## FOOT BALL RULES CHANGED

Intercollegiate Committee Reduces Length of Intermissions.

CHANGE IN THE FORWARD PASS

Decide if Ball, After Being Passed and Touched, Be Fumbled and Touch Ground Pass Shall Be Incomplete.

NEW YORK, Feb. 4.-The intercollegiate football rules committee did a little more surgery on the game at a meeting in New

York yesterday. With E. K. Hall of Dartmouth as chairman and Walter Camp as secretary the committee decided that intermissions were too long and reduced the periods between the first and second and the third and fourth quarters from three minutes to two minutes. A new rule was adopted permitting teams by agreement to transfer the supervision of offside play upon the line of scrimmage from umpire to head lines-

infraction to the umpire

Another new rule provides that throwing a player to the ground after the referee has declared the ball dead may be considered unnecessary roughness. An amendment was adopted allowing only on each side of the line. The present rule allows five. If the ball accidentally strikes an official, provides another amendment, It shall not become dead, but play shall

A new rule adopted specifies that all penalties under the rule regulating the forward pass shall be applied from the spot of the down and not the spot from which the pass was made.

Umpire to Keep Time.

The committee transferred the duty of keeping time from the field judge to the umpire and in rule 18, section 2, which provides that a player in catching for a pass shall not be tackled or shouldered un words "taken more than one step in any direction" were stricken out. After the conference Mr. Hall said:

The reason the committee made so few changes is that we feel the game has ac complished what the new rules started out to do-the elimination of serious injuries- Briley Murder Case and that it was now a safe and playable game. It seemed unwise to make any changes with a game that worked pretty well, after the coaches and players got the understanding of it, until we'are reasonably certain, in light of further experience, whether any changes are necessary and what the changes should be.

Forward Pass Rule.

It was decided that if the ball, after having been legally passed forward and been touched, shall then be fumbled and touch the ground, the pass shall be considered as incomplete. The object of this argument. rule is to stop high passes and make a. The trial has occupied the attention of

Fatty Accumulations Are Unsightly, Uncomfortably and Tend to Produce Disease

The greatest danger that fat people encounter is with their heart. A futty heart may cause death at any moment. Fatty any less dangerous are fatty kidneys. In fact, fat wherever it is found and ought not to be, is a menace to life and good health. The inconvenience and annoyance of deposits of fat and useless flesh are moreover an indication that the blood is unhealthy and that the atomach is not properly assimilating the foed, so that people who are subject to corpulency and exces-sive fat should safeguard themselves against this advancing disease for which we have communly the name, obesity.

There was no reference made to Mr. Jerome's utterances, but the former district attorney secured a delay of twenty-four hours in the arraignment of his client. Joseph G. Robin, on the charge of the larceny of \$89,000 from the Washington Savings bank.

Jerome's contention that the proceeding was a new one was upheld by the court. Indictments were ordered by the grand jury today against William L. Brower, vice president, and William H. Mills, cashier of the Northern Bank of New York, the Robin institution, which was closed recently. The indictments charge violation of the law which prohibits concealment of loans by officials of a bank from the directors or trustees of the institution.

We have community the name, obesity.

Instead of tiresome exercise and dieting, a good way to teduce one's weight in the target of the ximple prescription which has been so successfully employed everywhere in making fat people comfortably/siender. As long as yo! take the Marmola Prescription, which consists of three ingredients and excessive fat and as soon as you find that you have gotten down to the weight and size that you wish—you acription is as foliows: \( \frac{1}{2} \) ounce Fluid Extract Cascara Aroundie, and 2\( \frac{1}{2} \) ounces Peppermint Water, and the dose is one teaspoonful after means and at certain the directors or trustees of the institution.
