BY LADY MARY MANWARING.

LONDON, Jan. 28 .- (Special to The Bee.) -Queen Mary intends to give an object lesson to the high aristocracy of Great Britain at the coronation of the importance of patronizing home industries. She has given strict orders that her robes for the coronation, the opening of Parilament, and the various courts to be held in 1911 shall one and all be exclusively of British manufacture. Not only silks and satins, and velvets and brocades are included in this deal last year, both with Mrs. Carvi Barregulation, but every detail of embroidery.

It is a wonderful cure when mixed with certain other ingredients and taken properly. Take in tables spoonful doses before each meal and be-fore retiring." Any druggist has these in-gredients or will quickly set them. Any one can mix them. This formula was pub-lished here iast winter and thousands were promptly benefited. It gives immediate relisf.

The new appointments in the royal household have aroused much interest. The question of the queen's maids of honor has been the subject of considerable discussion. Although the selection has been unofficially known to a small circle, not even the girls themselves would acknowledge it until the appointments were made.

The Hon. Venetia Baring is the eldest daughter of Lord Ashburton by his first marriage and is in her twenty-first year. She and her sister, Miss Aurea Baring, are popular society girls and went about a good ing and with their young American stepmother.
