Nebraska and Iowa Represented by Large Delegations-Fink Says Industry Would Be Wiped Out in Northwest.

WASHINGTON, Feb. 4 .- That the Cana dian reciprocal agreement must stand or fall as a whole in the house committee on ways and means was made clear today by Chairman Payne at hearings that occupied the entire day. A proposal of Representative Fordney for an amendment to the lumber schedule and another reference to a possible amendment of the item making barley free were met by the unequivoral statement that the committee would sanction no change of any item.

Notwithstanding this, the pressure brought to bear on the committee has resulted in the granting of hearings to all persons who appear in Washington prior to 5 o'clock next Thursday afternoon.
