy's Pure Malt Whiskey has spread the world over, and it stands today the most celebrated and most successful medicine known.

While Duffy's Pure Malt Whiskey is made by the most expensive process in order to insure its uniform high quality, yet it is sold for \$1.00 a large bottle by all druggists, grocers and dealers who sell wines and liquors or, if they can't supply you, write The Duffy Malt Whiskey Co., Rochester, N. Y., giving the name of your dealer and it will be sent prepaid on receipt of price.

LINCOLN TOO GOOD A PLACE?

Forty Business Men Assert City Needs More Freedom.

WANT SALOONS ESTABLISHED

New Organization Will Put Up Candidates for Mayor and Two Excisemen—Committee to Draw Up Plans.

(From a Staff Correspondent.) LINCOLN, Neb., Jan. 28.—(Special.)—Asserting that Lincoln has been governed too narrowly during the last two years and desiring an administration which will allow a few saloons to be established forty business men met last night at the Lincoln hotel and decided to put a candidate in the field at the next election. The men interested are not willing to make public their deliberations or their plan because they wish to make a statement to the public when they are fully prepared which will cover the whole case. It is known, however, that they are definitely in favor of what they call "a bigger and broader Lincoln," and they advocate the licensing of a few liquor merchants. They will support a candidate for mayor and two business men for the excise board. Five men have been appointed as a committee to draw up plans.

Commercial Club Adopts Plan. The "Williamson plan" for getting industries into a city will be tried by Lincoln. The idea is for business men to subscribe to a fund of several hundred thousand dollars credit, not cash, which is to be at the service of new industries locating in the city. This is to serve as a guaranty to new firms to encourage them to invest.

He pleaded not guilty and preliminary hearing was set for February 21. Bond was first fixed at \$1,000, but later Judge Burton raised the amount to \$2,000. The doctor remained in the custody of the sheriff, unable to find bondsmen during the day.

Miss Haytt, aged 18 years and a clerk in a dry good store, was accosted by a man as she left the store Thursday evening.
